SOLAR WATER HEATING

NOTHING CHANGES,  
**EXCEPT EVERYTHING**

## INCREASED REBATES FOR SOLAR WATER HEATING

Incentives have been expanded and improved for SoCalGas® customers who install solar water-heating systems in their homes or businesses:

- Up to \$10,238 for Single Family and Residential at a rate of \$70 per therm\*
- Up to \$800,000 for Commercial/Multi-family customers at a rate of \$25 per therm
- Removal of the 50 percent cap that currently exists on solar pool systems

To qualify for these temporary rebates\*\*, solar water heating installations must be in the SoCalGas service territory, meet California Solar Initiative (CSI) Thermal standards and have final building permits dated between April 15 and

December 31, 2016. The claim forms must be submitted by February 28, 2017 to receive the rebate.

**For more information please visit:**  
[socalgas.com/solar](http://socalgas.com/solar)

\* Although no direct changes were made to the CSI Thermal Low Income Program, qualifying customers will apply under the low-income program but will receive the temporary higher incentive rate.

\*\* The incentive budget can be monitored at [csithermal.com/tracker](http://csithermal.com/tracker).

This program is funded by California utility customers and administered by SoCalGas under the auspices of the California Public Utilities Commission. Program funds are allocated on a first-come, first-served basis until no longer available. This program may be modified or terminated without prior notice. SoCalGas is not responsible for any equipment or services selected by the customer. Eligibility requirements apply; see the program conditions for details.
