I.

INTRODUCTION

San Diego Gas & Electric Company (“SDG&E”), Southern California Edison Company (“SCE” or “Edison”), Southern California Gas Company (“SoCalGas”), and Pacific Gas and Electric Company (“PG&E”) (collectively, “Applicants” or the “Utilities” or “IOUs” and individually a “Utility”) apply to the California Public Utilities Commission (“Commission”) for authority (1) to establish a Wildfire Expense Balancing Account (“WEBA”) to record wildfire-related costs, and (2) to recover WEBA balances in retail rates. This Application is filed pursuant to California Public Utilities Code sections 399.2, 451, 454, 491, 701, 728, and 729.

II.

SUMMARY OF APPLICATION

A. Uninsured Wildfire Costs Expose The Utilities To Significant Financial Risk

This Application is prompted by an insurance crisis affecting each of the Utilities. Insurance companies that have traditionally provided coverage for third party claims arising from wildfires are now offering substantially less coverage at a substantially higher cost, and in some cases are refusing to offer coverage at all. Insurance carriers have cited the recent history of large wildfire claims against California utilities and their adverse perception of California's "inverse condemnation" doctrine,¹ among other factors, as reasons for their decisions to reduce or eliminate coverage.²

The insurance companies' actions leave the Utilities exposed to the risk of wildfire claims previously covered by their policies. This contraction of coverage comes at a time when evidence of increasing risk of large wildfire claims, especially in Southern California, suggests a need for more coverage, not less. As a result, Applicants face potentially significant claims not covered by insurance and must in effect self-insure against such claims. Applicants therefore request prompt Commission action authorizing recovery through retail rates of the costs arising from wildfires for which they are at risk due to the limited availability of liability insurance.³ Rather than attempt to accumulate reserves in advance for future payouts, Applicants propose to finance uninsured costs as they are incurred and subsequently recover the costs in rates.

¹ The inverse condemnation doctrine is discussed in Chapter 1, Section E of the Utilities' Prepared Testimony.

² The insurance carriers have defined the term "wildfire" broadly. For example, the 2009 policy of AEGIS Insurance Services Inc., the leading utility insurer, defines "wildfire" to include "any wild fire, wildland fire, forest fire, brush fire, vegetation fire, grass fire, peat fire, bushfire, hill fire, or any other uncontrolled fire which can also consume houses, buildings or other structures and agricultural resources in each occurring over an area that is larger than one acre (exclusive of the Insured's premises)." This definition encompasses large urban fires as well as fires in rural and semi-rural areas. Because the Utilities seek authority to recover in rates all uninsured costs arising from a "wildfire," the extent of the recovery sought is directly linked to the insurers' definition of "wildfire." Accordingly, the Utilities use the term "wildfire" in this Application to refer to all fires that fall within the AEGIS definition. If the insurers change their definition of "wildfire" in the future, the scope of rate recovery would conform to the new definition.

³ The categories of costs that the Utilities seek to recover are identified in greater detail below and in Chapter 4.

Although wildfire liability is more commonly associated with electric facilities than gas, this Application seeks cost recovery for gas utility operations as well. While less frequent, gas facilities can contribute to the ignition or propagation of a wildfire. PG&E and SDG&E gas and electric operations are covered by the same policies, so the limited availability of insurance to cover wildfire liabilities affects gas and electric operations equally, and SoCalGas owns some electric distribution facilities, and is covered by the same policy as SDG&E.

