Hi Mike,

As we mentioned in our February 23rd meeting, we are working diligently towards filing by April 7, 2023 under this new GO-177 process. The purpose of the February 23 meeting was to obtain input and guidance from Energy Division CEQA groups in accordance with GO 177 Section VI Part C. We are grateful for the guidance provided and are incorporating it into our application. If you would like us to meet with your consultant once they are retained, we would be happy to meet with them after the application is filed.

We will advise you promptly if our timeframe changes.

Hi [REDACTED],

We are working to contract an environmental consultant but the process may take several weeks. What is the likely filing date of the CPCN Application, and how far in advance of that date would your staff likely engage with the CPUC on pre-filing guidance?

Thanks.

Mike

Subject: [EXTERNAL] SoCalGas Ventura Compressor Modernization: Short Project Description, Maps, & Open House Invitation for CPUC CEQA

CAUTION: This email originated from outside of the organization. Do not click links or open attachments unless you recognize the sender and know the content is safe.

Good morning,

In follow up to our February 23 Ventura Compressor Modernization Project PEA Pre-Filing Meeting, attached please find our deliverables.

- Short project description
- Project description maps
- Invites/Information on the upcoming open houses

Also, as mentioned in the Pre-Filing Meeting, wanted to remind folks your SoCalGas contacts for this project are myself and Jeff Salazar. Jeff is copied here and his information is below.

[REDACTED], Regulatory Business Manager
[REDACTED]

If you ever have any questions, please reach out to Jeff and I.

Thanks,
