

2021 BUSINESS REBATE GUIDE AND APPLICATION

ENERGY-EFFICIENCY

INTRODUCTION

SoCalGas® offers an array of energy-efficiency programs as part of our commitment to exceptional customer service. While this guide offers information on several ways SoCalGas can help save you money and energy, it is focused on the Energy-Efficiency Rebates for Business (EERB) program.

The EERB program offers rebates on qualifying energy-efficient natural gas equipment and improvements for your business.

This document will guide you through the application process. Carefully read the program requirements, qualified equipment requirements and terms and conditions before purchasing equipment to determine whether you may be eligible. If you need assistance in determining your energy saving needs, please contact us to arrange for a no-cost energy audit.

WHO CAN APPLY?

Any commercial, public, industrial or agricultural customer with an active, valid and non-delinquent SoCalGas account can apply for a rebate under the EERB program. Whether you're a small business or a large industrial customer, we have rebate opportunities for you. Residential customers are not eligible. See page 2 for more detailed requirements.

LOOKING FOR A VENDOR?

Use the SoCalGas Trade Professional Directory to help you search for vendors who sell, install, and service natural gas equipment and are active participants in our energy-efficiency programs. Contact tradeinfo@socalgas.com or visit socalgas.com/tradeinfo to learn more.

INSTANT REBATES AT THE REGISTER

Rebates are automatically applied at point-of-sale for certain equipment sold by select dealers or distributors; submitting a separate rebate application is unnecessary. For more information, visit caenergywise.com/instant-rebates for foodservice equipment and statewide-waterheating.com for water heating products.

FOR MORE INFORMATION

For online submission of your rebate application, visit socalgas.com/businessrebates.

Definitions of various terms in this guide can be found on the glossary page.

Questions? Call us toll-free at 1-800-508-2348 or email us at EERebatesforBusiness@socalgas.com.

PROGRAM REQUIREMENTS

GENERAL

- Customers eligible for the Energy-Efficiency Rebates for Business (EERB) program must have active, valid and non-delinquent commercial, industrial or agricultural accounts with qualifying equipment that is operational and ready for inspection.
- The total rebate limit for the EERB program is up to \$500,000 per site, and up to \$1,000,000 per customer, per year.
- The rebate amount cannot exceed the cost of purchasing and professionally installing your equipment/product.

EQUIPMENT REQUIREMENTS

- Equipment must meet the requirements of the program as outlined in this guide. SoCalGas reserves the right to verify installation and deny payment for products that do not meet the requirements of the program.
- All equipment must be new natural gas equipment. Used or rebuilt equipment is not eligible. Fuel switching (changing from electricity to natural gas) does not qualify.
- Qualified commercial, industrial or agricultural customer account(s) must be fully active and non-delinquent. Equipment must be paid in full, installed and in use at the time of, or prior to, application submittal. Account verification may be required.
- Equipment for new construction may be eligible for either the EERB program or the Energy-Efficiency Calculated Incentive Program (EECIP). For more information, visit socalgas.com/businessrebates.
- Qualified equipment must be installed at the facility served by the SoCalGas account listed on the application and must be installed and operational according to state local building codes, ordinances and/or manufacturer's requirements.
- To verify equipment eligibility, you may contact a SoCalGas representative at EERebatesforBusiness@socalgas.com.

PROGRAM LIMITATIONS

- Rebates will not be paid for replacements of equipment types at the site/premise which has received a rebate from SoCalGas within the last five (5) years.
- Customers who have received rebates, incentives or services for the same equipment from other utilities, states, or local programs funded by the Public Purpose Program Surcharge (PPPS) are not eligible. However, customers can apply for rebates from water agencies if the equipment qualifies for one. Contact your local water agency for more information.
- Residential dwellings such as single-family attached and detached homes, condominiums and apartments do not qualify for rebates under this program, but they may qualify

under SoCalGas' residential rebate programs. Some common areas of multi-family residential properties that are served under the GN-10 rate schedule (refer to your SoCalGas bill) may qualify for the EERB program.

USING A LICENSED CONTRACTOR

How well your Heating, Ventilating and Air Conditioning (HVAC) system performs, and how much it costs to operate, depends in part on the proper installation of the system. Hiring a licensed contractor who obtains the required building permit and has knowledge of, and complies with, local codes, ordinances and the requirements of the Building Energy-Efficiency Standards (State Administrative Code, Title 24, Part 6) increases the likelihood that your system will be properly installed and will work efficiently, quietly and safely.

ENERGY-EFFICIENCY BENCHMARKING

The California Energy Commission (CEC) has established regulations for a new statewide whole-building energy use and public disclosure program under California Assembly Bill 802 (AB802). This statute went into effect on January 1, 2017, and the regulations will require "covered" commercial, mixed use and multi-family building owners to complete an annual energy performance benchmark via ENERGY STAR® Portfolio Manager®, and for some of those covered buildings there is an additional requirement to disclose your Portfolio Manager rating to the CEC.

