**SOUTHERN CALIFORNIA GAS COMPANY NOTICE OF REQUEST TO INCREASE RATES FOR ANGELES LINK PHASE 1 ACTIVITIES APPLICATION NO. A.25-06-011**

**WHY AM I RECEIVING THIS NOTICE?**

On June 12, 2025, Southern California Gas Company (SoCalGas®), filed an application with the California Public Utilities Commission (CPUC) to recover costs recorded in its Angeles Link Memorandum Account (ALMA) (A.25-06-011). The application is requesting a total increase in revenue requirement of \$24.7 million.

If the CPUC approves this application, SoCalGas will recover costs in gas rates over a 1-year period beginning after approval of the application. This will impact your monthly bill.

**WHY IS SOCALGAS REQUESTING THIS RATE INCREASE?**

Angeles Link is envisioned as a pipeline system dedicated to public use for the transport of clean renewable hydrogen. The final objective is to develop a system that will transport clean renewable hydrogen from regional third-party production and storage sites to end users in Central and Southern California, including the LA Basin (inclusive of the Ports of Los Angeles and Long Beach). In December 2022, the CPUC authorized SoCalGas to record costs in the ALMA up to \$26 million associated with conducting preliminary engineering, design, and environmental feasibility studies to evaluate a variety of topics, including supply, demand, end uses, pipeline configurations and storage solutions, and to analyze alternatives. This application requests recovery of actual costs associated with those activities.

## HOW COULD THIS AFFECT MY MONTHLY GAS BILL?

If SoCalGas' rate request is approved by the CPUC the average rates shown below for 2027 would go into effect. These estimates do not take into account any other SoCalGas requests that may be submitted (and/or approved) during the same period.

The proposed decision, and any alternate decisions, will be discussed and voted upon by the CPUC Commissioners at a public CPUC Voting Meeting.

**SOUTHERN CALIFORNIA GAS COMPANY NOTICE OF REQUEST TO INCREASE RATES FOR ANGELES LINK PHASE 1 ACTIVITIES APPLICATION NO. A.25-06-011**

**WHY AM I RECEIVING THIS NOTICE?**

On June 12, 2025, Southern California Gas Company (SoCalGas), filed an application with the California Public Utilities Commission (CPUC) to recover costs recorded in its Angeles Link Memorandum Account (ALMA) (A.25-06-011). The application is requesting a total increase in revenue requirement of \$24.7 million.

If the CPUC approves this application, SoCalGas will recover costs in gas rates over a 1-year period beginning after approval of the application. This will impact your monthly bill.

**WHY IS SOCALGAS REQUESTING THIS RATE INCREASE?**

Angeles Link is envisioned as a pipeline system dedicated to public use for the transport of clean renewable hydrogen. The final objective is to develop a system that will transport clean renewable hydrogen from regional third-party production and storage sites to end users in Central and Southern California, including the LA Basin (inclusive of the Ports of Los Angeles and Long Beach). In December 2022, the CPUC authorized SoCalGas to record costs in the ALMA up to \$26 million associated with conducting preliminary engineering, design, and environmental feasibility studies to evaluate a variety of topics, including supply, demand, end uses, pipeline configurations and storage solutions, and to analyze alternatives. This application requests recovery of actual costs associated with these activities.

**HOW COULD THIS AFFECT MY MONTHLY GAS BILL?**

If SoCalGas' rate request is approved by the CPUC the average rates shown below for 2027 would go into effect. These estimates do not take into account any other SoCalGas requests that may be submitted (and/or approved) during the same period.

**HOW DOES THE REST OF THIS PROCESS WORK?**

This application will be assigned to a CPUC Administrative Law Judge who will consider proposals and evidence presented during the formal hearing process. The Administrative Law Judge will issue a proposed decision that may adopt SoCalGas' application, modify it, or deny it. Any CPUC Commissioner may sponsor an alternate decision with a different outcome. The proposed decision, and any alternate decisions, will be discussed and voted upon by the CPUC Commissioners at a public CPUC Voting Meeting.

