(Includes GML-E, GML-C, GML-EC, GML-CC, GT-MLE, GT-MLC and all GMBL Rates)

APPLICABILITY

Applicable to natural gas service for customers who operate Non-Profit Group Living Facilities or Agricultural Employee Housing Facilities that provide Multi-family Accommodations where:

1. there are individually metered residential units whose residential services for each or any unit are provided from a central source,
2. such central facility receives natural gas service directly through a separate meter, and
3. residents meet the requirements for the California Alternate Rates for Energy (CARE) as set forth in Schedule No. G-CARE.

Customers who otherwise operate Non-Profit Group Living Facilities or Agricultural Employee Housing Facilities are served under Schedule Nos. GN-10L or GT-10L.

The CARE discount of 20% is reflected in the rates shown below.

Where this central facility supplies Baseline uses only or in a combination of Baseline uses and common facilities through one meter on a premises, except as otherwise provided in Special Condition 17, such gas service will be billed under rates designated for GML-E, GMBL-E or GMBL-EC, as appropriate. Natural gas supplied through a single meter to common facilities (swimming pools, recreation rooms, saunas, spas, etc.) only, will be billed under rates designated for GML-C, GMBL-C or GMBL-CC, as appropriate.

Master metered Customers who operate Non-Profit Group Living Facilities or Agricultural Employee Housing Facilities and have averaged at least 100,000 therms of weather-normalized usage for the previous two calendar years, January through December, will be billed under the "GMBL" rate which includes the GMBL-E, GMBL-C, GMBL-EC, GMBL-CC, GT-MBLE and GT-MBLC rates. Sub-metered customers are not eligible for GMBL rates.

The cross-over rate (GML-EC, GML-CC, GMBL-EC and GMBL-CC) is a core procurement option for residential core transportation customers who meet the CARE requirements and with annual consumption over 50,000 therms as set forth in Special Condition 10.

The GT-MLE, GT-MLC, GT-MBLE, GT-MBLC rates are applicable to Core Aggregation Transportation service, as set forth in Special Condition 11, and meet the requirements for CARE.

Eligibility for service hereunder is subject to verification by the Utility.

4. Medical Baseline: (Continued)

Where it is established that the energy required for a Life-Support Device, as defined in Rule No. 1, exceeds 0.822 therms per day, an additional uniform daily Baseline allowance will be provided. The amount of the additional allowance will be determined by the Utility from load and operating time data of the Life-Support Device.

11. Transportation-Only Service Option: This service option is available to GML customers with a minimum usage at each facility of 250,000 therms annually either through individual meter or from a group of end-use meters, where each end-use meter is classified as core usage and located within the Utility's service territory. For customers charged the GMBL rates, minimum usage to qualify for this transportation-only service option is 100,000 therms annually. Core customers who do not meet the above minimum may opt to aggregate their loads with other core customers and receive core aggregation service as set forth in Rule No. 32. Customers electing this service option must make arrangements for the purchase and delivery of gas supplies to the SoCalGas system to be transported by the Utility.
12. Gas Transportation Rules: Transportation service under this schedule is subject to the terms and conditions established in Rule No. 30, Transportation of Customer-Owned Gas, and Rule No. 32, Core Aggregation Transportation.
13. Gas Imbalance Service: Transportation Imbalance Service shall be provided to the customer's ESP under Schedule No. G-IMB.

 - a. There is more than one master meter serving the complex.
 - b. A baseline eligible central facility serves master metered baseline eligible dwelling units.
 - c. The master metered baseline eligible dwelling units are not provided gas by the same master meter which provides gas to the central facility.

A Customer Charge will be applied to each meter in the Multi-family Accommodation complex that is combined for billing purposes.

It is the responsibility of the owner or the owner's agent to demonstrate to the Utility's satisfaction the yardline configuration and the number of residential units served by the central facility.