B. The Commission Should Authorize The Recovery Of Uninsured Costs Resulting From Wildfires

Rate recovery of the uninsured costs resulting from wildfires is appropriate for multiple reasons. First, such recovery essentially preserves the status quo because it provides for the same ratemaking treatment for uninsured costs as the Commission traditionally has applied to the costs of insurance against those costs. The Commission has long recognized that insurance premiums and deductibles are ordinary costs of doing business and allowed recovery of those costs in rates.⁴ The Commission has also allowed utilities to recover the costs of self-insurance.⁵

⁴ See, e.g., *Application of Pacific Gas and Electric Co.* (2007) D.07-03-044, 2007 Cal. PUC LEXIS 173, *243-244 (“PG&E requested \$27.4 million for property insurance, directors and officers liability insurance, and general liability insurance. No party objected.”); *In re Application of Southern California Edison Co.* (1991) D.91-12-076, 42 Cal.P.U.C.2d 645, 1991 Cal. PUC LEXIS 911, *72 (“Along with conventional liability and property insurance, Edison purchases replacement generation insurance. . . . We will allow these expenses . . .”); *Application of Southern California Edison Co.* (2004) D.04-07-022, 235 P.U.R.4th 1, 2004 Cal. PUC LEXIS 325, *360-361 (liability insurance appropriately included in lead-lag study); *In re Application of Tehachapi Mountain Water Co.* (1989) D.89-12-021, 34 Cal.P.U.C.2d 109, 1989 Cal. PUC LEXIS 673, *25 (noting that “insurance is a legitimate and necessary business expense”); *In re Application of San Gabriel Valley Water Co.* (2007) D.07-04-046, 258 P.U.R.4th 65, 2007 Cal. PUC LEXIS 349, *27 (allowing recovery for “umbrella liability insurance” that included “general liability, automobile liability, and property damage”). Because insurance policies typically require a deductible before paying for claims, general rate case revenues usually cover forecast claims up to the deductible amount. See, e.g., *Application of Southern California Edison Co.* (Cal. P.U.C., Mar. 12, 2009) D.09-03-025, *mimeo* at pp. 153-154, 165-166 (SCE’s most recent General Rate Case (“GRC”) decision).

⁵ *In re Application of California Water Service Co.* (1993) D.93-01-025, 47 Cal.P.U.C.2d 580, 1993 Cal. PUC LEXIS 24, *57 (authorizing recovery of cost of maintaining insurance reserves for its insurance deductible, as well as liability in excess of the policy limit); *Application of SoCal Edison Co.* (1978) D.89711, 84 Cal.P.U.C. 733, 1978 Cal. PUC LEXIS 1507, *79-80 (Edison’s “Property Insurance, Injuries, and Damages” rate component included “self-insurance reserves for property damage, injuries, and damages”); *In re Application of Southern California Edison Co.* (1996), D.96-01-011, 1996 Cal. PUC LEXIS 23, [part 3 of 6] at *41 (including \$10.404 million in self-insured workers’ compensation expenses for the test year).

Second, rate recovery is consistent with the Commission’s constitutional and statutory obligation to allow utilities a reasonable opportunity to recover their costs of providing public utility service. Third-party liability, including liability for wildfires, is an unavoidable cost of doing business. Unlike insurance carriers, who can limit their risks by choosing to limit coverage, the Utilities have an obligation to serve all customers in their service territories, and thus cannot withdraw from fire-prone areas. Nor can the Utilities realistically operate their systems in a way that would eliminate all risk of fire. As the Commission recognized in a related context, it is “not realistic” to expect “100% compliance” with all safety rules.⁶ Even if a Utility is in perfect compliance with the Commission’s rules, its facilities may nevertheless contribute to a fire. Costs resulting from wildfires are an inherent cost of fulfilling the Utilities’ duty to serve, and as such the Utilities are entitled to the opportunity to recover such costs.

Third, rate recovery of the uninsured costs of wildfires parallels the rate treatment of the costs of other natural disasters, such as earthquakes, tornados, or major storms. Like these other natural disasters, fire damage is unpredictable. Fires that start similarly can lead to vastly different results because of factors having nothing to do with the initial ignition. Factors beyond the Utilities’ control, such as weather, geography, demography, and local fire fighting resources determine whether any particular fire will turn into a disaster. Just as the Commission has authorized recovery of costs of natural disasters, and just as the Florida Commission and Legislature authorized Florida utilities to recover costs resulting from hurricanes after insurers withdrew from that market, so too should the Commission authorize the Utilities to recover the costs resulting from wildfires that can no longer be insured at a reasonable cost.

Fourth, assurance of rate recovery is needed to protect the Utilities’ financial integrity. The Commission’s actions in recent years have provided important financial support to the IOUs and have led the credit rating agencies to upgrade the ratings on utility debt, reducing costs for customers. The recent actions of the insurance companies threaten to undermine the

⁶ *Order Instituting Investigation Into Southern California Edison Co.* (Cal. P.U.C. Apr. 22, 2004), D.04-04-065, mimeo at p. 31.

Commission's actions by unilaterally exposing the Utilities to potentially substantial liabilities arising from the Utilities' provision of public service. The Commission should act promptly to keep the insurance crisis from becoming a utility financial crisis.

III.

PROPOSED RATEMAKING TREATMENT FOR WILDFIRE COSTS

Applicants request the Commission to authorize each of them to establish a Wildfire Expense Balancing Account ("WEBA") to record and recover all wildfire-related costs. This proposed recovery mechanism, summarized below, is described in full in Chapter 4 of Applicants' Prepared Testimony.

A. Costs Eligible For Recovery

Each utility will create a WEBA to record all amounts paid by the Utility arising from wildfires, reduced by payments received from third parties, including insurance carriers. Wildfire costs that will be recorded in the WEBA include: 1) payments to satisfy Wildfire Claims,⁷ including any co-insurance and deductible expense paid by the Utilities but excluding costs already authorized for recovery in rates in the Utilities' General Rate Cases (GRC); 2) outside legal expenses incurred in the defense of Wildfire Claims; 3) increases or decreases in wildfire insurance premiums from amounts authorized in the Utilities' GRCs; and 4) the cost of financing WEBA balances. In no event will any cost recorded in the WEBA result in a double recovery by the Utilities, i.e., the Utilities may not recover costs that have already been authorized for recovery in a General Rate Case or other proceeding. Consistent with the coverage provided by insurance policies, payments to satisfy Wildfire Claims would be recoverable unless the Commission finds that they result from acts or omissions intentionally engaged in or directed by Utility management with an intent to cause harm or with knowledge that harm was substantially certain to result. Applicants propose that all Wildfire Claims costs

⁷ "Wildfire Claims" means amounts paid by a Utility to a third party in respect of a claim by such third party for damage or loss resulting from a wildfire, including claims by a governmental entity for reimbursement of fire suppression costs, damages to environmental resources and other governmental claims arising from a wildfire.

be booked to the WEBA for recovery in CPUC-jurisdictional retail rates. Current regulatory policies would allocate some portion of these costs to rates under the jurisdiction of the Federal Energy Regulatory Commission (FERC). To the extent that FERC authorizes recovery of a portion of Wildfire Costs in FERC-jurisdictional rates, the WEBA will be credited by that amount.

The financing costs recorded in the WEBA will depend on the size of the WEBA balance and the time over which that balance will be recovered. The default rate will be the commercial paper rate consistent with that of other balancing accounts, based on the presumption that balances will be recovered within one year. If a Utility wishes to finance balances with long-term debt, and/or a mix of long-term debt and equity, the Utility may ask the Commission for authority to record its higher financing costs in the WEBA.

B. Recovery of WEBA Balances

To moderate the impact on rates, the Utilities propose that the time frame for recovery of WEBA balances vary depending on the amount of the under-collection. The Utilities propose to inform the Commission of their plan for amortizing WEBA under-collections after analyzing the magnitude of all pending revenue requirement and rate changes for the subsequent year, and prior to implementing the under-collection in rates. The Utilities propose to provide this information in their annual rate consolidation proceedings (the annual ERRA Forecast proceeding for SCE, the Annual Electric True-up (AET) and Annual Gas True-up (AGT) for PG&E, and the Regulatory Account Balance Update for SDG&E/SoCalGas). Each Utility will allocate and recover the WEBA balance in rates in the same manner as other liability insurance expenses.⁸

On March 31 of any year that a rate change goes into effect that includes recovery of a WEBA balance, the Utility will file an advice letter containing detailed information on the wildfire, total wildfire liability insurance available, and total wildfire costs recorded in the

⁸ Any amount allocated to the transmission function and not recovered in FERC rates will be included and recovered through Commission-jurisdictional distribution rates.

