**Attachments:** AppendixQ\_PipelineRepair-revised Nov 2023CONFIDENTIAL.pdf

Good Morning Susan,

Per Alana's email below, Revised Appendix Q contains confidential information and was included as an attachment to her email along with the Confidential Declaration. The Appendix contains Confidential and Protected Materials pursuant to PUC Section 583, GO 66-D, and D.17-09-023. It is reattached for you here.

Attachment 4 to the PEA is the mailing labels which were provided with our original submittal. There were no changes to those and therefore not included in this submittal.

Please let myself or Alana know if you have any additional questions.

Thanks,

[REDACTED]  
Major Projects Environmental

Alana –

Comparing to the list in the cover letter to our files, we are missing **Appendix Q** (Pipeline Repair/Replacement and Inspection).

Also, I see that the cover letter does not list an **Attachment 4**, and there is not one in our folder. Does Attachment 4 exist?

Regarding the AQ modeling files, I'll let Brewster verify them next week. We do have the newest (v3) Zip files downloaded, but there are issues with the unzipping.

Thanks – Susan

Hi Susan,

I have uploaded Attachment 2 - AQ Modeling Files v3. The HARP and AERMOD folders have zipped folders inside of them. Let me know if you are not able to open these. I can likely break these down, if needed, but there are lots of native air modeling files inside of them.

Hopefully it works this time.

Thanks,

Hi Alana,

That zip file in the Attachments doesn't seem to want to un-zip. Could you try uploading unzipped files to that folder, or maybe a smaller collection of zipped docs?

Thanks - Susan

Hi Susan,

The screenshots below look correct. For Attachment 2- AQ modeling files please use "OneDrive\_2023-11-21.zip", the other two Attachment 2 folders are incomplete due to upload error.

Thanks,

Hi Alana,

Thank you for the completeness files. Brewster is away this week but let me show you what we are seeing in the Sharepoint folders where you have uploaded your information. It looks good to me, but please let us know if with just this look, you see anything that's not right. Screenshots below. We'll be diving into a review process right away.

Thanks again – Susan/Aspen

Subject: RE: Ventura Compressor Station Modernization Project, Response PEA Completeness Review

Hi Mike and Brewster,

SoCalGas's Response PEA Completeness Review and Revised Appendices/Attachments has been submitted via Kiteworks to Mike and uploaded to the SharePoint link Brewster has provided.

The Kiteworks submittal is 5 batches:

- Batch 2: Attachment 2- AQ Modeling Files.
- Batch 1: Response PEA Completeness Review (Response PEA Completeness Review, Cover letter, Revised Appendices, Attachment 3 and Attachment 5)
- Batch 3, 4, and 5: Attachment 1: References Cited.

Brewster, the first time two times I uploaded "Attachment 2- AQ modeling Files" and "v2" all of the files in the folder did not upload, and I was not able to delete them, please disregard these. I uploaded Attachment 2 – AQ Modeling Files as a zipped folder "OneDrive\_2023-11-21.zip" which has all the files.

Attached is SoCalGas' Revised Appendix Q and Confidential Declaration. Please note that this Appendix contains Confidential and Protected Materials pursuant to PUC Section 583, GO 66-D, and D.17-09-023.

Thank you, have a Happy Thanksgiving, and please let me know if you have any questions.

Hi Jeff –

I'll be away next week too (Monday 11/20 to Monday 11/27). I just emailed you, Alana, and Al & Mike a new folder where you should be able to upload material to Aspen. Thanks for the update.

Subject: Ventura Compressor Station Modernization Project, Logistics for Response to Deficiency Letter #1

Good morning Mike and Brewster,

As we mentioned earlier in the week, we are on track to submit our Response to Deficiency Letter #1 next Tuesday, 11/21.

I wanted to mention the logistics in submitting our Response. Our Response will be fairly large with multiple attachments. We plan to send electronically to CPUC (Mike) via Kiteworks and to Aspen (Brewster) via the SharePoint previously provided ([2023-08 from SoCalGas \[aspeneq-my.sharepoint.com\]](#)).

Additionally, we have a few confidential documents that will be provided pursuant to PUC Section 583, GO 66-D, and D.17-09-023 with a declaration. These will be provided in an email with the declaration.

Note, we are not providing a public (redacted) version of the confidential documents. When you set up the CEQA Webpage on the CPUC Website, we can work with you to provide redacted versions of the confidential documents we have previously shared and as part of this Response.

Note, I'll be out of the office next week, but Alana McKean will be submitting on behalf of SoCalGas. Brewster if you could add her for access to the Aspen SharePoint, that would be much appreciated.

Please let me know if you have any questions.

Regards,

[REDACTED]

SoCalGas