**SOUTHERN CALIFORNIA GAS COMPANY NOTICE OF REQUEST TO INCREASE RATES FOR ANGELES LINK PHASE 1 ACTIVITIES APPLICATION NO. A.25-06-011**

**WHY AM I RECEIVING THIS NOTICE?**

On June 12, 2025, Southern California Gas Company (SoCalGas®), filed an application with the California Public Utilities Commission (CPUC) to recover costs recorded in its Angeles Link Memorandum Account (ALMA) (A.25-06-011). The application is requesting a total increase in revenue requirement of \$24.7 million.

If the CPUC approves this application, SoCalGas will recover costs in gas rates over a 1-year period beginning after approval of the application. This will impact your monthly bill.

**WHY IS SOCALGAS REQUESTING THIS RATE INCREASE?**

Angeles Link is envisioned as a pipeline system dedicated to public use for the transport of clean renewable hydrogen. The final objective is to develop a system that will transport clean renewable hydrogen from regional third-party production and storage sites to end users in Central and Southern California, including the LA Basin (inclusive of the Ports of Los Angeles and Long Beach). In December 2022, the CPUC authorized SoCalGas to record costs in the ALMA up to \$26 million associated with conducting preliminary engineering, design, and environmental feasibility studies to evaluate a variety of topics, including supply, demand, end uses, pipeline configurations and storage solutions, and to analyze alternatives. This application requests recovery of actual costs associated with those activities.

**HOW COULD THIS AFFECT MY MONTHLY GAS BILL?**

If SoCalGas' rate request is approved by the CPUC the average rates shown below for 2027 would go into effect. These estimates do not take into account any other SoCalGas requests that may be submitted (and/or approved) during the same period.

SOUTHERN CALIFORNIA GAS COMPANY NOTICE OF REQUEST TO INCREASE RATES FOR ANGELES LINK PHASE 1 ACTIVITIES APPLICATION NO. A.25-06-011

#### WHY AM I RECEIVING THIS NOTICE?

On June 12, 2025, Southern California Gas Company (SoCalGas®), filed an application with the California Public Utilities Commission (CPUC) to recover costs recorded in its Angeles Link Memorandum Account (ALMA) (A.25-06-011). The application is requesting a total increase in revenue requirement of \$24.7 million.

If the CPUC approves this application, SoCalGas will recover costs in gas rates over a 1-year period beginning after approval of the application. This will impact your monthly bill.

#### WHY IS SOCALGAS REQUESTING THIS RATE INCREASE?

Angeles Link is envisioned as a pipeline system dedicated to public use for the transport of clean renewable hydrogen. The final objective is to develop a system that will transport clean renewable hydrogen from regional third-party production and storage sites to end users in Central and Southern California, including the LA Basin (inclusive of the Ports of Los Angeles and Long Beach). In December 2022, the CPUC authorized SoCalGas to record costs in the ALMA up to \$26 million associated with conducting preliminary engineering, design, and environmental feasibility studies to evaluate a variety of topics, including supply, demand, end uses, pipeline configurations and storage solutions, and to analyze alternatives. This application requests recovery of actual costs associated with those activities.

#### HOW COULD THIS AFFECT MY MONTHLY GAS BILL?

If SoCalGas' rate request is approved by the CPUC the average rates shown below for 2027 would go into effect. These estimates do not take into account any other SoCalGas requests that may be submitted (and/or approved) during the same period.

#### HOW DOES THE REST OF THIS PROCESS WORK?

This application will be assigned to a CPUC Administrative Law Judge who will consider proposals and evidence presented during the formal hearing process. The Administrative Law Judge will issue a proposed decision that may adopt SoCalGas' application, modify it, or deny it. The proposed decision, and any alternate decisions, will be discussed and voted upon by the CPUC Commissioners at a public CPUC Voting Meeting.

**SOUTHERN CALIFORNIA GAS COMPANY NOTICE OF REQUEST TO INCREASE RATES FOR ANGELES LINK PHASE 1 ACTIVITIES APPLICATION NO. A.25-06-011**

**WHY AM I RECEIVING THIS NOTICE?**

On June 12, 2025, Southern California Gas Company (SoCalGas®), filed an application with the California Public Utilities Commission (CPUC) to recover costs recorded in its Angeles Link Memorandum Account (ALMA) (A.25-06-011). The application is requesting a total increase in revenue requirement of \$24.7 million.

If the CPUC approves this application, SoCalGas will recover costs in gas rates over a 1-year period beginning after approval of the application. This will impact your monthly bill.

