

INNOVATION

ENERGY EFFICIENT NEW HOMES PROGRAM GUIDEBOOK

A  Sempra Energy utility®

PROGRAM OVERVIEW

The Energy Efficient New Homes (EENH) Program provides rebates to builders of eligible new residential construction projects that are built to the State of California Title 24 Energy Efficiency Standards and equipped with qualifying natural gas appliances. Production and custom single-family homes and low-rise and high-rise multi-family projects built in the SoCalGas® service territory and served by SoCalGas may be eligible.

PROGRAM DESCRIPTION

Cash rebates are offered for qualifying natural gas appliances listed in the Worksheets contained in this guide.

Single-family (SF)

For single-family homes, refer to the list of qualifying natural gas appliances in the Single-family Worksheet. Larger rebates are offered based on the energy efficiency of the installed appliance. Rebates for qualifying clothes washers are available when paired with qualifying natural gas dryers in homes with natural gas water heating equipment. For homes with natural gas water heating, one thermostatic restriction valve rebate is available per bathroom for either a bath/shower combination or shower alone. Only one smart thermostat will be rebated for each home with a natural gas furnace.

Multi-family (MF)

For multi-family projects, refer to the list of qualifying natural gas appliances in the Multi-family Worksheet. Both Dwelling Units and Common Areas qualify for the rebates. A qualifying boiler controller must also be installed with any central boiler system. Rebates for clothes washers are available with natural gas dryers and water heating equipment. Only one smart thermostat will be rebated per dwelling and the common areas. Rebates for thermostatic restriction valves for baths and showers as well as demand-control recirculating pumps are available with natural gas water heating. One thermostatic restriction valve for shower/tub combination or shower will be rebated per bathroom.

PROGRAM REQUIREMENTS

Applications must be submitted prior to construction start date and approved by SoCalGas to ensure funds will be reserved for future purchase and installation of qualifying equipment. Funds are limited and will be reserved on a first-come, first-served basis. Visit our website at socalgas.com/eenh for additional details, and to make sure funding is available and both reservations and applications are being accepted before applying. The EENH Program may be changed or terminated without prior notice at any time.

Residential New Construction applicants may not accept incentives and/or rebates from more than one utility-sponsored energy-efficiency program, including the California Advanced Homes Program (CAHP), for the same project.

EQUIPMENT REQUIREMENTS

Equipment must meet all applicable requirements as further described in the Application. Additionally, SoCalGas reserves the right to verify installation and deny payment for equipment that does not meet all program requirements. All equipment must also be new natural gas equipment or controller devices. Used or rebuilt equipment is not eligible. Equipment must also be installed and operational according to applicable federal, state, and local building codes, ordinances, standards and/or manufacturer's requirements.

RESERVING FUNDS

To reserve funds:

1. Complete the application (including the attached worksheet) for either single-family or multi-family projects indicating the natural gas appliances and controller devices to be installed in the new residential construction project.
2. Print out, sign, and date the Application (including the worksheets).
3. Prior to the construction start date, mail the completed Application (including all worksheets) to:
SoCalGas®
Energy Efficient New Homes Program
M.L. GT 20B3
P.O. Box 512670
Los Angeles, CA 90051-0670
Questions? Call 1-866-563-2637 or email NewHomes@socalgas.com.
4. If the Application is approved by SoCalGas, an e-mail message with a reservation number will be sent to the applicant as proof of project approval to participate in the EENH Program.
5. Funds will be reserved for 36 months from the date of the approval e-mail message. The deadline

may be extended, if approved, for six months one time only by written request sent by the applicant to the previously stated postal address.

REQUEST FOR PAYMENT

To claim your rebate:

1. When the project, or a phase in the case of production homes, has been completed, complete the Request for Payment (RFP) form and send to SoCalGas with the following supporting documentation. For production home projects, a completed RFP form may be sent in for each completed phase:
 - Project homes address list (if more than one home in the project)
 - Proof of equipment purchase - a copy of the paid invoices or similar records that show equipment purchased and installed at the project address.
 - Copy of W-9 Form for applicant or for the third-party payee receiving the rebate check
2. Mail the completed package to:
SoCalGas®
Energy Efficient New Homes Program
M.L. GT 20B3
P.O. Box 512670
Los Angeles, CA 90051-0670

Questions? Call 1-800-508-2348 or email:

scqrnc@socalgas.com

TERMS AND CONDITIONS

The following terms and conditions apply to the EENH Program. The individual or entity submitting the Application ("Applicant") hereby acknowledges and agrees as follows:

1. Applicant has read and understands the rules, requirements, and terms and conditions set forth in these Guidelines (including the Application and all attachments hereto) and agrees to abide by such rules, requirements and terms and conditions.
2. Applicant meets the program eligibility requirements as stated or referenced in these Guidelines.