WEBA during the prior year. The advice letter will be subject to the normal advice letter protest and approval process. If the Commission finds any amount not recoverable, the Utility will record an appropriate adjustment to the WEBA.

C. Financing Wildfire Liabilities

Modest WEBA balances can be financed within the Utilities' existing short-term debt program. In the event of a severe wildfire for which a Utility incurs substantial liability, however, the affected Utility may need authority to issue new short-term and long-term debt in order to meet its obligations. The affected Utility may require such authority more quickly than a traditional application process would permit, given the potential need to meet large financial obligations rapidly.

If the Utility believes that its under-collection financing will require additional authority to issue debt or equity it will file an application with the Commission seeking the necessary approvals. Depending on the circumstances, such an application may require expedited approval.

Because the WEBA balance is not a permanent asset of the Utility, the resulting financing should not be treated as part of the Utility's long-term capital structure. Consistent with ratemaking treatment of other debt used to finance balancing accounts, the Utilities will exclude long-term debt used to finance the WEBA balance from their capital structures in measuring compliance with the Capital Structure Condition.⁹ In addition, the Utilities will exclude such debt from the embedded cost of debt used to calculate their ratemaking return on rate base.

The Utilities could reduce the cost of financing large WEBA undercollections by issuing securitized debt. Because issuance of securitized debt requires facilitating legislation, the Utilities ask the Commission to support legislation to effectuate financing large WEBA balances with debt secured by a dedicated rate component. If securitization receives legislative

⁹ See *Opinion Adopting Revisions* (Cal.P.U.C., Dec. 14, 2006) D.06-12-029, Appendix A-3, Affiliate Transaction Rules Applicable to Large California Energy Utilities, Rule IX.B at pp. 31-32.

authorization, the Utilities would file an application to approve the creation of a dedicated rate component and to provide specific authority to finance WEBA undercollections with securitized debt.

IV.

INSURANCE PROCUREMENT

In order to ensure that the Utilities have the input of customer representatives in the decisions to procure insurance coverage, the Utilities propose to consult with customer representatives during the annual procurement process, as described more fully in Chapter 3D of the Utilities' Prepared Testimony.

V.

STATUTORY AND PROCEDURAL REQUIREMENTS

A. Statutory and Procedural Authority

This Application is made pursuant to the Commission's Rules of Practice and Procedure and the California Public Utilities Code. The Utilities' authority for this request is Sections 399.2, 451, 454, 491, 701, 728, and 729 of the Public Utilities Code of the State of California. In addition, this Application complies with Article 2 of the Commission's Rules of Practice and Procedure, and prior decisions, orders and resolutions of this Commission.

B. Rule 2.1: Categorization, Issues Considered and Schedule

The Utilities propose that this proceeding be categorized as ratesetting. *See* Rule 1.3(e). The issues to be considered in this proceeding are whether the Commission should provide the relief requested by the Utilities in this Application. The Utilities believe this Application raises only policy issues that can be decided on the basis of written testimony and briefs and, therefore, hearings will not be required. The Utilities urge the Commission to expedite this proceeding to allow a final Commission decision before the 2010 fire season, and propose the following procedural schedule:

Pre-Hearing Conference:	Mid-October, 2009
Service of Testimony by Intervenors:	December 1, 2009
Applicants' Rebuttal Testimony:	January 11, 2010
Opening Briefs:	January 29, 2010
Reply Briefs:	February 12, 2010
Proposed Decision:	March 30, 2010

