OF THE STATE OF CALIFORNIA

Application of Southern California Gas Company (U 904 G) to Recover Costs Recorded in the Distribution Integrity Management Program Balancing Account from January 1, 2019 to December 31, 2023

A.25-08-XXX

APPLICATION OF SOUTHERN CALIFORNIA GAS COMPANY (U 904 G) TO RECOVER COSTS RECORDED IN THE DISTRIBUTION INTEGRITY MANAGEMENT PROGRAM BALANCING ACCOUNT FROM JANUARY 1, 2019 TO DECEMBER 31, 2023

I. INTRODUCTION

Southern California Gas Company (SoCalGas) respectfully submits this Application (Application) requesting review and recovery of \$59.1 million in under-collected revenue requirement recorded in the Distribution Integrity Management Program (DIMP) Balancing Account (Post 2011-DIMPBA or DIMPBA). The \$59.1 million represents the DIMPBA under-collections associated with expenditures that are above 35% of the authorized Test Year (TY) 2019 General Rate Case (GRC) cycle O&M and capital expenditures from February 1, 2023 through December 31, 2023. This amount also includes interest on the under-collected balance through June 30, 2025.

II. BACKGROUND

A. DIMP Procedural History

SoCalGas's DIMP implements the federal regulatory requirements set forth in 49 CFR §192, Subpart P – Gas Distribution Pipeline Integrity Management.² The DIMP is a

See D.19-09-051 at 694-695, which allows SoCalGas to recover under-collections when actual expenditures exceed authorized O&M and capital expenditures by up to 35 percent via advice letter; and under-collections above 35 percent of authorized O&M and capital expenditures could be recovered through a separate application. Commission Resolution G-3610 issued on July 29, 2025 approved \$107.8 million under-collection (up to 35% above the TY 2019 GRC authorized revenue requirement) for expenditures during the period of January 1, 2019-January 31, 2023.

² Under 49 CFR §192, Subpart P, operators of gas distribution pipelines are required to: collect information about distribution pipelines; identify additional information needed and provide a plan

comprehensive, data-driven program that continually integrates system risk evaluation with risk reduction measures to validate and enhance the safety of its natural gas distribution pipeline system, which is largely found in developed and more-populated areas as necessary to deliver gas to those populations.

In response to the Pipeline Integrity, Protection, Enforcement and Safety Act of 2006, the Pipeline and Hazardous Materials Safety Administration (PHMSA) established the requirements for the DIMP through 49 CFR §192, Subpart P, where operators are mandated to identify and reduce pipeline integrity risks on distribution pipelines to enhance pipeline safety.³ SoCalGas developed its DIMP to meet these requirements as well as to incorporate industry standards and best practices to promote safety and reliability. The objective of the DIMP is to mitigate safety-related risks with a forward-looking risk-informed approach. SoCalGas's DIMP accomplishes this objective through risk management activities, processes, and procedures that provide an extra layer of monitoring, assessment, or proactive remediation to promote pipeline integrity.⁴

SoCalGas's DIMPBA was authorized through Decision (D.) 13-05-010 which approved SoCalGas's TY 2012 GRC. SoCalGas's DIMPBA was established to record actual O&M and capital-related costs associated with SoCalGas's DIMP and to track the difference between authorized and actual expenditures.⁵ The DIMPBA was reauthorized in D.19-09-051 which

for gaining that information over time; identify and assess applicable threats to its distribution system; evaluate and rank risks to the distribution system; determine and implement measures designed to reduce the risks from failure of its gas distribution pipeline and evaluate the effectiveness of those measures; develop and implement a process for periodic review and refinement of the program; and report findings to regulators.