3. The information Applicant has supplied on the Application and attachment(s) is true, correct and complete.
4. If the Application or any work related thereto is terminated for any reason, SoCalGas shall not be liable to the Applicant for damages or compensation of any kind. **In no event will SoCalGas or any of its affiliated companies or its parent company have any liability to Applicant or any of its employees, representatives, or agents for any special, indirect, incidental or consequential loss or damage whatsoever, including, without limitation, lost profits or lost investment opportunity, even if such party has been advised in advance that such damages could occur.**
5. SoCalGas reserves the right, in its sole discretion, to determine eligibility for rebates.
6. SoCalGas makes no representation or warranty (including the warranty of merchantability or fitness for a particular purpose), and assumes no liability with respect to quality, safety, performance, or other aspect of any design, system or appliance selected or installed and expressly disclaims any such representation, warranty or liability. To the fullest extent permitted by law, Applicant agrees to indemnify and hold harmless SoCalGas, its affiliates, subsidiaries, parent company, officers, directors, agents and employees against all loss, damage, expense, fees, costs and liability arising from any measures installed.
7. Both funding and the EENH Program are subject to the jurisdiction of the California Public Utilities Commission (CPUC) and shall be subject to such changes or modifications as the CPUC may, from time to time, direct in the exercise of its jurisdiction.
8. Applicant understands that if the rebate is modified in any way or terminated by order of any government entity, then the Application shall be revised or terminated consistent with that order.
9. SoCalGas may assign the Application, in whole or in part, or its rights and obligations hereunder, directly or indirectly, by operation of law or otherwise, without the Applicant's prior written consent, provided SoCalGas remains obligated for payments incurred prior to the assignment. The Applicant may not assign this Application, in whole or in part (including by a direct or indirect change of control or by operation of law), or, its rights and obligations hereunder, directly or indirectly, by operation of law or otherwise without the prior written consent of SoCalGas.
10. Applicant understands rebates require inspections of the installed appliances and/or devices. Therefore, Applicant agrees to provide access to the project site for these purposes to SoCalGas and/ or its agents or assigns and the CPUC and/or its agents or assigns.
11. To the fullest extent permitted by law, Applicant agrees to indemnify and hold harmless SoCalGas, its affiliates, parent company, officers, managers, directors, agents and employees from all claims, demands, losses, damages, costs, expenses and liability (legal, contractual, or otherwise), which arise from or are in any way connected with any: (1) injury to or death of persons, including but not limited to employees of SoCalGas, customer, or any third party; (2) injury to property or other interests of utility, Applicant or any third party; (3) violation of local, state, or federal common law, statute, or regulation, including but not limited to environmental laws or regulations; (4) energy savings shortfall; so long as such injury, violation, or shortfall (as set forth in (1)–(4) above) arises from or is in any way connected with the Project, including any third party's performance of or failure to perform the Project, however caused, regardless of any strict liability or negligence of utility, its officers, managers or employees.
12. Funding approved for this rebate is limited and will be paid on a first-come, first-served basis to qualified applicants. Funds will only be reserved upon SoCalGas' approval of the Application. This rebate offer is subject to the availability of authorized funds.
13. Applicant agrees that Applicant will not apply for or receive incentives or rebates offered by local or state entities or other utilities for eligible equipment covered under this Application.

