SOCALGAS RESPONSE**

**DATE RECEIVED: JULY 19, 2011
DATE RESPONDED: AUGUST 2, 2011**

Exhibit Reference: SCG-05 and SCG-05-CWP

Subject: Gas Engineering and Transmission Capital Expenditures

Please provide the following:

1. In SCG’s response to Questions 4 and 5 of DRA-SCG-062-KCL, SCG quantifies the number and types of launcher and receiver assemblies used for BC276 and BC312. Please provide the budget (project) number that is associated with each assembly.

SoCalGas Response:

It is assumed that the “budget (project) number” being requested is the capital workpaper number as presented in the upper right corner of the title bar of each capital workpaper in Exhibit SCG-05-CWP. (Example: 00276.01, 00312.07, etc)

Due to project-specific activities not all ILI assessments are represented by an individual capital workpaper. Individual capital projects of less than approximately \$1 million are included in the ILI blanket workpaper, 00312.00. Additionally, the number of launchers and receivers stated in the prior response to DRA-062 include a number of ILI re-assessments which are primarily O&M activities and will not have a capital workpaper associated.

The tables below show, by year, the assessment type (baseline or re-assessment, type of equipment planned (Permanent or Temporary), and associated capital budget number if applicable.

No launcher/receivers utilized in 2010 for BC276.

2011 - BC276 (Total = 2)
