

COMMUNITY AWARENESS

ALISO CANYON STORAGE FACILITY PROGRESS REPORT

March 24, 2017

FENCE-LINE DATA NOW AVAILABLE ONLINE

SoCalGas® has launched a new, interactive [online tool](#) that allows the public to view data from the network of methane monitors that have been installed at Aliso Canyon. Eight pairs of monitors have been installed along the facility's border with the Porter Ranch community to record methane levels around-the-clock.

“We are excited to launch this tool and make data from our fence-line monitors available to members of the community,” said Lisa Alexander, SoCalGas vice president for customer solutions and communications. “This new tool will offer the community near real-time information about methane levels at the facility and will supplement a single methane monitoring station operated by the community. This initial launch included input from members of the community, and we will continue to seek the public’s feedback as we make enhancements to the web page.”

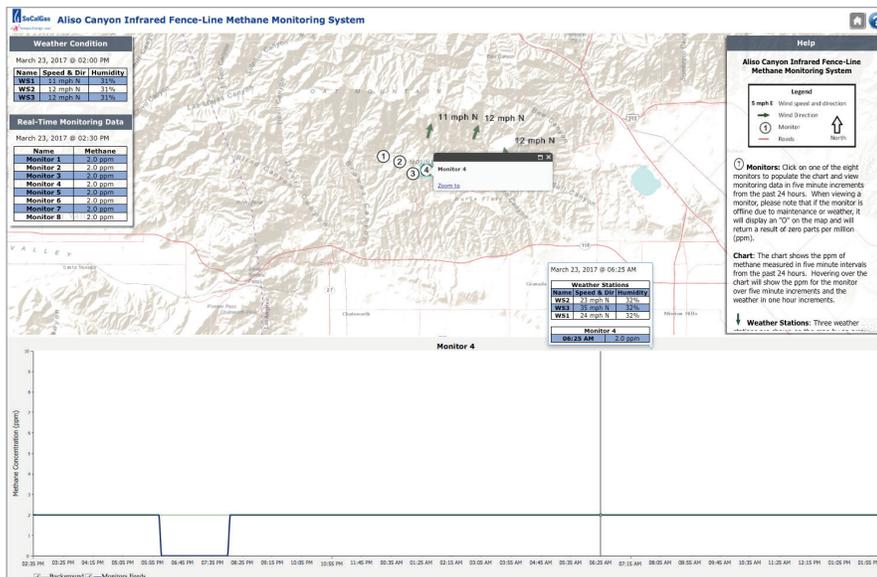

The interactive online tool displays a map indicating the location of the fence-line monitors. By clicking on any of those icons, users can view a chart with data showing methane levels recorded in five-minute increments over the past 24 hours. Methane levels are measured in parts per million (ppm). The online tool also shows weather data from three different weather stations in the area. Understanding current weather conditions, such as wind speed and humidity, provides context that helps to better understand the methane readings.

We invite you to visit our website to see this data for yourself. Visit socialgas.com/alisoupdates and click on “Methane Monitoring” located at the top-right of the page to access the new, interactive online tool.

“This is a step in the right direction. This system provides the community with transparent data and a tool for monitoring the air in Porter Ranch.”

– Nancy Lulejian Starczyk
Porter Ranch resident & member of the
Aliso Canyon Community Advisory Council

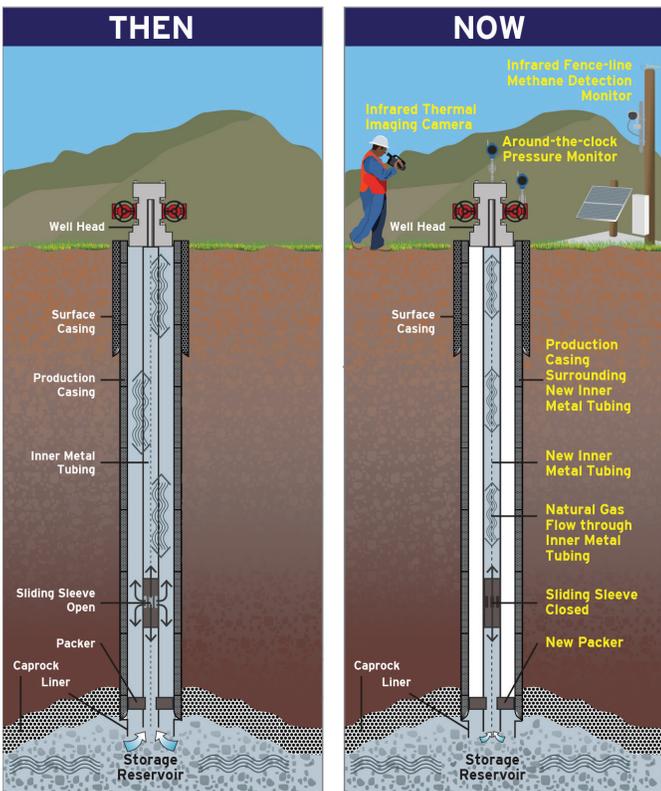

AIR QUALITY NOTIFICATIONS

Members of the community can now sign up to receive air quality notifications, via phone call, text message, and/or email, in the event of a release of natural gas at Aliso Canyon. Visit socalgas.com/airqualitynotifications or call 1-800-427-2200 to sign up.

INDUSTRY-LEADING SAFETY ENHANCEMENTS

Visit socalgas.com/alisoupdates to learn more about the extensive safety and technology enhancements SoCalGas has introduced over the last year. The diagram below illustrates all of the safety enhancements that are currently being implemented at Aliso Canyon.

COMMUNITY ADVISORY COUNCILS

In addition to the Aliso Canyon Community Advisory Council (CAC), SoCalGas has partnered with local leaders and organizations to form similar CACs in each of the communities that surround SoCalGas' storage facilities: Honor Rancho, La Goleta, and Playa del Rey. The CACs consists of community leaders from local churches, organizations, businesses, and schools and meet monthly to discuss SoCalGas' storage operations and to collect feedback regarding the local community's needs and concerns. Some of the organizations participating in each of the CACs include:

HONOR RANCHO

California State Assembly, 38th District
 California State Senate, 21st District
 City of Santa Clarita Public Information Office
 County of Los Angeles Board of Supervisors, 5th District
 Cornerstone Homeowners Assoc.
 Hart Union High School District
 Los Angeles County Fire Department
 Oakmont Senior Living Facility
 Saugus Elementary School District
 Santa Clarita Council of Realtors
 Santa Clarita Valley Chamber of Commerce
 Santa Clarita Valley Economic Development Corporation
 Southern California Edison
 United States Congress, 25th District
 Valencia High School

LA GOLETA

City of Goleta
 County of Santa Barbara
 Goleta Sanitary District
 Goleta Slough Committee
 Goleta Valley Chamber
 Rancho Goleta Mobile Home Park Homeowners Assoc.
 Santa Barbara Airport
 Santa Barbara County Fire Department
 Santa Barbara County Office of Emergency Management
 University of California Santa Barbara

PLAYA DEL REY

Friends of Ballona Wetlands
 Los Angeles Airport Coastal Chamber
 Loyola Marymount University, Government Affairs
 The Bay Foundation
 Westchester / Playa del Rey Neighborhood Council