14. SoCalGas may suspend or terminate the Application, with or without cause, upon written notice to Applicant.
15. Applicant understands the following tax liability provisions: SoCalGas will report rebates greater than \$600 as income to Applicant on IRS Form 1099 unless: 1) Applicant has marked the "Corporation" or "Exempt" tax status box on the Request for Payment Form, or 2) Applicant has authorized SoCalGas to remit the rebate payment to a third party on the RFP Form. SoCalGas will report rebates greater than \$600 as income to the third party payee unless the Applicant has marked the "Corporation" or "Exempt" tax status box for the payee on the RFP Form. Utility recommends that Applicant consults a tax adviser concerning the taxability of rebates. SoCalGas is not responsible for any taxes that may be imposed due to rebate payments.
16. Applicant understands once an Approval Letter is issued for this Application, the Application will be processed under the program. If the Application is withdrawn at any time in the process, Applicant may only resubmit an Application for the same project in the same program, under specific approved circumstances.
17. Applicant understands SoCalGas may use the services of external consultant(s) for functions related to the submitted projects. The applicant hereby authorizes SoCalGas to share any of the submitted project information with the consultants, expressly for this purpose.
18. If this Agreement is canceled, the applicant may reapply at a later date. Applications will be accepted and estimated rebates will be committed based upon the funds available at the time of reapplication.
19. The Energy Efficient New Homes Program is funded by SoCalGas customers and administered by Southern California Gas Company, under the auspices of the California Public Utilities Commission.
20. This program, including all rules and requirements with respect thereto, may be modified or terminated without prior notice.

GLOSSARY

- **Annual Fuel Utilization Efficiency (AFUE)** – The AFUE is a measure of annual efficiency of boilers and furnaces. It takes into account the cyclic on/off operation and associated energy losses of the heating unit as it responds to changes in the load.
- **BTU** – British Thermal Unit; a traditional unit of heat defined as the amount of heat required to raise the temperature of one pound of water by one-degree Fahrenheit.
 - **MBTU** – Thousand British thermal units.
- **Combined Energy Factor (CEF)** – Energy-performance criteria for dryers. CEF is the quotient of the test load size, 8.45 pounds for standard dryers and 3 pounds for compact dryers, divided by the sum of the machine electric energy-use during standby and operational cycles.
- **Combustion Efficiency (CE)** – This is the energy available within the system after subtracting the wasted heat as a flue stack loss. CE is measured at the flue stack with an analyzer as $CE = 100 \text{ percent} - (\text{stack loss in percentages})$
- **Energy Factor (EF)** – This is an efficiency rating for water heaters. It is the ratio of useful energy output to the total amount of energy used.
- **Fireplace Efficiency (FE)** – Based on Canadian Standards
- **Integrated Modified Energy Factor (IMEF)** – Energy performance metric for ENERGY STAR® certified residential clothes washers
- **Integrated Water Factor (IWF)** – Water-performance metric for ENERGY STAR certified residential clothes washers
- **Thermal Efficiency (TE)** – This is an energy-efficiency measure of combustion equipment. For boilers it is the percentage of energy consumed that converts to heat for the water or steam.
- **Uniform Energy Factor (UEF)** – For residential and certain commercial water heaters refers to its efficiency when run under standardized conditions for a 24-hour period.

APPLICATION AND AGREEMENT FORM

Complete this application and agreement form to reserve funds for single-family or multi-family new construction projects. You can fill it out on your computer and then print it out for signature.

THIRD PARTY PAYMENT AUTHORIZATION

As the Applicant, I request that my EENH rebate be remitted to the third-party Payee named below. I understand that I will not be receiving the rebate check. I understand that my release of the payment to the Payee does not exempt me from the program requirements outlined in this Agreement. I also understand that SoCalGas will report rebates greater than \$600 as income on Form 1099 to the third-party payee unless I have marked the "Corporation" or "Exempt" tax status box for the payee below. SoCalGas is not responsible for any taxes that may be imposed as a result of this rebate.		
Make Rebate Check Payable to:		
Payee First and Last Name		
Payee Company		
Federal Tax ID # (or) Social Security #	<input type="checkbox"/> Corporation <input type="checkbox"/> Non-Corporation <input type="checkbox"/> Individual <input type="checkbox"/> Exempt If exempt, describe why:	
Payee Address	Payee City, State	Payee ZIP
Applicant Name (Required):		Date (Required):
Applicant Signature (Required):		

SUPPORTING DOCUMENTATION REQUIRED

1. Project homes address list (if more than one home in the project)
2. Proof of equipment purchase – a copy of the paid invoices or similar records that show equipment purchased and installed at the project address.
3. Copy of W-9 Form for applicant or third-party payee receiving the rebate check

Send this completed and, if necessary, signed form with the supporting documents to:
