Supplement: September 17, 2025

QUESTION 3: In the Prepared Direct Testimony of Maryam Brown, Chapter 1-Policy, page MB-25, Ms. Brown states, "SoCalGas is not accepting federal funding from the IIJA because the costs of complying with federal standards for receipt of such funds would far exceed the amount offered and thus would not be in the best interests of our ratepayers." See *also* Application, p. 32. Please provide all workpapers, including active Excel spreadsheets with links and formulas intact and other documents that provide substantiation for Ms. Brown's statement.

RESPONSE 3:

The highlighted information contains Confidential and Protected Materials which are provided pursuant to PUC Section 583, D.21-09-020 and GO 66-D (Revision (Rev.) 2) and/or an executed Non-Disclosure Agreement (NDA).

SoCalGas objects to this request on the grounds it is overly broad and unduly burdensome pursuant to Rule 10.1 of the Commission's Rules of Practice and Procedure to the extent it seeks "all workpapers... and other documents that provide substantiation." Subject to and without waiving the foregoing objection, SoCalGas responds as follows.

SoCalGas roughly estimated that the potential funding amount of [REDACTED] would not offset the associated compliance costs. For example, Build America Buy America provisions alone are expected to add tens of millions of dollars in additional expenses.

Supplement: September 17, 2025

QUESTION 5: In Response 1-10 to DATA REQUEST TURN-SCG-DR01, SoCalGas states that “accepting federal funding would subject SoCalGas to the specific compliance obligations described therein (e.g., implementing or changing Company systems, etc.), the costs of which would significantly exceed the funding amount.” Please provide all workpapers including active Excel spreadsheets with links and formulas intact and other documents that provide substantiation for SoCalGas’s Response 1-10 to TURN.

RESPONSE 5:

SoCalGas objects to this request on the grounds it is overly broad and unduly burdensome pursuant to Rule 10.1 of the Commission’s Rules of Practice and Procedure to the extent it seeks “all workpapers... and other documents that provide substantiation.” Subject to and without waiving the foregoing objection, SoCalGas responds as follows.

Please see Response 3.

QUESTION 6: In Response 1-10 to DATA REQUEST TURN-SCG-DR01, SoCalGas states that “the federal funding offered was for a later phase, not Angeles Link’s Phase 2, and thus would not offset the costs described in the Application.” Please provide all documents that provide substantiation for that response to TURN.

RESPONSE 6:

SoCalGas objects to this request on the grounds it is overly broad and unduly burdensome pursuant to Rule 10.1 of the Commission’s Rules of Practice and Procedure to the extent it seeks “all documents that provide substantiation.” Subject to and without waiving the foregoing objection, SoCalGas responds as follows.

SoCalGas was not offered federal funding for Angeles Link Phase 2.¹ Rather, the funding offered was for DOE/ARCHES Phase 2² and onwards, which does not align with Angeles Link’s phasing. Specifically, what DOE/ARCHES defines as Phase 1 is more comparable to Angeles Link Phase 2.