Pipeline Inspection, Protection, Enforcement, and Safety Act of 2006, H.R. 5782, 109th Cong. (2006), available at: https://www.congress.gov/bill/109th-congress/house-bill/5782; see also PHMSA, Gas Distribution Integrity Management Program: FAQs (October 26, 2015) at Section B: General DIMP Questions, No. B.1.1, available at: https://www.phmsa.dot.gov/pipeline/gas-distribution-integrity-management-faqs. (Question B.1.1: "Why did PHMSA mandate integrity management requirements for distribution pipeline systems?" Answer: "Instead of imposing additional prescriptive requirements for integrity management, PHMSA concluded that a requirement for operator-specific programs to manage pipeline system integrity would be more effective given the diversity in distribution systems and the threats to which they may be exposed.").

⁴ A.17-10-008, Direct Testimony of Maria T. Martinez on behalf of SoCalGas (Exhibit (Ex.) SCG-14) at MTM-10, *available at:* https://www.socalgas.com/regulatory/documents/a-17-10-008/SCG-14%20Martinez%20Prepared%20Direct%20Testimony.pdf.

⁵ SoCalGas, *Preliminary Statement - Part V - Balancing Accounts - DIMPBA*, *available at:* https://tariffsprd.socalgas.com/view/historical/?utilId=SCG&bookId=GAS&tarfKey=484&tarfYear=2020.

approved SoCalGas's TY 2019 GRC for the five-year GRC cycle ending December 31, 2023.^{6,7} Further, D.19-09-051 and D.22-05-003 authorized imputed O&M and capital expenditures totaling \$683 million for the TY 2019 GRC cycle.⁸ Pursuant to D.19-09-051, SoCalGas is authorized to submit a Tier 3 advice letter to seek recovery of any DIMP under-collections of revenue requirement when actual expenditures exceed the total of authorized O&M and capital expenditures for the entire cycle by up to 35%.⁹ For any under-collections of revenue requirement resulting from actual expenditures greater than 35% of the total authorized O&M and capital expenditures, SoCalGas is authorized to seek recovery through a separate application.¹⁰

SoCalGas prudently executed its DIMP activities throughout 2019-2023 in efforts to reduce risk and enhance safety. SoCalGas accelerated and enhanced Programs/Projects and Activities to Address Risks (PAARs) throughout the TY 2019 GRC cycle, namely increasing miles of non-state-of-the-art (NSOTA) pipelines replaced under the Vintage Integrity Plastic Plan (VIPP) and Bare Steel Replacement Plan (BSRP). Within these efforts, SoCalGas leveraged its Distribution Risk Evaluation and Management System (DREAMS) risk prioritization tool to target segments for replacement. The accelerated pace of work and enhanced activities exceeded what was forecasted for DIMP in 2017 when the TY 2019 GRC application was filed. Consequently, these efforts also exceeded the authorized revenue requirement in the TY 2019 GRC.

D.19-09-051 at 777 (Ordering Paragraph (OP) 7). See also D.21-05-003 at 33-34 (OP 1-2), which authorized SoCalGas's revenue requirements and the continuation of the post-test year mechanism adopted in D.19-09-051 for the additional attrition years of 2022 and 2023 required by D.20-01-002.

⁷ The DIMPBA was most recently reauthorized for the four year cycle of SoCalGas's TY 2024 GRC through D.24-12-074, as a one-way balancing account.

Additional details on the calculation of SoCalGas's imputed authorized DIMP O&M and capital expenditures associated with the TY 2019 GRC cycle is provided in the Prepared Direct Testimony of Rae Marie Yu (Chapter III).

D.19-09-051 at 694-695, 774 (Conclusion of Law (COL) 104); Resolution (Res.) G-3600 at 3; A.17-10-008, Direct Testimony of Rae Marie Q. Yu on behalf of SoCalGas (Ex. SCG-42) at RQY-15 and Appendix B at RQY-B-1, available at: https://www.socalgas.com/regulatory/documents/a-17-10-008/SCG-42%20Yu%20Prepared%20Direct%20Testimony.pdf.

¹⁰ *Id*.