SoCalGas can assist with getting your usage data, so you can meet your benchmarking obligations or other local benchmarking ordinances.

For more information, visit socalgas.com/benchmarking.

ENERGY-EFFICIENCY FINANCING

Are you looking at implementing energy efficiency projects for your business? Reducing energy consumption and improving efficiency is always a smart investment. We have financing options available to meeting your business needs including zero-percent financing for eligible customers. For more information, visit socalgas.com/financing.

REBATE PAYMENT

A rebate check for qualified equipment is generally mailed 45 business days after SoCalGas approves a correct and complete application that includes all required documentation. Please note that additional time may be required if your application is selected for random inspection. The precise rebate amount may be subject to subsequent adjustment by SoCalGas.

QUALIFIED EQUIPMENT

Refer to each section for qualifying equipment requirements.

BOILERS, WATER HEATERS & WATER HEATING PRODUCTS

Boilers

Instant rebates* - Commercial water heating equipment is also available at point-of-sale through distributors participating in our SW Midstream Water Heating Program. For more information visit statewide-waterheating.com. Before you buy water heating equipment, carefully read the specifications below for size, input rating and required efficiency.

- Combustion Efficiency (CE), Energy Factor (EF), Uniform Energy Factor (UEF), or Thermal Efficiency (TE).

For a list of qualifying water-heating equipment, visit the CEC website at cacertappliances.energy.ca.gov/Pages/ApplianceSearch.aspx. Boiler rebates cannot exceed \$25,000 per unit and "Up To" efficiency values are not acceptable.

*Equipment must be purchased via participating distributors. Applications submitted through Midstream Program are not eligible to receive additional rebates.

Commercial Hot Water Boilers

BOILER	BOILER RATING	REQUIRED EFFICIENCY	REBATE AMOUNT
Small/Medium - Tier I	<200 kBtuh	≥ 0.84 UEF	\$0.50/kBtuh
Small/Medium - Tier II	<200 kBtuh	≥ 0.87 UEF	\$2.50/kBtuh
Large - Tier I	≥ 200 kBtuh	≥ 0.84 TE or ≥ 0.86 CE	\$0.50/kBtuh
Large - Tier II	≥ 200 kBtuh	≥ 0.90 TE or ≥ 0.92 CE	\$3/kBtuh
Large - Tier III	≥ 200 kBtuh	≥ 0.96 TE or ≥ 0.98 CE	\$4/kBtuh

Storage Water Heaters

WATER HEATER	WATER HEATER RATING	REQUIRED EFFICIENCY	REBATE AMOUNT
Small - 30 Gallon (Medium Draw)	≤ 75 kBtuh	≥ 0.64 UEF	\$2/kBtuh
Small - 40 Gallon (Medium Draw)	≤ 75 kBtuh	≥ 0.64 UEF	\$3/kBtuh
Small - 50 Gallon (Medium Draw)	≤ 75 kBtuh	≥ 0.64 UEF	\$2/kBtuh
Small - 30 Gallon (High Draw)	≤ 75 kBtuh	≥ 0.68 UEF	\$3/kBtuh
Small - 40 Gallon (High Draw)	≤ 75 kBtuh	≥ 0.68 UEF	\$6/kBtuh
Small - 50 Gallon (High Draw)	≤ 75 kBtuh	≥ 0.68 UEF	\$5/kBtuh
Large - Tier 1	> 75 kBtuh	≥ 0.83 TE	\$2/kBtuh
Large - Tier 2	> 75 kBtuh	≥ 0.90 TE	\$8/kBtuh
Large - Tier 3	> 75 kBtuh	≥ 0.96 TE	\$8/kBtuh

Tankless Water Heaters

WATER HEATER	WATER HEATER RATING	REQUIRED EFFICIENCY	REBATE AMOUNT
Small - Tier 1	<200 kBtuh	≥ 0.81 UEF	\$3.20/kBtuh
Small - Tier 2	<200 kBtuh	≥ 0.87 UEF	\$6/kBtuh
Medium	76 to 200 kBtuh	≥ 0.90 TE	\$6/kBtuh

Tankless Water Heaters (Continued)

Large - Tier 1	≥200 kBtuh	≥0.80 TE	\$5/kBtuh
Large - Tier 2	≥200 kBtuh	≥0.90 TE	\$8/kBtuh
Large - Tier 3	≥200 kBtuh	≥0.96 TE	\$8/kBtuh

Pool Heaters

Must have an "on/off" switch and have no pilot light.

EQUIPMENT	EFFICIENCY REQUIREMENT	REBATE AMOUNT
Pool Heater	Thermal Efficiency ≥84%	\$2/MBtuh

Process Heating Boilers

- Rebates available for Process Boilers/Direct Contact Water Heaters primarily for the Industrial (NAICS code 31-33) sector, however the following sectors also apply: Agricultural (NAICS Code 11), Oil and Gas Extraction (NAICS Code 21) and Dry Cleaning/Laundry services (NAICS Code 8123).
- A flue gas analysis (FGA) measured under full-load conditions is required to document combustion efficiency under full-load conditions after the installation is complete. SoCalGas offers FGAs at no cost; please call 1-800-427-2000 to set up an appointment.
- Rebate amount for Process Heating Boilers cannot exceed \$40,000.

TYPE OF BOILER	INPUT RATING	REQUIRED EFFICIENCY	REBATE AMOUNT
Steam	≤20MMBtuh	≥83% CE/or ≥81% TE	\$2/MBtuh
Hot Water - Tier I	≤20MMBtuh	≥85% CE	\$1/MBtuh
Hot Water - Tier II	≤20MMBtuh	≥90% CE	\$2/MBtuh

Steam Boiler Stack Economizer

- This measure is most applicable for the industrial facilities (NAICS code 31-33) but could also be applicable for agricultural (NAICS Code 11), oil and gas extraction (NAICS Code 21) and dry cleaning/laundry services (NAICS Code 8123).
- This measure is applicable to **steam boilers only**.
- The economizer manufacturer, model, and spec sheet should be submitted for verification.
- Rebate amount for Steam Boiler Stack Economizer cannot exceed \$40,000.
- Boiler specification sheet required.

TYPE OF BOILER	INPUT RATING	REBATE AMOUNT
Feedwater (Single-Stage) Boiler Stack Economizer	≤20MMBtuh	\$1/MBtuh
Condensing (Dual-Stage) Boiler Stack Economizer	≤20MMBtuh	\$2/MBtuh

Space-Heating Boilers

- Equipment must be used for space heating to provide human comfort (as defined by CEC Titles 20 and 24 Standards).
- Ambient/Natural draft type boilers do not qualify.
- **Space-heating boilers must be installed by licensed contractors in order to qualify for a rebate. Contractors performing the installation must sign the rebate application.**

TYPE OF BOILER	INPUT RATING	REQUIRED EFFICIENCY	REBATE AMOUNT
Medium Hot Water- Tier 1	300-2500 MBtuh	≥85% TE	\$0.50/MBtuh
Medium Hot Water- Tier 2	300-2500 MBtuh	≥94% TE	\$3/MBtuh
Large Hot Water- Tier 1	>2500 MBtuh	≥83% TE or ≥85% CE	\$0.50/MBtuh
Large Hot Water- Tier 2	>2500 MBtuh	≥94% TE or ≥96% CE	\$3/MBtuh
Medium Steam	300-2500 MBtuh	≥82% TE	\$0.50/MBtuh
Large Steam- Tier 1	>2500 MBtuh	≥80% TE or ≥82% CE	\$0.50/MBtuh
Large Steam- Tier 2	>2500 MBtuh	≥82% TE or ≥84% CE	\$0.50/MBtuh

HEAT RECOVERY PRODUCTS

Heat Recovery Rooftop Unit (HR-RTU)

- This rebate is restricted to fast food restaurant venues with rooftop air conditioner units and a natural gas water heating system.
- This applies to the installation of air to water roof top air conditioner unit that can utilize waste heat to preheat incoming water from the main inlet.

EQUIPMENT	MINIMUM COOLING CAPACITY	REBATE AMOUNT
HR-RTU	10 Ton	\$3,000/unit

Steam Traps

- Steam trap replacements for industrial customers (NAICS codes 31-33) do not qualify for a rebate under this program, but they may qualify under SoCalGas' Energy-Efficiency Calculated Incentive Program (EECIP). For more information, visit socalgas.com/businessrebates.
- Small commercial facilities operating their steam boiler <12hrs are not eligible for commercial steam trap rebates.
- Must replace, on a one-for-one basis, existing steam traps that fail to open or close.
- Customer may be asked to verify the location of the replaced steam trap(s) in the steam loop.

EQUIPMENT	FACILITY HOURS OF OPERATION	REBATE AMOUNT
Steam Trap	≥12 hours of average daily use	\$100/unit

Recirculating Pump Control

- This rebate is restricted to the following commercial building types: hotel, motel, nursing home, education university dormitory.
- Recirculating pump must utilize a temperature sensor to monitor a 20 degree difference between the return water temperature and the supply water temperature within served loop.
- Recirculating pump control must respond to demand by controlling the hot water recirculation loop temperature.
- Rebates do not apply to new construction.

EQUIPMENT	FACILITY HOURS OF OPERATION	REBATE AMOUNT
Recirculating Pump Control	24hr/day required	\$9.50 per Dwelling Unit Served By A Loop

Recirculating Pump Time Clock

- This measure applies to those buildings with centralized, gas-fired, hot-water system with a constant-flow, uncontrolled recirculating pump.
- This rebate is limited to six commercial building types with set occupancy schedules including: primary and secondary education, fitness centers, small and large office buildings, and outpatient healthcare facilities, which are unoccupied for a period of time each day.
- Invoice must provide the diameter of supply pipe and the horsepower of the recirculating pump.

EQUIPMENT	ENERGY-EFFICIENCY REQUIREMENT	REBATE AMOUNT
Recirculating Pump Time Clock	Requires 7-day (or better) scheduling capabilities	\$300/per time clock

Note that hot water is still available when the recirculating pump is off, but requires more time to heat up.

