

**TURN DATA REQUEST  
TURN-SCG-DR-09  
SOCALGAS 2012 GRC – A.10-12-006  
SOCALGAS RESPONSE  
DATE RECEIVED: APRIL 11, 2011  
DATE RESPONDED: APRIL 25, 2011**

**Regarding 2010 Recorded Expense Data**

1) Regarding the April 11, 2011 email sent on behalf of Ron Van Leeden with the subject heading of “2010 Recorded Data for Use in the 2012 SoCalGas & SDG&E GRCs, please provide the same data for SoCalGas organized by FERC sub-account, rather than organized by testimony volume or witness.

**SoCalGas Response 01:**

D.08-07-046, Ordering Paragraph 22 states:

22. SDG&E and SoCalGas shall file the next GRC using the then-current “cost center” system of internal accounting and control rather than convert and allocate the data to approximate the Federal Energy Regulatory Commission’s Uniform System of Accounts.

In accordance with this ordering paragraph, the SoCalGas 2012 GRC is organized by cost centers and not FERC accounts and all historical data (including adjustments) and GRC forecasts are presented using cost centers and not FERC accounts. Accordingly SoCalGas does not have the information in the format requested.
