**(A.17-05-007)**

**(DATA REQUEST ORA-SCG-010-CY3)**

---

**QUESTION 1:**

Please explain how many MHPs in each of Category 1, 2, and 3 have extant underground electric service, overhead electric service, or a combination of underground and overhead.

- a. Of those MHPs in Category 1, how many have been or are being converted from overhead or combined underground-overhead electric systems to underground electric systems?
- b. Of those MHPs in each of Category 2 and Category 3, how many will be converted from overhead or combined underground-overhead electric systems to underground electric systems if SoCalGas "bridge" to convert an additional 5% of MHP spaces is approved?
- c. Of those MHPs in each of Category 2 and Category 3, how many will be converted from overhead or combined underground-overhead electric systems to underground electric systems if SoCalGas application to convert an additional 20% of MHP spaces is approved?
- d. Please explain what the average and marginal costs are for converting one MHP space in an MHP with legacy overhead electric service to underground electric service.
- e. Please explain what the average and marginal costs are for converting one MHP space in an MHP with legacy overhead electric service to direct overhead electric service.
- f. Please explain what the average and marginal costs are for converting one MHP space in an MHP with legacy combined underground and overhead electric service to underground electric service.
- g. Please explain what the average and marginal costs are for converting one MHP space in an MHP with legacy combined underground and overhead electric service to direct overhead electric service.

**RESPONSE 1:**

SoCalGas does not track electric service information beyond what was originally provided in the FOI by the MHP Owner/Operator. Electric system information after the MHP upgrade is managed by the electric service provider.

---

For questions 1(a) – 1(g), SoCalGas does not manage, nor does SoCalGas have access to, the electric conversion and cost data for the MHPs in its service territory for the aforementioned reason.