Pipe/Fittings Insulation

- Insulation required by California Building Code (Title 24) or employee safety laws (Occupational Safety and Health Administration) is not eligible for a rebate.
- New construction not eligible.
- Replacement of damaged (existing) insulation is not eligible for a rebate.
- Insulation is eligible for pipes and fittings. Fittings include but are not limited to elbows, tees, valves, unions, flanges, reducers, bushings and couplings.
- Minimum qualifying pipe diameter must be at least one half inch. Insulation must be applied at installation site.
- A minimum of one inch of pipe insulation must be added to existing bare commercial or industrial steel or copper pipe.
- Hours of operation must be indicated on the top of the application. Indicate indoor or outdoor installation of insulation.

- Pipes must transfer hot water, low-pressure or high-pressure steam directly from gas-fired equipment.
- Acceptable types of insulation for hot water pipes include, but not limited to, elastomeric foam rubber, polyethylene foam, UV-resistant polyethylene foam and rigid polyurethane foam.
- Acceptable types of insulation for steam pipes include silicone foam rubber, melamine foam, rigid urethane-based foam, cellular glass, rigid fiberglass and rigid mineral wool.
- The manufacturer's specification sheet must be submitted with the application.

TYPE OF PIPE/FITTINGS	PIPE SIZE	REBATE AMOUNT
Hot Water (HW)	≤1 inch	\$2/linear ft. / \$8 per fitting
Hot Water (HW)	>1 inch and ≤4 inch	\$3/linear ft. / \$11 per fitting
Hot Water (HW)	>4 inch	\$4/linear ft. / \$14 per fitting
Steam <15 psig	≤1 inch	\$2/linear ft. / \$12 per fitting
Steam <15 psig	>1 inch and ≤4 inch	\$3/linear ft. / \$20 per fitting
Steam <15 psig	>4 inch	\$4/linear ft. / \$32 per fitting
Steam ≥15 psig	≤1 inch	\$2/linear ft. / \$12 per fitting
Steam ≥15 psig	>1 inch and ≤4 inch	\$3/linear ft. / \$20 per fitting
Steam ≥15 psig	>4 inch	\$4/linear ft. / \$32 per fitting

Pool Covers

- Pool must be heated by natural gas.
- New construction not eligible.
- No replacement of existing pool covers (regardless of condition) **and must not have had a cover for the past 6 months.**
- 100% post inspection.
- Proof of minimum five-year warranty (any combination of manufacturer's and/or extended applies).
- Proof of cover thickness and K factor which can found on the Manufacturer Specification Sheet.
- Olympic size pools **must** have a storage reel system either manual or automatic winding.
- Rebate applicable to installed pool cover, per pool only.

EQUIPMENT	EFFICIENCY REQUIREMENT	REBATE AMOUNT
Pool Cover	R-value ≥0.5 ft. ² -hr-°F/Btu	\$1/ft. ²

(see "R-value" and "Olympic size" in glossary for sample calculation and definition.)

Tank Insulation

- One inch or two inches of fiberglass or foam insulation must be added to liquid storage or transfer tanks that are coupled to natural gas-fired commercial or industrial equipment that transfers heat to the liquid or solution. Insulation must be applied at installation site.
- Insulation required by California Building Code (Title 24) or employee safety laws (OSHA) is not eligible for a rebate.
- The manufacturer's specification sheet must be submitted with the application.

INSULATION THICKNESS	TANK TEMPERATURE REQUIREMENT	REBATE AMOUNT
1 inch	Low-temperature application: 120-170 degrees F solution	\$2/square ft.
1 inch	High-temperature application: 170-200 degrees F solution	\$2/square ft.
2 inch	Low-temperature application: 120-170 degrees F solution	\$3/square ft.
2 inch	High-temperature application: 170-200 degrees F solution	\$3/square ft.

Laminar Flow Restrictor (LFR)

- This rebate is restricted to the health care industry and facilities that are subject to OSHPD code and regulation.
- Facility must utilize natural gas-powered water-heating equipment and include MBtuh rating on page 2 of the application.
- LFRs installed must meet OSHPD code and regulation.
- Rebates do not apply to new construction.
- LFR models must be labeled as vandal proof for faucets, with the exception of dialysis and scrub sink locations that require an additional adaptor.
- Verify product eligibility at watersaversolutions.com/rebate.