In the event the Commission determines hearings are necessary, the Utilities propose the following schedule:

Pre-Hearing Conference:	Mid-October, 2009
Service of Testimony by Intervenors:	December 1, 2009
Applicants' Rebuttal Testimony:	January 11, 2010
Evidentiary Hearings	January 25-29, 2010
Opening Briefs:	February 19, 2010
Reply Briefs:	March 5, 2010
Proposed Decision:	April 16, 2010

C. Legal Name and Correspondence

SCE is an electric public utility organized and existing under the laws of the State of California. The location of SCE's principal place of business is 2244 Walnut Grove Avenue, Rosemead, California 91770. Correspondence or communications regarding this Application should be addressed to:

Robert F. LeMoine

D. Rule 2.2: Articles of Incorporation

A copy of SCE's Restated Articles of Incorporation, effective March 2, 2006 and presently in effect, and certified by the California Secretary of State, was filed with the Commission on March 14, 2006, in connection with Application No. 06-03-020¹⁰ and is incorporated herein by reference pursuant to Commission Rule 2.2.

A certified copy of PG&E's Restated Articles of Incorporation, effective April 12, 2004, was filed with the Commission on May 3, 2004 with PG&E's Application No. 04-05-005. These Articles are incorporated herein by reference.

SoCalGas previously filed a certified copy of its Restated Articles of Incorporation with Application No. 98-10-012, and these Articles are incorporated herein by reference. On August 31, 2009, SDG&E is submitting its current Amended Articles of Incorporation with its Z-factor Application (A.09-08-___), and these Articles are incorporated herein by reference.

E. CEQA Compliance

It is long established that the act of ratemaking by the Commission is exempt from CEQA review. As stated in the California Public Resources Code, the "establishment, modification, structuring, restructuring, or approval of rates, tolls, fares, or other charges by public agencies" including "obtaining funds for capital projects necessary to maintain service within existing service areas" is exempt from CEQA.¹¹

¹⁰ Application No. 06-03-020, filed March 14, 2006, for approval of early transfer of Anaheim's share of SONGS 2 & 3 to SCE.

¹¹ Cal. Pub. Resources Code section 21080(b)(8).

F. Rule 3.2: Authority to Increase Rates

Rule 3.2 requires that applications for authority to increase rates, or to implement changes that would result in increased rates, contain the following data.

1. Rule 3.2(a)(1): Balance Sheet and Income Statement

Appendix A to this Application contains copies of the Utilities' balance sheets as of June 30, 2009, and income statements for the period ended June 30, 2009, the most recent period available.

2. Rules 3.2(a)(2) and (a)(3): Present and Proposed Rates

This Application requests authorization to implement changes that would result in increased rates under Rule 3.2 if certain events occur in the future. This Application does not request authorization to increase rates by any specific amount. Thus, Rules 3.2(a)(2) and (a)(3) do not apply to this Application.

3. Rule 3.2(a)(4): Description of Utility System

Because this submittal is not a general rate application, this requirement is not applicable.

4. Rule 3.2(a)(5): Summary of Earnings

Rule 3.2(a)(5) requires “[a] summary of earnings (rate of return summary) on a depreciated rate base for the test period or periods upon which applicant bases its justification for an increase.” The Utilities’ most recently available Summaries of Earnings are attached hereto as Appendix B.

5. Rule 3.2(a)(7): Depreciation

Because this submittal is not a general rate application, this requirement is not applicable.

6. Rule 3.2(a)(8): Capital Stock and Proxy Statement

Because this submittal is not a general rate application, this requirement is not applicable.

7. Rule 3.2(a)(10) Statement

Rule 3.2(a)(10) requires the applicant to state whether “the increase” is limited to passing through to customers “only increased costs to the corporation for the services or commodities furnished by it.” Although this Application does not seek a specific increase in rates, any future increase would be due only to passing through to customers of costs to the Utilities of providing service.

