SOCALGAS RESPONSE
DATE RECEIVED: NOVEMBER 24, 2014
DATE RESPONDED: DECEMBER 9, 2014**

2. SoCalGas discusses the abandonment of pipes for each of the three pressure betterment projects discussed on pages FBA-94-FBA-96. Since these lines will no longer be operational, please identify all savings associated with the operation and maintenance of these lines going forward for each year from 2014-2016. If no savings are captured, please explain why not.

SoCalGas Response:

There are not estimated to be any Gas Distribution savings associated with the three pressure betterment projects. Each pipeline abandonment corresponds to an installation of new pipe that is either the same distance or greater, resulting in an increase in Gas Distribution pipeline mileage.

3. If the planned operation dates for the South Bay Cities and the Arvin pressure betterment projects have changed since the NOI filing of the SoCalGas 2016 GRC, please provide an update.

SoCalGas Response:

The planned operation date for the South Bay Cities Pressure Betterment has not changed since the NOI filing.

For the Arvin Pressure Betterment, the new pipe was placed in-service on 9/2/2014. The intertie with PG&E has an anticipated in-service date of 12/31/2014.