**WHY IS SOCALGAS REQUESTING THIS RATE INCREASE?**

Angeles Link is envisioned as a pipeline system dedicated to public use for the transport of clean renewable hydrogen. The final objective is to develop a system that will transport clean renewable hydrogen from regional third-party production and storage sites to end users in Central and Southern California, including the LA Basin (inclusive of the Ports of Los Angeles and Long Beach). In December 2022, the CPUC authorized SoCalGas to record costs in the ALMA up to \$26 million associated with conducting preliminary engineering, design, and environmental feasibility studies to evaluate a variety of topics, including supply, demand, end uses, pipeline configurations and storage solutions, and to analyze alternatives. This application requests recovery of actual costs associated with those activities.

**HOW COULD THIS AFFECT MY MONTHLY GAS BILL?**

If SoCalGas' rate request is approved by the CPUC the average rates shown below for 2027 would go into effect. These estimates do not take into account any other SoCalGas requests that may be submitted (and/or approved) during the same period.

**HOW DOES THE REST OF THIS PROCESS WORK?**

**SOUTHERN CALIFORNIA GAS COMPANY NOTICE OF REQUEST TO INCREASE RATES FOR ANGELES LINK PHASE 1 ACTIVITIES APPLICATION NO. A.25-06-011**

**WHY AM I RECEIVING THIS NOTICE?**

On June 12, 2025, Southern California Gas Company (SoCalGas®), filed an application with the California Public Utilities Commission (CPUC) to recover costs recorded in its Angeles Link Memorandum Account (ALMA) (A.25-06-011). The application is requesting a total increase in revenue requirement of \$24.7 million.

If the CPUC approves this application, SoCalGas will recover costs in gas rates over a 1-year period beginning after approval of the application. This will impact your monthly bill.

**WHY IS SOCIALGAS REQUESTING THIS RATE INCREASE?**

Angeles Link is envisioned as a pipeline system dedicated to public use for the transport of clean renewable hydrogen. The final objective is to develop a system that will transport clean renewable hydrogen from regional third-party production and storage sites to end users in Central and Southern California, including the LA Basin (inclusive of the Ports of Los Angeles and Long Beach). In December 2022, the CPUC authorized SoCalGas to record costs in the ALMA up to \$26 million associated with conducting preliminary engineering, design, and environmental feasibility studies to evaluate a variety of topics, including supply, demand, end uses, pipeline configurations and storage solutions, and to analyze alternatives. This application requests recovery of actual costs associated with those activities.

**HOW COULD THIS AFFECT MY MONTHLY GAS BILL?**

If SoCalGas' rate request is approved by the CPUC the average rates shown below for 2027 would go into effect. These estimates do not take into account any other SoCalGas requests that may be submitted (and/or approved) during the same period.

**SOUTHERN CALIFORNIA GAS COMPANY  
(SOCALGAS) NOTICE OF REQUEST TO INCREASE  
RATES FOR ANGELES LINK PHASE 1 ACTIVITIES  
APPLICATION NO. A.25-06-011**

**WHY AM I RECEIVING THIS NOTICE?**

On June 12, 2025, Southern California Gas Company (SoCalGas®), filed an application with the California Public Utilities Commission (CPUC) to recover costs recorded in its Angeles Link Memorandum Account (ALMA) (A.25-06-011). The application is requesting a total increase in revenue requirement of \$24.7 million.

If the CPUC approves this application, SoCalGas will recover costs in gas rates over a 1-year period beginning after approval of the application. This will impact your monthly bill.

**WHY IS SOCALGAS REQUESTING THIS RATE INCREASE?**

Angeles Link is envisioned as a pipeline system dedicated to public use for the transport of clean renewable hydrogen. The final objective is to develop a system that will transport clean renewable hydrogen from regional third-party production and storage sites to end users in Central and Southern California, including the LA Basin (inclusive of the Ports of Los Angeles and Long Beach). In December 2022, the CPUC authorized SoCalGas to record costs in the ALMA up to \$26 million associated with conducting preliminary engineering, design, and environmental feasibility studies to evaluate a variety of topics, including supply, demand, end uses, pipeline configurations and storage solutions, and to analyze alternatives. This application requests recovery of actual costs associated with those activities.