8. Rules 3.2(b), (c), and (d): Service of Notice

A list of the cities and counties that would be affected by the changes requested in this Application that could lead to increased rates is attached as Appendix C. The State of California is also a customer of the Utilities. As provided in Rule 3.2(b) – (d), notice of filing of this Application will be: (1) mailed to the appropriate officials of the state and the counties and cities listed in Appendix C; (2) published in a newspaper of general circulation in each county in each Utility’s service territory; and (3) mailed to all customers affected by the proposed changes.

G. Service List

The Utilities are serving this Application and its exhibits on all parties on the Commission’s service list for proceedings A.07-11-011 (SCE’s 2009 General Rate Case Proceeding), A.05-12-002 (PG&E’s 2007 General Rate Case Proceeding), A.06-12-009 (SDG&E’s 2008 General Rate Case Proceeding), A.06-12-010 (SoCalGas’s 2008 General Rate Case Proceeding), R.08-11-005 (the utility infrastructure safety Rulemaking), and A.08-12-021 (SDG&E’s Emergency Power Shut-Off Application).

VI.

EXHIBITS

The following exhibit is attached and incorporated by reference to this Application:

Chapter I, jointly sponsored by Debra Reed (Chief Executive Officer of SDG&E and SoCalGas), Al Fohrer (Chief Executive Officer of SCE), and Christopher Johns (President of PG&E) sets forth the policy rationale supporting the Application.

Chapter II, sponsored by Jonathan Ball, a Managing Director at Marsh USA Inc., explains current market conditions that have reduced the availability of insurance against third-party claims arising from wildfires.

Chapters III.A, III.B, and III.C, sponsored by Maury De Bont (SDG&E/SoCalGas, III.A), John Butler (SCE, III.B), and Hudson Martin (PG&E, III.C), explain the experience of each Utility in seeking to procure insurance against wildfire claims.

Chapter III.D, jointly sponsored by Messrs. De Bont, Butler, and Martin, describes a proposed insurance procurement consultative process to seek input from relevant stakeholders.

Chapter IV, jointly sponsored by Michael Schneider (SDG&E/SoCalGas), Douglas Snow (SCE), and Bruce Smith (PG&E), explains the operation and financing of the WEBA.

VII.

CONCLUSION AND PRAYER FOR RELIEF

The unavailability at a reasonable cost of insurance coverage for third-party claims arising from wildfires requires the adoption of a mechanism that will ensure that the Utilities are able to recover the costs resulting from wildfires. With the 2009 fire season already underway, the Utilities request the Commission to take the following actions as soon as possible:

1. Authorize each Utility to establish a WEBA to record for future recovery all costs in respect of fires that would have been covered by insurance, including: 1) payments to satisfy Wildfire Claims, including any co-insurance and deductible expense paid by the Utilities but excluding costs already authorized for recovery in rates in the Utilities' GRCs; 2) outside legal expenses incurred in the defense of Wildfire Claims; 3) increases or decreases in wildfire

insurance premiums from amounts authorized in the Utilities' GRCs; and 4) the cost of financing WEBA balances. In no event will any cost recorded in the WEBA result in double recovery by the Utilities, i.e., the Utilities may not recover costs that have already been authorized for recovery in a GRC or other proceeding. Insurance proceeds, as well as any other payments received from third parties, will be credited to the WEBA as they are received. The WEBA balance will be adjusted to the extent that the Commission finds that any Wildfire Claims cost is based on events that result from acts or omissions intentionally engaged in or directed by Utility management with an intent to cause harm or with knowledge that harm was substantially certain to result;

2. Authorize each Utility to recover the WEBA balance in full in retail rates over a time period that the Commission deems appropriate;

3. Approve the proposed consultative process to allow stakeholder participation in the Utilities' insurance procurement process, as described in the Utilities' Prepared Testimony.

Dated, this 31st day of August, 2009.

Respectfully submitted,

W. DAVIS SMITH
