

SoCalGas Summer Internship: Engineering

Join the SoCalGas Team

SoCalGas is looking for the brightest, most qualified engineers in the field to help propel its business into the next decade. At SoCalGas, you could work on some of the most challenging projects in the energy profession, and be part of the team responsible for helping California meet its carbon neutrality goals.

When joining SoCalGas, you become part of a truly dynamic environment. Our new innovative business strategies create opportunities for professional growth and career development.

SoCalGas is committed to a sustainability strategy that includes a goal of achieving net zero greenhouse gas emissions in its operations and delivery of energy by 2045. You could be part of that future!

Internship Details

An internship at SoCalGas provides practical, hands-on, technical and industry training at the nation's largest natural gas distribution utility.

- Paid summer internship
- Duration is commensurate with school summer terms, approximately May/June – August/September
- Receive direct mentoring from SoCalGas peers and management
- Gain valuable exposure and networking opportunities
- Placement is based upon applicant's academic qualifications and work experience
- Can lead to an entry-level, full-time professional career at SoCalGas after the completion of your degree.

Requirements:

- Must be enrolled in a college or university engineering program
- 3.0 cumulative GPA or above is required
- Be able to work 30-40 hours per week throughout the Summer
- Must be legally authorized to work in the United States on an ongoing basis without company sponsorship
- Hybrid Schedule
- Must have a reliable form of transportation
