

SOUTHERN CALIFORNIA GAS COMPANY'S SERVICE TERRITORY

Southern California Gas Company (SoCalGas®) has been delivering clean, safe and reliable natural gas to its customers for more than 140 years. It is the nation's largest natural gas distribution utility, providing service to 20.9 million consumers connected through nearly 5.8 million meters in more than 500 communities.

The service territory covers about 20,000 square miles, from San Luis Obispo in the north to the Mexican border in the south. The service territory covers 12 counties, 220 incorporated cities and at least as many unincorporated communities. Included are most of the region's heavily populated areas, with the exception of the city of Long Beach and county of San Diego.

SoCalGas owns and operates 3,526 miles of transmission pipelines, 49,715 miles of distribution pipelines and 48,888 miles of service lines. SoCalGas also operates eleven transmission compressor stations and four underground storage facilities with a combined capacity to store 134.1 billion cubic feet of natural gas.

A map of SoCalGas' high-pressure gas transmission and distribution pipelines in your county is enclosed in this package.