EQUIPMENT	EFFICIENCY REQUIREMENT	REBATE AMOUNT
Laminar Flow Restrictor (LFR) - Kitchen	Gallons Per Minute \leq (GPM) 1.8	\$6.50/unit
Laminar Flow Restrictor (LFR) - Public Restroom	Gallons Per Minute \leq (GPM) 1.2	\$6.50/unit

LAUNDRY PRODUCTS

Natural Gas Modulating Valve

- Unmodified natural gas commercial dryer.
- Dryers must have a drum capacity ranging from 20-200 lbs.
- Dryers must utilize natural gas.
- Applicable customers are limited to the following commercial and multifamily sectors: general commercial, hotels, motels, coin operated laundry, and nursing homes.
- This measure will be limited to 1000 kits for all other non-coin operated laundry eligible facilities. Please contact us prior to purchase to ensure you are eligible for the rebate.
- Verify product eligibility at: www.biothermrebates.com

EQUIPMENT	DRUM CAPACITY	REBATE AMOUNT
Gas Mod Controller	\geq 20 Lbs and \leq 200 Lbs	\$750 per Kit Unit

FOODSERVICE

Commercial Cooking Equipment

All cooking equipment eligible for the EERB program is listed on the California Energy Wise website caenergywise.com/rebates and are based on the American Society for Testing and Materials (ASTM) standards. The California Energy Wise website is subject to change; please check for updates on eligible equipment. All natural gas equipment listed on the California Energy Wise website is qualified for the EERB program.

Rebate amounts revised 7/1/2021.

EQUIPMENT	REQUIRED EFFICIENCY	SIZE	REBATE AMOUNT
Combination Oven	Steam mode \geq 38% and convection mode \geq 44%	< 15 Pans	\$1,500/oven
		15-28 Pans	\$2,000/oven
		>28 Pans	\$3,000/oven
Commercial Conveyor Broiler	See QPL	2 Lane Width (<20")	\$2,000/unit
		3 Lane Width (20-26")	\$2,500/unit
		4 Lane Width (>26")	\$4,000/unit

EQUIPMENT	REQUIRED EFFICIENCY	SIZE	REBATE AMOUNT
Commercial Fryer Tier 1 	≥50%		\$900/vat
Commercial Fryer Tier 2 	≥60%		\$1,400/vat
Commercial Griddle 	Heavy load cooking energy efficiency ≥38%		\$200/linear ft.
Commercial Rack Oven 	≥50%	Single	\$2,000/oven
		Double	\$2,500/oven
Commercial Underfired Broiler	See QPL		\$650/linear ft.
Convection Oven	≥46%		\$700/oven
Conveyor Oven (≥25" wide)	≥42%		\$1,400/oven deck
Pressureless Steamer* 	≥38%		\$2,000/compartiment

* Some pressureless steamers could also qualify for a water-efficiency rebate. Check with your local water district for details. ENERGY STAR and the ENERGY STAR mark are registered trademarks owned by the U.S. Environmental Protection Agency.

Commercial Dishwasher For Businesses

- Only Commercial high temperature stationary single tank door-type dishwashers qualify.
- Proof that the appliance has the gallons per rack (gal/rack) and idle energy rate that meets the requirements must be provided.
- Used or rebuilt equipment is not eligible.
- Applicable customers include (but not limited to) casual dining and quick service restaurants, hotels, motels, schools, colleges and recreational facilities.
- Verify product eligibility listed on the California Energy Wise [caenergywise.com/rebates](https://www.caenergywise.com/rebates) or consult with the manufacturer or their representative to determine if a model meets the efficiency requirements in the table below.

EQUIPMENT TYPE	GALLONS PER RACK (GAL/RACK)	IDLE ENERGY RATE	REBATE AMOUNT
Dishwasher, Single Tank Door Type	<0.76*	≤0.55 kW	\$650/unit

* Please note that this requirement is more stringent than the Energy Star V3.0 requirement.

Low-Flow Pre-Rinse Spray Valve (PRSV) For Businesses

- Only commercial-grade PRSVs with flowrates less than or equal to 1.07 GPM are eligible.
- PRSV must comply with 2019 Department of Energy (DOE) regulations.
- PRSVs used for residential uses such as in commercial facility kitchenettes are not eligible.
- PRSVs must be WaterSense®-Labeled Product.
- Participants are limited to: commercial restaurants, not-for-profit kitchens, hotel kitchens, including commissaries and kitchens in scholastic, government, amusement park locations, churches, hospitals and prisons.
- Verify product eligibility. Set Product Category as "Commercial Pre-Rinse Spray Valves" in [caenergywise.com/rebates](https://www.caenergywise.com/rebates).

EQUIPMENT	EFFICIENCY REQUIREMENT	REBATE AMOUNT
Pre-Rinse Spray Valve (PRSV)	Gallons Per Minute (GPM) ≤1.07	\$20/unit

DISCLAIMER

The EERB program is funded by California utility customers administered by Southern California Gas Company (SoCalGas®) under the auspices of the California Public Utilities Commission. Program funds, including any funds utilized for rebates or incentives, will be allocated on a first-come, first-served basis until such funds are no longer available. The EERB program may be modified or terminated without prior notice. Eligibility requirements apply.

