

THE PRESCRIPTIVE ENERGY EFFICIENCY FOR NEW CONSTRUCTION SUBPROGRAM

APPLICATION AND AGREEMENT FORM

SUBPROGRAM OVERVIEW

The Prescriptive Energy Efficiency for New Construction (PEENC) subprogram provides rebates to residential and non-residential customers for the permanent installation of qualified high-efficiency equipment. New eligible construction projects may be eligible if built to meet or exceed the State of California Title 24 Energy Efficiency Standards, equipped with qualifying natural gas measures, and built in the SoCalGas service territory.

SUBPROGRAM REQUIREMENTS

Program funds are limited and will be reserved on a first-come, first-served basis. The PEENC subprogram may be changed or terminated without prior notice at any time. Applicants may not accept incentives and/or rebates from more than one utility-sponsored energy efficiency program for the same equipment.

ELIGIBILITY FOR PARTICIPATION

Customer eligibility for the PEENC subprogram is open to all mixed-use new construction customers who will (1) receive natural gas from SoCalGas, and (2) pay the Public Purpose Program (PPP) surcharge on the gas meter on which the energy-efficient equipment is installed.

For the project to be eligible for the PEENC subprogram it must meet the following requirements:

- Applications and Agreement Forms must be submitted to and approved by SoCalGas prior to the purchase of equipment applicable to the rebate to ensure funds will be reserved.
- Applications and Agreement Forms are eligible for non-residential equipment or a mix of non-residential and residential equipment. Projects with solely residential equipment are not eligible for this subprogram.

EQUIPMENT REQUIREMENTS

Equipment must meet all applicable requirements as further described in the Application and Agreement Form. Additionally, SoCalGas reserves the right to verify installation and deny payment for equipment that does not meet all subprogram, eligibility and equipment requirements. Only new and unused equipment may be eligible. Equipment must also be installed and operational according to applicable federal, state, and local building codes, ordinances, standards and/or manufacturer's requirements.

The PEENC subprogram accepts a wide variety of energy-saving projects. All qualifying energy efficiency equipment must meet the following criteria:

1. **Must be purchased prior to installation**
Providing proof of purchase where equipment is paid in full.
2. **Must be permanently installed**
Equipment that is not permanently installed, or can be easily removed, in each case, as determined by SoCalGas, is ineligible for rebate.
3. **Cannot overlap with other incentive programs**
Customer may not apply to more than one California energy efficiency incentive or rebate program for the same equipment/measure or receive incentives from more than one such program for any equipment/measure. Gas and Electric components of a measure will be considered separately.

RESERVING FUNDS

To reserve funds:

1. Complete the Application and Agreement Form (including the attached worksheet) for commercial and residential mixed-use new construction and major modernization.
2. Print out, sign, and date the Application and Agreement Form (including the worksheets).
3. Provide a copy of the project's Title 24 Certificate(s) of Compliance CF-1R(s), authored and signed by a Certified Energy Analyst (CEA)(applicable to multi-family customers only).
4. Provide a copy of the W-9 Form for Applicant or the third-party payee receiving the rebate check.
5. Prior to the construction start date, either mail the completed Application, worksheets, and CF-1R Certificate to:

SoCalGas
Attn: New Construction Business Rebates
Box 513249 ML 19A8
Los Angeles, CA 90051-0670
Fax: 323-518-2368
Email: EERebatesforBusiness@socalgas.com
Online: socalgas.com/BusinessRebates

6. Builders currently participating in the PEENC Subprogram should reach out to SoCalGas Account Executive to enroll in additional projects.
7. If the Application is approved by SoCalGas, an email with a reservation number will be sent to the applicant as proof of project approval to participate in the PEENC Subprogram. Funds will be reserved for 36 months from the date of the approval email. The deadline may be extended on a case-by-case basis, pending the availability of funds at SoCalGas' discretion. Only written requests sent by the applicant to the previously stated postal address or email address will be considered.

PROJECT INSTALL

After the Applicant has received written approval, the Applicant may initiate installation, which includes ordering equipment, purchasing equipment, demolition, installation, and commissioning. After all project equipment/measures have been installed and commissioned and are considered fully operational, the Applicant must notify SoCalGas.