B. Commission Review and Approval of 2019-2023 DIMPBA Costs

On November 17, 2023, SoCalGas filed advice letter (AL) 6224-G requesting recovery of the under-collection (\$81.4 million revenue requirement) associated with reasonably incurred DIMP expenditures as of January 31, 2023. On July 29, 2025, the Commission issued Resolution G-3610 approving SoCalGas's request to recover the under-collection recorded in its DIMPBA for the period of January 1, 2019 through January 31, 2023, trued up for collected revenue through December 31, 2023 and interest incurred through June 30, 2025. Resolution G-3610 authorized SoCalGas to incorporate \$107.8 million plus on-going interest into rates at its next scheduled gas transportation rate change over a 12-month period.¹¹

Upon completion of Commission staff review of DIMPBA costs for January 1, 2019 through January 31, 2023, Commission staff found that "the expenses and expenditures examined were appropriately recorded to the DIMPBA and reasonably incurred." Commission staff found that SoCalGas began increasing replacement activity for its VIPP and BSRP using its DREAMS risk analysis tool, which followed risk reduction and safety enhancement guidelines pursuant to 49 CFR 192, Subpart P.¹² This resulted in higher levels of replacement mileage and program activities than originally forecasted for the TY 2019 GRC cycle.¹³ When factored together with project scoping changes that arose during the planning and construction process to address unforeseen circumstances, these drivers increased SoCalGas's actual expenditures above forecast.¹⁴ For the same reasons the Commission approved SoCalGas's AL 6224-G in Resolution G-3610, SoCalGas's requested under-collections in this Application should be approved as the activities undertaken in the period of February 1, 2023 through December 31, 2023 are similar to that which were conducted and approved via Resolution G-3610.

III. STANDARD OF REVIEW

Pursuant to Public Utilities Code sections 451 and 454, all rates and charges collected by a utility must be "just and reasonable," and a public utility may not change any rate "except upon a showing before the commission and a finding by the commission that the new rate is

¹¹ Res. G-3610 at 8 (OP 1-2).

¹² *Id.* at 6.

¹³ *Id.* at 5-6.

¹⁴ *Id*.

justified."¹⁵ The Commission requires that the Applicant demonstrate with admissible evidence that the costs it seeks to include in a revenue requirement are reasonable and prudent.¹⁶ The Commission applies the reasonable manager standard in after-the-fact reviews of utility recovery applications. As explained by the Commission, "reasonable and prudent acts do not require perfect foresight or optimum outcomes, but may fall within a spectrum of possible acts consistent with utility needs, ratepayer interests, and regulatory requirements."¹⁷ Under this standard, the Commission holds utilities to "a standard of reasonableness based upon the facts that are known or should have been known at the time."¹⁸ In so doing, the Commission looks to the decision-making process and information available to the manager to assess whether the course of action was within the "bounds of reasonableness, even if it turns out not to have led to the best possible outcome."¹⁹ As explained by the Commission, this is to "avoid the application of hindsight in reviewing the reasonableness of a utility decision."²⁰ As demonstrated through this Application, and accompanying testimony and supporting workpapers, SoCalGas acted as a reasonable manager based upon facts that were known at the time and prudently executed the DIMP.

IV. COSTS INCLUDED IN THIS APPLICATION

In this Application and accompanying direct testimony and workpapers, SoCalGas demonstrates a commitment to pipeline safety and integrity management, and that the increased level of replacements for the VIPP and BSRP were driven by risk reduction efforts, the warnings from the manufacture, PHMSA advisory bulletins, a series of Aldyl-A failures nationwide, and the CPUC's 2014 report "Hazard Analysis and Mitigation Report: Aldyl-A Polyethylene Gas

¹⁵ Pub. Util. Code §§451, 454.

D.97-08-055 at 54, see also D.90-09-088 at 16.

D.90-09-088 at 15 (cited in D.11-10-002 at 11, n.2). See also D.90-09-088 at 16 ("[t]he act of the utility should comport with what a reasonable manager of sufficient education, training, experience and skills using the tools and knowledge at his disposal would do when faced with a need to make a decision and act").

