6. The program ends on December 31, 2022, or earlier, if funds are no longer available. All applications must be postmarked within 45 calendar days after the 2022 program termination date to be considered for a rebate. The date the product(s) is removed or suspended from the 2022 program will represent the termination date for which postmark eligibility will be based. Call **1-800-508-2348** to check availability of funds.
7. SoCalGas may conduct an on-site or virtual inspection to verify the energy efficiency product(s) eligibility and installation prior to rebate payment.
8. A rebate check for qualified product(s) is generally mailed 90 days after SoCalGas approves a correct and completed application including all required documentation unless the application is selected for inspection, which may add additional time. Questions? Call **1-800-508-2348** or email **multifamilyrebates@socalgas.com**.
9. I understand that I cannot receive a rebate for the same product(s) from more than one California investor-owned utility or third-party energy efficiency program offering rebates, financing or other incentives funded with California Public Utilities Commission (CPUC) Public Purpose Surcharge funds.
10. State law requires that a licensed contractor providing home improvement services greater than \$500 provide the customer with a Home Improvement Contract (HIC). We recommend confirming your contractor's license status at the Contractors State License Board (CSLB) by calling 1-800-321-(CSLB) (2752) or accessing their website at **cslb.ca.gov**.

Click on license status-check icon. Type in six digit license number for verification.

Confirm active status of license under license status. Confirm that contractor holds the appropriate license under application classification heading.
