

# SHAPING THE FUTURE WITH **GREEN HYDROGEN**

JULY 2022 NEWSLETTER

## INFORMATIONAL WEBINARS

As part of Phase 1 project activities described in our Memorandum Account Application, and our commitment to a robust stakeholder engagement process, we hosted a webinar to provide an overview of the Angeles Link proposal and to share related preliminary research. For more information click [here](#).

## IN THE NEWS

- SoCalGas Vice President of Clean Energy Innovations Neil Navin presented at the Reuters Global Energy Transition event last month where he spoke about the company's Angeles Link proposal. [Read more](#) about Neil's presentation.
- A [recent article from Spectrum News 1\\*](#) highlights our hydrogen plans and how those plans could fit into a proposed regional hydrogen hub.

## APPLICATION PROCESS

On June 29, 2022, SoCalGas filed an [Opening Brief](#) with the California Public Utilities Commission (CPUC) in support of the proposal to establish an Angeles Link Project Memorandum Account for recording incremental costs associated with the stakeholder engagement and engineering, design, and environmental work necessary to develop Angeles Link. Other parties to the CPUC proceeding will have an opportunity to file opening briefs addressing our proposal on July 29, 2022. Reply briefs from all parties are due August 15, 2022, after which the CPUC will develop a proposed decision regarding the establishment of a memorandum account.