¹⁹ D.89-02-074 at 169 (COL 3); see also D.05-08-037 at 11.

²⁰ D.90-09-088 at 15.

Pipelines."²¹ SoCalGas developed and implemented the DIMP in accordance with PHMSA regulations (49 CFR Part 192 Subpart P), as well as federal and state guidance. SoCalGas's DIMP activities are generally separated into three cost categories which are inclusive of the elements required by 49 CFR Part 192: (1) Programs/Projects and Activities to Address Risk (PAARs); (2) Data Management, System Knowledge and GIS; and (3) Program Management, Risk and Threat, Compliance, Auditing, and Reporting.

As of December 31, 2023, SoCalGas's DIMP actual combined O&M and capital expenditures are approximately \$1.117 billion compared to \$683 million in authorized expenditures. This Application seeks to recover \$59.1 million of revenue requirement, which is the under-collected balance in the DIMPBA for the period of February 1, 2023 through December 31, 2023, associated with spending above authorized expenditure levels by 35%. The under-collection is comprised of DIMP O&M expenses of \$46.9 million, capital revenue requirement (*i.e.*, depreciation, return, and taxes) of \$6.7 million, and interest of \$5.5 million.²²

V. REVENUE REQUIREMENT ALLOCATION

SoCalGas proposes to recover the DIMPBA based on an Equal Percentage of Authorized Margin (EPAM) cost allocation methodology, consistent with SoCalGas's most recent Cost Allocation Proceeding (CAP), D.24-07-009, as discussed in the Prepared Direct Testimony of Marjorie Schmidt-Pines (Chapter IV).

VI. RATE IMPACT

Once the DIMPBA revenue requirement has been allocated, it can be incorporated into customer rates; resulting in the illustrative transportation rates, Backbone Transportation (BTS) and residential bundled rates presented in the Prepared Direct Testimony of Marjorie Schmidt-Pines (Chapter IV). The SoCalGas bill amount for the average residential customer that uses an average of 36 therms per month would increase by \$0.72 or 1% to \$74.11 per month, from a current monthly bill of \$73.39.

²¹ CPUC, *Hazard Analysis and Mitigation Report: Aldyl A Polyethylene Gas Pipelines* (June 11, 2014), available at: https://www.cpuc.ca.gov/-/media/cpuc-website/divisions/safety-policy-division/reports/ra-doc-10-aldyla.pdf.

Authorized revenue recovery of \$107.8 million, as approved by Resolution G-3610, has been applied to offset the DIMPBA under-collected balance.

VII. DESCRIPTION OF TESTIMONY

Support for SoCalGas's requests is provided in the accompanying prepared direct testimony and workpapers. The direct testimony describes SoCalGas's DIMP activities and provides detail on program management and implementation and execution of projects. It also demonstrates that the revenue requirements correlated to SoCalGas's efforts are just and reasonable and should be recovered in rates. The table below lists each prepared direct testimony chapter number, identifies each sponsoring witness, and provides a brief description of the testimony.

Table 1
Description of Testimony

| Chapter | Witness | Description and Purpose | | | | |

VIII. STATUTORY AND PROCEDURAL REQUIREMENTS

A. Rule 2.1 (a) - (c)

1. Rule 2.1 (a) – Legal Name

Southern California Gas Company is a public utility corporation organized and existing under the laws of the State of California. SoCalGas's principal place of business and mailing address is 555 West Fifth Street, Los Angeles, California, 90013.

