

**ORA DATA REQUEST**  
**ORA-SCG-158-LMW**  
**SOCALGAS 2019 GRC – A.17-10-008**  
**SOCALGAS RESPONSE**  
**DATE RECEIVED: MARCH 13, 2018**  
**DATE RESPONDED: MARCH 23, 2018**

**Exhibit Reference:** SCG-23 - Capital

**SCG Witness:** Herrera

**Subject:** Capital Expenditures

**Please provide the following:**

1. Per the attached spreadsheet (SCG's 2017 Fleet & Facility Capital Forecast), please insert the adjusted recorded 2017 capital expenditures expenditures that correspond to that specific project ID, budget code, and project subname for comparison purposes and inputting into the RO model. In the event line items may be different, please insert the new line item that allows SCG the ability to tie to their actual 2017 expenditures. ORA asks SCG to expedite this response.

**SOCALGAS Response 01:**

SoCalGas objects to this request on the grounds that it is unduly burdensome. SoCalGas is not required to create new data or present existing data in a different form beyond that which might be readily available. There are no instructions or requirements in the Rate Case Plan regarding the provision of Base Year + 1 data (in this case 2017 data). SoCalGas has already provided sufficient 2017 data in the 2017 Recorded-Adjusted Capital Expenditure file submitted to ORA in March 2017 in the format nearly identical to that provided in the 2016 General Rate Case for base-year-plus-1 data. Subject to and without waiving the foregoing objection, SoCalGas responds as follows:

Please see the attached file with the readily available information requested for the Fleet & Facility capital expenditures, ORA-SCG-158-LMW-Data, which is being produced only to ORA. Note: Information may not be readily available for other GRC witness areas. SoCalGas reserves the right to treat requests for such information on a case-by-case basis, including, but not limited to, whether information requested is unduly burdensome, irrelevant, and exceeds the scope of permissible discovery under Rule 10.1 to produce.
