**QUESTION 2.01:**

2.01 Please provide Table 1, Pipeline Hydrotest and Replacement Projects for 2018 Reasonableness Review, WP-Intro-3, as annotated in Response 1.1 to SCGC’s First Data Request with a further annotation to identify the functionalization of each project as high-pressure distribution, local transmission, or backbone.

**RESPONSE 2.01**

Response amended on April 3, 2019. Changes are noted in red and deletions are noted in red strikethrough. In the below table, the Phase 2B mileage column has been updated to reflect corrections to mileage characterizations. These corrections are reflected in the amended testimony and workpapers for A.18-11-010, served on April 2, 2019.

The table below has been annotated to indicate the proportional functionalization of the PSEP projects in this proceeding.