INSTALLATION REVIEW

Upon receipt of the Installation Equipment Information sheet, SoCalGas will evaluate the submitted package and if necessary, conduct a post-installation inspection to verify project installation and ensure the scope of work was not altered from the approved project Application

and Agreement Form. Changes to the project scope of work will not be eligible for rebate without receiving written consent from SoCalGas prior to the completion of work.

REQUEST FOR PAYMENT

To claim your rebate:

1. When the project has been completed, complete the Request for Payment (RFP) form and send to SoCalGas with the following supporting documentation. For Applications with multiple projects, a completed RFP form can be sent in for each completed phase:
 - Project site address list (if more than one address in the project)
 - Proof of purchase - A signed Attestation of Equipment Installation will be required to be submitted with each Request for Payment Form.
 - Proof of LEED or WaterSense certification - A copy of the notification of certification or other record that documents the certification (applicable to multi-family customers only).
2. Submit the completed Application and Agreement Form, along with the other required documentation with proof of purchase(s) by mail, fax, email or online:

SoCalGas
Attn: New Construction Business Rebates
Box 513249 ML 19A8
Los Angeles, CA 90051-0670
Fax: 323-518-2368
Email: EERebatesforBusiness@socalgas.com
Online: socalgas.com/BusinessRebates

REBATE PAYMENT

A rebate check for the qualified product(s) is generally mailed 90 days after SoCalGas approves a correct and completed Application and Agreement Form.

For any questions, please call 1-800-508-2348 or email: EERebatesforBusiness@socalgas.com

TERMS AND CONDITIONS

The following terms and conditions apply to the PEENC subprogram. The individual or entity submitting the Application ("Applicant") hereby acknowledges and agrees as follows:

1. Applicant has read and understands the rules, requirements, and terms and conditions set forth in this Application and Agreement Form (together with all attachments hereto and the requirements and instructions set forth above, "Application") and agrees to abide by such rules, requirements and terms and conditions.
2. Applicant meets all eligibility requirements as stated or referenced in the Application.
3. The information Applicant has supplied on the Application and attachment(s) is true, correct and complete.
4. If the Application or any work related thereto is terminated for any reason, SoCalGas shall not be liable to the Applicant for damages or compensation of any kind. Notwithstanding anything to the contrary set forth herein, none of SoCalGas its affiliates, subsidiaries, parent companies, and its and their respective officers, directors, agents, and employees shall be liable to Applicant for any consequential damages, including loss of investment opportunity or lost profits, business interruption, or inability to obtain other contracts, whether such liability arises in contract, tort (including negligence or strict liability), or otherwise.
5. SoCalGas reserves the right, in its sole discretion, to determine eligibility for rebates. SoCalGas' determination is final.
6. SoCalGas makes no representation or warranty (including the warranty of merchantability or fitness for a particular purpose), and assumes no liability with respect to quality, safety, performance, or other aspect of any design, system or equipment selected or installed and expressly disclaims any such representation, warranty or liability. To the fullest extent permitted by law, Applicant agrees to indemnify and hold harmless SoCalGas, its affiliates, subsidiaries, parent company, officers, directors, agents and employees against all loss, damage, expense, fees, costs and liability arising from any measures installed.
7. Both funding and the PEENC Subprogram are subject to the jurisdiction of the California Public Utilities Commission (CPUC) and shall be subject to such changes or modifications as the CPUC may, from time to time, direct in the exercise of its jurisdiction.
8. Applicant understands that if the rebate is modified in any way or terminated by order of any government entity, then the Application shall be revised or terminated consistent with that order.
9. SoCalGas may assign the Application, in whole or in part, or its rights and obligations hereunder, directly or indirectly, by operation of law or otherwise, without the Applicant's prior written consent, provided SoCalGas remains obligated for payments incurred prior to the assignment. The Applicant may not assign this Application, in whole or in part (including by a direct or indirect change of control or by operation of law), or its rights and obligations hereunder, directly or indirectly, by operation of law or otherwise without the prior written consent of SoCalGas.
10. Applicant understands rebates require inspections of the installed equipment. Therefore, Applicant agrees to provide access to the project site for these purposes to SoCalGas and/ or its agents or assigns and the CPUC and/or its agents or assigns.
11. To the fullest extent permitted by law, Applicant agrees to indemnify and hold harmless SoCalGas, its affiliates, parent company, officers, managers, directors, agents and employees from all claims, demands, losses, damages, costs, expenses and liability (legal, contractual, or otherwise), which arise from or are in any way connected with any: (1) injury to or death of persons, including but not limited to employees of SoCalGas, Applicant, or any third party; (2) injury to property or other interests of SoCalGas, Applicant or any third party; (3) violation of local, state, or federal common law, statute, or regulation, including but not limited to environmental laws or regulations; and/or (4) energy savings shortfall; so long as such injury, violation, or shortfall (as set forth in (1)–(4) above) arises from or is in any way connected with the project, including any third party's performance of or failure to perform the project, however caused, regardless of any strict liability or negligence of SoCalGas, its officers, managers or employees.
12. Funding approved for this rebate is limited and will be paid on a first-come, first-served basis to qualified Applicants. Funds will only be reserved upon SoCalGas' approval of the Application. This rebate offer is subject to the availability of authorized funds.
13. Applicant agrees that Applicant will not apply for or receive incentives or rebates offered by local or state entities or other utilities for eligible equipment covered under this Application.
14. Applicant understands the following tax liability provisions: SoCalGas will report rebates greater than \$600 as income to Applicant on IRS Form 1099 unless: 1) Applicant has marked the "Corporation" or "Exempt" tax status box on the Request for Payment Form, or 2) Applicant has authorized SoCalGas to remit the rebate payment to a third party on the RFP Form. SoCalGas will report

