A  Sempra Energy utility®

Energy Upgrade California® Home Upgrade provides assistance and incentives for home improvement projects that can reduce energy use and make homes more comfortable. This statewide program is managed locally by utilities and regional energy networks and directed by the California Public Utilities Commission in collaboration with the California Energy Commission. Funding comes from utility customers under the auspices of the California Public Utilities Commission. Incentives are offered on a first-come, first-served basis and are effective until the funding is expended or the program is discontinued. Terms and conditions apply. See program rules for details. Programs may be modified or terminated without prior notice.

\* SoCalGas customers serviced by certain municipal electric providers may qualify for incentives of up to \$1,950 upon completion of Advanced Home Upgrade improvements. Customers may also be eligible for incentives exceeding \$5,500 based on their calculated energy savings. Work with your Participating Contractor or rater to determine your upgrade's incentive.