2. Rule 2.1 (b) – Correspondence

All correspondence and communications to SoCalGas regarding this Application should be addressed to:

Tamlyn Bageris

Regulatory Case Manager for:

SOUTHERN CALIFORNIA GAS COMPANY
555 West Fifth Street, GT14D6

Los Angeles, California 90013

Telephone: (442) 529-2632

Email: <u>TTBageris@SoCalGas.com</u>

A copy should also be sent to:

JOHNNY Q. TRAN *Attorney for:*SOUTHERN CALIFORNIA GAS COMPANY 555 West Fifth Street, Suite 1400
Los Angeles, California 90013
Telephone: (213) 244-2981

Facsimile: (213) 629-9620 Email: <u>JQTran@SoCalGas.com</u>

3. Rule 2.1 (c) – Proposed Category, Need for Hearings, Issues to be Considered, Relevant Safety Considerations, and Schedule

a) Proposed Category of Proceeding

SoCalGas proposes that this proceeding be categorized as "Ratesetting" under Rule 1.3(g) because the Application will have a potential future effect on rates.

b) Need for Hearings

SoCalGas anticipates that evidentiary hearings will be necessary.

c) Issues to be Considered and Relevant Safety Considerations

The principal issues to be considered in this proceeding are (1) whether SoCalGas demonstrated the reasonableness of the DIMP costs presented in this Application; and (2) whether SoCalGas's revenue requirement associated with the costs presented in this Application and recorded in their DIMPBA are justified for rate recovery.

The DIMP implements the federal regulatory requirements set forth in 49 CFR 192 Subpart P with a prospective, long-term objective to enhance the overall safety, integrity, and reliability of the gas system.

d) Proposed Schedule
SoCalGas proposes the following schedule for this Application:

| Event | Date |
|----------------------------|--------------------------------------|
| SoCalGas files Application | August 15, 2025 |
| Responses/Protests | within 30 days Daily Calendar notice |
| SoCalGas Reply to Protests | within 10 days (see Rule 2.6) |
| Prehearing Conference | October 22, 2025 |
| Intervenor Testimony | January 16, 2026 |
| Rebuttal Testimony | February 16, 2026 |
| Evidentiary Hearings | Early April 2026 |
| Opening Briefs | Early May 2026 |
| Reply Briefs | Late May 2026 |
| Proposed Decision | August 2026 |
| Commission Decision | September 2026 |

B. Rule 2.2 – Articles of Incorporation

A copy of SoCalGas's Restated Articles of Incorporation, as last amended, presently in effect and certified by the California Secretary of State, was previously filed with the Commission on October 1, 1998, in connection with SoCalGas's Application (A.) 98-10-012, and is incorporated herein by reference.

C. Rule 3.2 (a) - (b)

In accordance with Rule 3.2 (a) - (d) of the Commission's Rules of Practice and Procedure, SoCalGas provides the following information:

1. Rule 3.2 (a)(1) – Balance Sheet and Income Statement

The most recent updated Balance Sheet and Income Statements for SoCalGas as of March 31, 2025 is attached to this Application as Attachment A.

2. Rule 3.2(a)(2) and (3) – Statement of Present and Proposed Rates

The illustrative rate changes that will result from this Application are described in Attachment B.

3. Rule 3.2(a)(4) – Description of Applicant's Property and Equipment

A general description of SoCalGas's property and equipment was previously filed with the Commission on May 3, 2004 in connection with A.04-05-008, and is incorporated herein by reference. A statement of Original Cost and Depreciation Reserve as of March 31, 2025 is attached as Attachment C.

4. Rules 3.2(a)(5) and (6) – Summary of Earnings

The summary of earnings for SoCalGas as of March 31, 2025 are included herein as Attachment D.

5. Rule 3.2(a)(7) – Depreciation

For financial statement purposes, SoCalGas has computed depreciation of utility plants on a straight-line remaining life basis at rates based on the estimated useful lives of plant properties. For federal income tax accrual purposes, SoCalGas generally computes depreciation using the straight-line method for tax property additions prior to 1954, and liberalized depreciation, which includes Class Life and Asset Depreciation Range Systems, on property

10

additions after 1954 and prior to 1981. For financial reporting and rate purposes, "flow through accounting" has been adopted for such properties. For property additions in years 1981 through 1986, SoCalGas has computed its tax depreciation using the Accelerated Cost Recovery System. For years after 1986, the Company has computed its tax depreciation using the Modified Accelerated Cost Recovery Systems, and, since 1982, has normalized the effects of the depreciation differences in accordance with the Economic Recovery Tax Act of 1981, the Tax Reform Act of 1986, and the Tax Cuts and Jobs Act of 2017.

