is THE leading provider of natural gas vehicle conversions in the United States

- Founded in 1992 by industry veterans
- More than 21,000 conversions completed to date
- Proprietary fuel systems – dedicated and bi-fuel
- Extensive in-house engineering and design team
- BAF conversions maintain OBD-II functionality and full factory warranty

Our New 90,000 Square foot Facility in Dallas, TX
Why BAF?
Fully Integrated Alternate Energy Solutions

- **FMVSS-303 and NFPA-52 compliant**
  - Light-duty vehicles are crash tested to ensure conformance to Federal Motor Vehicle Safety Standards that manufacturers must meet in order for their vehicles to be legally sold in the United States. (FMVSS-303) All BAF Technologies vehicle conversions conform to National Fire Protection Associations Vehicular Gaseous Fuel Systems Code. (NFPA-52)

- **The only CNG converter to achieve “3Q” Status with Ford**
  - QCM – Qualified Calibration Modifier
  - QVM - Qualified Vehicle Modifier
  - QFC – Quality Fleet Care (All Vehicles are Covered Under)

- **ISO 9001 Certificate of Registration**
  - Qualifies BAF Technologies as the only designer, integrator, and service provider of compressed natural gas (CNG) systems for OEM vehicle applications.