The selection, purchase and ownership of goods and services are the sole responsibility of the customer. SoCalGas makes no representation as to the safety, reliability and/or efficiency of selected goods and services. **SoCalGas makes no warranty, whether expressed or implied, including warranty of merchantability or fitness for any particular purpose, use or application of selected goods and services.**

The SoCalGas Trade Professional Directory is provided for informational purposes only. SoCalGas does not recommend, endorse, qualify, guarantee or make any representations or warranties regarding the services, work, quality, financial stability or performance of any vendor listed in this directory, or the goods and services they offer. Vendors are listed in this directory because they elected to provide their name and contact information and not because they hold any particular license or certification. The information in this directory is made available simply as a convenience to customers who wish assistance in locating vendors, and SoCalGas is not, and shall not be deemed to be, a party or guarantor to any agreement between a customer and a vendor. Customers are strongly encouraged to perform their own research and due diligence, and to obtain multiple bids or quotes when seeking a vendor to perform any type of work.

The information contained in the 2021 Business Rebate Guide and Application is made available solely for informational purposes. Although SoCalGas has used reasonable efforts to assure the accuracy of the information at the time of its inclusion, no express or implied representation is made that it is free from error or suitable for any particular use or purpose. SoCalGas assumes no responsibility for any use thereof by you, and you should discuss decisions related to this subject with your own advisors and experts.

EERB GUIDE GLOSSARY

- **Annual Fuel Utilization Efficiency (AFUE)**—The AFUE is a measure of annual efficiency of boilers and furnaces. It takes into account the cyclic on/off operation and associated energy losses of the heating unit as it responds to changes in the load.
- **California Energy Commission (CEC)**—The CEC is the state's primary energy policy and planning agency.
- **California Public Utilities Commission (CPUC)**—The CPUC regulates privately owned electric, natural gas, telecommunications, water, railroad, rail transit and passenger transportation companies.
- **Combustion Efficiency (CE)**—This is the energy available within the system after subtracting the wasted heat as a flue stack loss. CE is measured at the flue stack with an analyzer as $CE = 100 \text{ percent} - (\text{stack loss in percentages})$.
- **Energy-Efficiency Benchmarking**—Benchmarking is a method of comparing a facility's level of energy efficiency with that of similar facilities nationwide.
- **Energy-Efficiency Calculated Incentive Program (EECIP)**—EECIP is a SoCalGas program for business customers that offers financial incentives and recognition awards for a variety of qualifying energy-efficiency improvements not covered by the Energy-Efficiency Rebates for Business (EERB) program. The incentive payment for qualifying projects can be as high as \$1 million per project and \$2 million per premise, per year, and are determined based on the project type, cost and savings.
- **Energy-Efficiency Rebates for Business (EERB) program**—EERB is a SoCalGas program that gives rebates to business customers who buy qualifying energy-efficient gas equipment and improvements.
- **Energy Factor (EF)**—This is an efficiency rating for water heaters. It is the ratio of useful energy output to the total amount of energy used.
- **Flue Gas Analysis (FGA)**—FGA measures the fuel/air ratio and combustion pollutants in the flue gases of combustion equipment. It is used for optimizing combustion efficiency.
- **Idle Energy Rate**—An appliance's idle energy rate is its rate of energy consumption while it is holding or maintaining a stabilized operating condition or temperature (applicable to food service appliances only).
- **Input Rating**—The input rating measures the gas-burning capacity of an appliance in Btus per hour as specified by the manufacturer.
- **kBtuh**—Thousand British thermal units per hour.
- **MBtu**—Thousand British thermal units.
- **Midstream**—Commercial Water Heater Distributor Rebate Program.
- **MBtuh**—Thousand British thermal units per hour.
- **NAICS**—North American Industry Classification System.
- **Olympic Size**—Defined as having a straight length of 50 meters, and a minimum eight lanes whose centerline width must be 2.5 yards (4,592 ft.² minimum).
- **PSI**—Pounds per square inch, a unit of measure for pressure.
- **QPL**—Qualified Product List.
- **R-value**—Thermal Resistance non-dimensional value found using the following formula ($R_{\text{value}} = t/k$). Where **t** = thickness of pool cover in inches; and **k** is the pool cover's thermal conductivity factor with units of BTU/ ft.²-hr-°F/inch. Customer's goal is to find a pool cover whose $R_{\text{value}} \geq 0.5 \text{ ft.}^2\text{-hr-}^\circ\text{F/Btu}$.
Sample Calculation: $R_{\text{value}} = t/k = (1/8'')/0.25 \text{ BTU/ ft.}^2\text{-hr-}^\circ\text{F/inch} = 0.5 \text{ ft.}^2\text{-hr-}^\circ\text{F/Btu}$.
- **Rate Schedule**—Identifies rates used to calculate your bill. You may review these rates by contacting a SoCalGas representative.
- **Sunsetting Measure**—A rebated equipment that is gradually terminated until its no longer offered.
- **Thermal Efficiency (TE)**—This is an energy-efficiency measure of combustion equipment. For boilers it is the percentage of energy consumed that converts to heat for the water or steam.
- **Trade Professional Program**—Trade Pros sell, service or install energy-efficient natural gas equipment or measures for business customers.
- **Uniform Energy Factor (UEF)**—The Uniform Energy Factor for commercial water heaters refers to its efficiency when run under standardized conditions for a 24-hour period.

