**QUESTION 1:** The December 20, 2024 Application of Southern California Gas Company (U 904 G) for Authorization to Implement Revenue Requirement for Costs to Enable Commencement of Phase 2 Activities for Angeles Link states on page 52 “[i]n response to requests from PAG and CBOSG members, SoCalGas invited a third party to conduct a “Hydrogen 101” educational presentation and the potential impacts and benefits of hydrogen at a July 2023 meeting.”

Could SoCalGas please respond to this email identifying:

- 1.1. Who the third party mentioned is?
- 1.2. What July 2023 Phase 1 Angeles Link meeting is being referenced?
- 1.3. Whether the third party did present the described educational presentation at a July 2023 meeting?

**RESPONSE 1:**

This is an error in the Application. SoCalGas had two Hydrogen 101 presentations: the July presentation was given by SoCalGas personnel, but the September presentation was conducted by the third party DNV.