6. Rule 3.2(a)(8) – Proxy Statement

A copy of SoCalGas's most recent proxy statement, dated April 25, 2025, was mailed to the Commission on April 28, 2025, and is incorporated herein by reference.

7. Rule 3.2(a)(10) – Statement Pass Through to Customers

This Application will seek the Commission's authorization to revise current base rate revenue requirement to recover costs of its operations, as well as owning and operating its natural gas facilities and infrastructure, for the purposes of serving its customers. It is not only a pass through of costs.

8. Rule 3.2 (b) – Notice to State, Cities and Counties

SoCalGas will, within twenty days after the filing this Application, mail a notice to the State of California and to the cities and counties in its service territory.

9. Rule 3.2 (c) – Newspaper Publication

SoCalGas will, within twenty days after the filing of this Application, publish in newspapers of general circulation in each county in their service territory notice of this Application.

10. Rule 3.2 (d) – Bill Insert Notice

SoCalGas will, within 45 days after the filing of this Application, provide notice of this Application to their customers along with the regular bills sent to those customers that will generally describe the proposed rate changes addressed in this Application.

11

D. Rule 1.9 – Service

This is a new application. No service list has been established. Accordingly, SoCalGas will electronically serve this application on parties to the service list for the following proceedings: A.17-10-008 (consolidated with A.17-10-007) and A.22-05-015.

IX. CONCLUSION

Through DIMP, SoCalGas continues to make prudent investments for the benefit of customers to enhance the safety and reliability of their integrated natural gas transmission system. To allow recovery in rates of these prudent investments, and for the reasons described above, and in the testimony and workpapers supporting this Application, SoCalGas respectfully requests that the Commission:

- Find SoCalGas met their burden of demonstrating they acted as reasonable managers and prudently implemented and executed the DIMP;
- Find SoCalGas's DIMP O&M expenses and capital expenditures from
 February 1, 2023 through December 31, 2023 are consistent with the activities
 presented in SoCalGas Advice Letter 6224-G;
- Find the DIMP activities from February 1, 2023 through December 31, 2023 and as described in this Application were prudently undertaken to implement DIMP;
- Authorize SoCalGas to recover in rates the outstanding revenue requirement associated with the projects and program management costs submitted for review in this Application;
- Authorize that revenue requirements be allocated using the Equal Percentage of Authorized Margin cost allocation methodology, consistent with SoCalGas's most recent Cost Allocation Proceeding Decision, D.24-07-009; and
- Authorize SoCalGas to file a Tier 1 Advice Letter within 30 days of the effective
 date of the decision authorizing recovery to incorporate the updated revenue
 requirements associated with DIMPBA costs determined to be reasonable by the
 Commission, trued-up for regulatory account interest through the date rates are

implemented, on the first day of the next month following advice letter submission or to incorporate the updated revenue requirements in connection with the next authorized rate change implemented by SoCalGas.

OFFICER VERIFICATION

I am an officer of the applicant corporation here in Southern California Gas Company, and am authorized to make this verification on its behalf. The statements in the foregoing document are true of my own knowledge, except as to matters which are therein stated on information or belief, and as to those matters I believe them to be true.

I declare under penalty of perjury that the foregoing is true and correct.

Executed this 15th day of August, 2025 at Los Angeles, California.