These measures could save natural gas and water.

Please help conserve water. No effort is too small. Contact your water utility to learn more.

CUSTOMER CHECKLIST

Payment will be delayed if applications are incomplete. Before submitting your application, make sure you have completed the following:

(ALL ITEMS ARE REQUIRED, INCOMPLETE APPLICATIONS WILL NOT BE PROCESSED AND WILL BE RETURNED.)

Equipment purchased through Midstream Program via participating distributors are not eligible to receive additional rebates.

Section 1 – Account Information

Did you provide the following?

- ☐ SoCalGas account number
- ☐ Customer name, as it appears on your SoCalGas bill
- ☐ Customer address, as it appears on SoCalGas bill
- ☐ Contact information
- ☐ Check marks on the boxes that apply
- ☐ Business name or DBA (If applicable)

Section 2 – Rebate Equipment Information

Did you provide the following?

- ☐ Installation date (must be before application is signed).
- ☐ Manufacturer name, model number and serial number (if applicable).
- ☐ Equipment type, quantity, input rating (if applicable), rebate per unit and rebate total. Please use pages III-VII of this rebate guide for the correct rebate amount.
- ☐ For insulation, note whether you purchased it for pipes or tanks, hot water or steam, at which pipe diameter, and insulation thickness. Provide hours of operation at the top of page 1.

Section 3 – Person to Receive Check

Did you provide the following?

- ☐ Mailing Address for Rebate Check if other than stated on the W-9 form
- ☐ Payee's name and address and contact information
- ☐ Payee tax status and ID number

If you are releasing your rebate check to a Trade Professional participant, please make sure that Section 3 of application is completed with the payee's information.

Section 4 – Customer Signature

- ☐ Applicant accepts the terms and conditions by dating and signing (and arranging for contractor signature, if necessary, for space heating equipment only).

Required Documents

Did you provide/attach the following?

- ☐ Copy of the signed W-9 form for payee receiving rebate.
- ☐ Copy of paid, itemized invoice that clearly indicates zero balance or that it has been paid in full. Invoices should clearly state the cost of the equipment, installation and tax. If your invoice is not itemized, please contact your vendor for the breakdown. The invoice should also clearly state the manufacturer, and model of the product.
- ☐ A print out from the California Energy Wise website verifying that the foodservice equipment qualifies for a rebate is needed for mail in applications. All other equipment must provide manufacturer specification sheet or pertinent agency website qualifying documentation. See individual measure for details.

Where to Submit

Submit the completed application form and other required documentation with proof of purchase(s) by mail, fax, email, or online:

SoCalGas

**Attn: C/I Energy-Efficiency Rebates for Business
BOX 513249 ML 19A8
Los Angeles, CA 90051**

Phone: 800-508-2348

Fax: 323-518-2368 (Attn: Business Rebates)

Email: EERebatesforBusiness@socalgas.com

Online: socalgas.com/businessrebates

Keep a copy of your completed application form and all required documentation, such as receipts and invoices, for your records.

[‡] Do not round up/down MBTUH rating

* Multiply

= Equal

GRAND TOTAL REBATE DUE:

SECTION 3: PAYEE INFORMATION (PERSON RECEIVING CHECK)

Payee Tax Status:

☐ Government ☐ Corporation ☐ Partnership ☐ Individual/Sole Proprietor ☐ Exempt (Tax exempt, non-profit) ☐ LLC

Payee Tax ID Number: (Please indicate if this is ☐ EIN ☐ Federal Tax ID ☐ SSN)

Check will be printed and payable as stated on the W9 form

Payee Business Name/Individual as it appears on your W9 form Phone Number

Payee Contact Name Payee Email Address

Mailing Address for Rebate Check if other than stated on the W9 form Unit/Suite Number

Attention to:

City State ZIP

IRS Tax Reporting: SoCalGas will report this payment made to the check recipient on IRS form 1099 as "Other Income" unless the payment is less than \$600, or the payee is identified as a corporation or exempt. SoCalGas is not responsible for any taxes that may be imposed as a result of this incentive/rebate.