rebates greater than \$600 as income to the third party payee unless the Applicant has marked the "Corporation" or "Exempt" tax status box for the payee on the RFP Form. Utility recommends that Applicant consults a tax adviser concerning the taxability of rebates. SoCalGas is not responsible for any taxes that may be imposed due to rebate payments.

15. Applicant understands once an Approval Letter is issued for this Application, the Application will be processed under the program and the appliance rebate and bonus levels in place at the time. If the Application is withdrawn at any time in the process, Applicant may only resubmit an Application for the same project in the same program and appliance rebate and bonus levels, under specific approved circumstances.
16. Applicant understands SoCalGas may use the services of external consultant(s) for functions related to the submitted projects. The Applicant hereby authorizes SoCalGas to share any of the submitted project information with the consultants, expressly for this purpose.
17. If this Agreement is canceled for any reason, the Applicant may reapply at a later date. Applications will be accepted and estimated rebates will be committed based upon the funds available and program terms at the time of reapplication.
18. SoCalGas may suspend or terminate the Application, with or without cause, upon written notice to Applicant.

The following terms and conditions apply to the Multi-Family customers within the PEENC subprogram. The individual or entity submitting the Application ("Applicant") hereby acknowledges and agrees as follows:

1. By submitting the CF-1R(s) Applicant acknowledges that the project has complied with all applicable requirements of California Title 24 Building Standards prior to applying for the program.
2. Applicant acknowledges and agrees that rebates are only available for qualifying equipment that meet or exceed California Title 20 Appliance Efficiency Regulations. Additionally, for space-heating and water-heating equipment, only models with efficiency levels which exceed that stated on the submitted CF-1R will be eligible for a rebate.
3. SoCalGas may assign the Application, in whole or in part, or its rights and obligations hereunder, directly or indirectly, by operation of law or otherwise, without the Applicant's prior written consent, provided SoCalGas remains obligated for payments incurred prior to the assignment. The Applicant may not assign this Application, in whole or in part (including by a direct or in direct change of control or by operation of law), or its rights and obligations hereunder, directly or indirectly, by operation of law or otherwise without the prior written consent of SoCalGas.

PEENC is a subprogram of the EERB program. The EERB program is funded by California utility customers, administered by Southern California Gas Company (SoCalGas) under the auspices of the California Public Utilities Commission, may be modified or terminated without prior notice, and is provided to eligible customers on a first-come, first-served basis until program funds are no longer available. Additional restrictions apply.
