2. Please identify the “changing laws, regulations, and rules,” stated on page GOM-39 requiring 4 new positions. Please also explain in detail if these 4 positions are newly created work activities or if the positions are created to support or to expand existing work activities.

**SoCalGas Response:**

Ms. Lisa Gomez is the policy witness for environmental issues and has described in detail the changing laws, regulations and rules that SoCalGas will need to address for Green House Gas (GHG) and Stormwater Construction Permits in her direct testimony (Exhibit SCG-15; pages LPG-7-11, 14).

The requested 4 new positions will support the field operations to ensure compliance with these new regulations, in addition to reasonably foreseeable modifications to existing regulations.

3. Please confirm that the activities listed on page GOM-40 are existing day-to-day environmental work activities.

**SoCalGas Response:**

The activities listed on page GOM-40 are activities that are currently being performed on a daily basis by environmental personnel. SoCalGas is requesting incremental resources to complete similar activities, but for a broader range of regulations.