SECTION 4: CUSTOMER SIGNATURE - TERMS AND CONDITIONS

- I certify that I am an eligible SoCalGas customer and I have installed the indicated energy-saving products in 2021 for use in my business facility and not for resale or otherwise. Additionally, the product was purchased and installed within the same calendar year. I have attached documents establishing paid proof of purchase for the items applied for on this rebate form. I understand that incomplete and incorrect applications will not be processed.
- I will allow, if requested, a representative from SoCalGas, the California Public Utilities Commission (CPUC), or any authorized third party reasonable access to my property to verify the installed product before a rebate is paid. I understand that a rebate will not be paid if I refuse to participate in any required verification. I understand that SoCalGas may contact the qualifying product vendor and/or installer to verify purchase and/or installation and may provide my name and/or address to complete this verification.
- I understand that this project may be selected for evaluation studies and/or program measurement by external contractors appointed by the CPUC. These studies are used to analyze and improve program performance. I agree to participate by responding to inquiries from these external contractors.
- I certify that the information on this rebate form is true and correct, and that the tax ID provided is accurate. I understand that rebate payments are based on related energy benefits over the life of the product. I agree to:
 - Maintain the energy efficient measure specified in the rebate form 100% functional for the life of the product or a period of five (5) years from receipt of rebate funds, whichever is less, and
 - Continue to be a customer of SoCalGas during said time period.
- If the above ceases to be the case, I shall refund a prorated amount of rebate dollars to SoCalGas based on the actual period of time for which I provided the related energy benefits as a customer of SoCalGas. I understand that this program, or individual measures, may be modified or terminated without prior notice.
- I understand that this rebate form and the paid itemized invoice must be received at SoCalGas' Central Processing Center or postmarked no later than January 31, 2022. I acknowledge that I would not have undertaken an energy-efficiency equipment upgrade at this time if SoCalGas had not offered a monetary rebate.
- In the event that I choose to participate in the On-Bill Financing Program (OBF) offered by SoCalGas to obtain financing for the products listed on this form, I understand that the OBF terms and conditions will control (including, without limitation, the rebate amount for the products listed here) if there is any conflict between the EERB terms and conditions and OBF.
- In no case will SoCalGas pay more than 100 percent of the actual purchase price of the items to be rebated or the maximum allowance per unit. Purchase price includes materials cost plus installation labor for pipe insulation, fitting insulation, tank insulation, greenhouse heat curtains, greenhouse infrared film and steam traps. Labor charges apply to vendors only. Customers who self-install may not charge installation labor. Sales taxes are not included in the item's purchase prices.
- This program has a limited budget. Rebate forms will be accepted on a first-come, first-served basis, until allocated funds are no longer available.
- I have followed applicable permitting requirements for this installation. I have also used a licensed contractor to install any space-heating boilers and any other equipment.
- I have not received rebates, incentives or services for the same equipment from other utilities, states or local programs funded by the Public Purpose Program Surcharge (PPPS). However, I understand that water utilities are not funded by the PPPS and I may apply for their rebates.
- I understand rebates are taxable, if greater than \$600 for business customers, and will be reported to the IRS on Form 1099 unless I have identified myself as a corporation or exempt. I am urged to consult my tax advisor concerning the taxability of rebates. SoCalGas is not responsible for any taxes that may be imposed on me or my business as a result of receipt of this rebate.
- The selection, purchase and ownership of equipment are the sole responsibility of the customer. SoCalGas makes no representation as to the safety, reliability and/or efficiency of the equipment. **SoCalGas makes no warranty, whether expressed or implied, including warranty of merchantability or fitness for any particular purpose, use or application of any product installed in connection herewith.** I waive any and all claims against SoCalGas and its affiliate companies arising out of activities conducted on behalf of SoCalGas in connection with my application for any rebate(s) under this program. None of such parties shall be liable for any type of damages, whether direct or indirect, regardless of the form of action.

Submit the completed application form and other required documentation with proof of purchase(s) by mail, fax or email to:

SoCalGas

Attn: C/I Energy-Efficiency Rebates for Business
BOX 513249 MLGT19A8, Los Angeles, CA 90051

Fax: 323-518-2368 (Attn: Business Rebates)
Email: EERebatesforBusiness@socalgas.com

I have read and understand the program requirements and terms and conditions set forth in this rebate form and I agree to abide by those requirements and terms and conditions. In addition, if my business is not named in section 3, I am authorizing the rebate check to go to the third party named and thus will not be receiving a rebate check. I also understand that my release of the payment to another party does not exempt me from program requirements. Furthermore, I concur that I must meet all eligibility criteria in order to be paid under this program.

Customer Signature **(please sign in blue or black ink)**

Customer Name **(please print)**

____/____/____
Date

**TO BE COMPLETED ONLY FOR APPLICATIONS FOR SPACE-HEATING BOILERS AND OTHER REQUIRED EQUIPMENT
(See item #10).**

Pursuant to California Public Utilities Commission (CPUC) Decision (D.) 18-10-008, starting July 1, 2019, all projects involving installation, modification, or maintenance of HVAC measures, reserving a project incentive of \$3000 or more, must utilize installation of technicians with one of the following criteria below. **Please identify which of the following criteria the installation technician meets.**

- ☐ Completed a California or federal accredited HVAC apprenticeship.
- ☐ Be enrolled in a California or federal accredited HVAC apprenticeship.
- ☐ Completed at least five years of work experience at the journey level as defined by the California Department of Industrial Relations and passed a practical and written HVAC system installation competency test and received credentialed training specific to the installation of the technology being installed.
- ☐ Has a C-20 HVAC contractor license from the California State Contractor's Licensing Board.

I have read and understand the terms and conditions. I certify that the information I have provided is true and correct and the product(s) for rebate is installed and operational and meets the requirements in this application and the program. I certify that I am a licensed contractor and have followed applicable permitting requirements, as appropriate for this installation/replacement.