By: _____ Amy Kitson

Vice President of Gas Engineering & System Integrity for: SOUTHERN CALIFORNIA GAS COMPANY

ALISO CANYON ATTESTATION

- I am Vice President of Gas Engineering and System Integrity for Southern California Gas Company (SoCalGas). I am providing this attestation based upon the requirements of Ordering Paragraph 5 of California Public Utilities Commission (CPUC or Commission) Decision (D.) 23-09-022.
- 2. On December 23, 2015 the CPUC-Executive Director issued a letter to SoCalGas directing SoCalGas to provide information to the CPUC concerning costs associated with the uncontrolled release of natural gas from Well SS-25 at the Aliso Canyon Storage Field from October 23, 2015 through February 11, 2016 (the Incident).
- 3. Beginning in December 2015, SoCalGas has reported to the Commission the costs associated with the Incident in the monthly Incident-related cost report submitted pursuant to the Executive Director's December 23, 2015 (Directive Report).
- 4. On October 28, 2022, SoCalGas, the California Public Utilities Commission's Safety and Enforcement Division (SED) and the Public Advocates Office at the California Public Utilities Commission (Cal Advocates) filed a Joint Motion for Adoption of Settlement Agreement in Investigation (I.) 19-06-016 seeking approval of the Settlement Agreement entered into by SoCalGas, SED, and Cal Advocates (Settlement Agreement).
- 5. On September 12, 2023, the Commission issued Decision (D.) 23-09-002 which approved the Settlement Agreement between SoCalGas, SED, and Cal Advocates resolving I.19-06-016.
- 6. Ordering Paragraph 5 of D.23-09-002 states that SoCalGas shall submit an attestation by a Vice President or higher company executive with every application requesting rate recovery attesting that it has not included any expenses or costs identified in the Settlement Agreement. This attestation requirement shall apply for five years from the date of the final issuance of this decision.
- 7. I reviewed the costs requested in this Application and the most recent Directive Report.

 Based on my review of the costs, the Directive Report, and other diligence, I am informed and believe, and upon such information and belief, certify that SoCalGas has not included

any expenses or costs identified in the Settlement Agreement adopted in D.23-09-002 in the enclosed Application being filed on August 15, 2025.

Executed on August 15, 2025, at Los Angeles, California.

By: ______Amy Kitson

Vice President of Gas Engineering & System Integrity for: SOUTHERN CALIFORNIA GAS COMPANY

¹⁾ These rates are for Natural Gas Transportation Service from "Citygate to Meter." The Backbone Transportation Service (BTS) rate is for service from Receipt Point to Citygate.

²⁾ These Transmission Level Service (TLS) amounts represent the average transmission rate, see Table 7 for detailed list of TLS rates.

³⁾ BTS charge (\$/dth/day) is proposed as a separate rate. Core will pay through procurement rate, noncore as a separate charge. Charge is for both core and noncore customers

⁴⁾ Unbundled Storage costs are not part of the Core Storage or Load Balancing functions (those are included in transport rates).

⁵⁾ All rates include Franchise Fees & Uncollectible charges.

¹⁾ CSITMA - Noncore C&I D Tariff rate Include CSITMA. Customers exempt, including. Constitutionally Exempt, receive Transportation Charge Adjustment (TCA).

EG Tariff Rate Exclude CSITMA, since EG customers are exempt.

²⁾ CARB & GHG Fees - EG-D and NCCI-D rates include CARB & GHG Fees.

³⁾ EOR customers tariff Include CARB & GHG Fees and Excludes CSITMA; since EOR customers are exempt from CSITMA and get a credit for CARB & GHG Fees.

See footnotes, Table 1.

- 1) CSITMA NCCI and EG TLS Tariff rates include CSITMA. Customers exempt (Constitutional Exempt and EG) receive Transportation Charge Adjustment (TCA).
- 2) CARB Fee TLS NCCI, EOR and EG Tariff rates include CSITMA. TLS NCCI, EOR and EG customers exempt as they pay CARB Fees directly receive credit.
- 3) Wholesale Customers excludes CSITMA and CARB Fee since these customers are exempt.

Verify TLS Revenue:
