Advice No. 3952  
(U 904 G)

Public Utilities Commission of the State of California

**Subject: Additional Hazardous Substance Site**

**Purpose**

Southern California Gas Company (SoCalGas) hereby requests the California Public Utilities Commission's (Commission) approval to include EPC Eastside Disposal Facility (EPC) in the Hazardous Substance Cost Recovery Account (HSCRA) as referenced within SoCalGas' Preliminary Statement Part V in compliance with Decision No. (D.) 94-05-020.

**Background**

D.94-05-020 requires California utilities to file an advice letter in order to include additional sites as part of the Hazardous Substance Mechanism. For each site the advice letter shall list: 1) the name of the site; 2) the location of the site; 3) the source, nature and approximate date of the contamination; 4) utility operations (historical and current) at the site, if any; and, 5) environmental agency and oversight regarding the site, if any.

In addition, D.96-07-016 requires utilities to demonstrate that: 1) clean-up costs for which recovery is being sought are not being recovered through base rates or through any other recovery procedure; and, 2) all of the costs for which recovery is being sought are hazardous waste clean-up costs (including insurance costs) found appropriate for recovery in the Collaborative Report.

EPC operated as a disposal site for a variety of wastes, including hazardous substances.

**Required Information**

The relevant information for the EPC Eastside Disposal Facility is as follows:

**Site Name:** EPC Eastside Disposal Facility (EPC)

**Location:** Round Mountain Road, approximately 15 miles northeast of Bakersfield, California, in a portion of Section 30, Township 28 South, Range 29 East, Mount Diablo Baseline and Meridian.

### **Source, Nature, and Approximate Date of Contamination**

EPC operated as a disposal site for a variety of wastes, including hazardous substances, from 1971 through November of 1985. SoCalGas disposed of hazardous wastes at EPC during that time period.

### **Utility Operations (Historical and Current) at the Site**

Past waste disposal included waste generated by SoCalGas between 1973 and 1985, as shown by business records provided by EPC and the Department of Toxic substances Control (DTSC).

### **Environmental Agency Actions and Oversight**

EPC was designated as a Superfund Site in 1984 and its cleanup is under the oversight of DTSC. Pursuant to the California Superfund Law, responsible parties include those who have disposed of hazardous waste at EPC, including SoCalGas.

### **Nature of Costs**

The cleanup costs that SoCalGas is seeking to recover through the procedure are not being recovered through base rates or through any other recovery procedure. The cleanup costs are appropriate for recovery in the Hazardous Substance Cleanup Cost Recovery Collaborative Report, dated November 19, 1993.

### **Protest**

Anyone may protest this advice letter to the Commission. The protest must state the grounds upon which it is based, including such items as financial and service impact, and should be submitted expeditiously. The protest must be made in writing and received within 20 days of the date this advice letter was filed with the Commission. There is no restriction on who may file a protest.
