**NOTICE OF APPLICATION
SOUTHERN CALIFORNIA GAS COMPANY REQUEST TO
INCREASE RATES AND REVENUES FOR
LAKESIDE PIPELINE LLC'S DAIRY BIOMETHANE PILOT PROJECT
APPLICATION FILING 25-08-009**

Why am I receiving this notice?

On August 15, 2025, Southern California Gas Company (SoCalGas®) and Lakeside Pipeline LLC filed Application 25-04-009 for Lakeside Pipeline LLC's Senate Bill (SB) 1383 Dairy Biomethane Pilot Project Reasonableness Review with the California Public Utilities Commission (CPUC). The application is requesting a total increase of \$ 14.5 million in revenue to recover costs above the approved project estimate of \$ 20.2 million, to total \$34.7 million.

If the CPUC approves this request, SoCalGas will recover the recorded project developer costs in gas rates over a 1-year period beginning after approval of the application and SoCalGas's costs over the life of the facility. This will increase your monthly bill.

Why is SoCalGas requesting this rate increase?

The CPUC authorized the Dairy Biomethane Pilot program to implement six dairy biomethane pilot projects pursuant to Senate Bill (SB) 1383 to produce Renewable Natural Gas (RNG) and to demonstrate interconnection to the utilities' natural gas pipeline system. RNG is an important component of California's strategy to reduce greenhouse gas (GHG) emissions and achieve climate goals. These Dairy Biomethane Pilot projects support the development and integration of RNG into the state's energy system. The Dairy Biomethane Pilot projects include SoCalGas facility upgrades and pilot project developer costs.

For this application, facility and projects costs were expended by SoCalGas and Lakeside Pipeline LLC (pilot project developer). The project was completed and exceeded its initial forecasts of RNG production and carbon reductions. SoCalGas and Lakeside Pipeline LLC requests the CPUC approve the costs as reasonable and prudent to successfully demonstrate this Dairy Biomethane Pilot project consistent with the goals of SB 1383.

How could this affect my monthly gas rates?

If SoCalGas's request is approved by the CPUC, SoCalGas's rates for gas service will increase. The average residential gas monthly bill using 36 therms per month would increase by approximately \$0.12 or 0.1% per month in 2026.

The table below does not necessarily reflect the changes that you may see on your bill. Changes in individual bills will also depend on how much electricity or gas each customer uses.

How does the rest of this process work?

This application will be assigned to a CPUC Administrative Law Judge who will consider proposals and evidence presented during the formal hearing process. The Administrative Law Judge will issue a proposed decision that may adopt SoCalGas's application, modify it, or deny it. Any CPUC Commissioner may sponsor an alternate decision with a different outcome. The proposed decision, and any alternate decisions, will be discussed and voted upon by the CPUC Commissioners at a public CPUC Voting Meeting.

**NOTICE OF APPLICATION
SOUTHERN CALIFORNIA GAS COMPANY REQUEST TO
INCREASE RATES AND REVENUES FOR
LAKESIDE PIPELINE LLC'S DAIRY BIOMETHANE PILOT PROJECT
APPLICATION FILING 25-08-009**

Why am I receiving this notice?

On August 15, 2025, Southern California Gas Company (SoCalGas®) and Lakeside Pipeline LLC filed Application 25-04-009 for Lakeside Pipeline LLC's Senate Bill (SB) 1383 Dairy Biomethane Pilot Project Reasonableness Review with the California Public Utilities Commission (CPUC). The application is requesting a total increase of \$ 14.5 million in revenue to recover costs above the approved project estimate of \$ 20.2 million, to total \$34.7 million.

If the CPUC approves this request, SoCalGas will recover the recorded project developer costs in gas rates over a 1-year period beginning after approval of the application and SoCalGas's costs over the life of the facility. This will increase your monthly bill.

Why is SoCalGas requesting this rate increase?

The CPUC authorized the Dairy Biomethane Pilot program to implement six dairy biomethane pilot projects pursuant to Senate Bill (SB) 1383 to produce Renewable Natural Gas (RNG) and to demonstrate interconnection to the utilities' natural gas pipeline system. RNG is an important component of California's strategy to reduce greenhouse gas (GHG) emissions and achieve climate goals. These Dairy Biomethane Pilot projects support the development and integration of RNG into the state's energy system. The Dairy Biomethane Pilot projects include SoCalGas facility upgrades and pilot project developer costs.

For this application, facility and projects costs were expended by SoCalGas and Lakeside Pipeline LLC (pilot project developer). The project was completed and exceeded its initial forecasts of RNG production and carbon reductions. SoCalGas and Lakeside Pipeline LLC requests the CPUC approve the costs as reasonable and prudent to successfully demonstrate this Dairy Biomethane Pilot project consistent with the goals of SB 1383.

How could this affect my monthly gas rates?

If SoCalGas's request is approved by the CPUC, SoCalGas's rates for gas service will increase. The average residential gas monthly bill using 36 therms per month would increase by approximately \$0.12 or 0.1% per month in 2026.

The table below does not necessarily reflect the changes that you may see on your bill. Changes in individual bills will also depend on how much electricity or gas each customer uses.

Summary of Illustrative Gas Class Average Rates

<u>Customer Class</u>	<u>Present</u> <u>7/1/2025</u> <u>Rates</u> (¢/therm)	<u>Proposed</u> <u>Total Rates for</u> <u>2026</u> (¢/therm)	<u>Increase</u> (¢/therm)	<u>Increase</u> %

Backbone Transmission Service ¢/dth/day	57.976	57.976	0.000	0.0%
System Total	63.670	63.792	0.122	0.2%

How does the rest of this process work?

This application will be assigned to a CPUC Administrative Law Judge who will consider proposals and evidence presented during the formal hearing process. The Administrative Law Judge will issue a proposed decision that may adopt SoCalGas's application, modify it, or deny it. Any CPUC Commissioner may sponsor an alternate decision with a different outcome. The proposed decision, and any alternate decisions, will be discussed and voted upon by the CPUC Commissioners at a public CPUC Voting Meeting.

**NOTICE OF APPLICATION
SOUTHERN CALIFORNIA GAS COMPANY REQUEST TO
INCREASE RATES AND REVENUES FOR
LAKESIDE PIPELINE LLC'S DAIRY BIOMETHANE PILOT PROJECT
APPLICATION FILING 25-08-009**

Why am I receiving this notice?

On August 15, 2025, Southern California Gas Company (SoCalGas®) and Lakeside Pipeline LLC filed Application 25-04-009 for Lakeside Pipeline LLC's Senate Bill (SB) 1383 Dairy Biomethane Pilot Project Reasonableness Review with the California Public Utilities Commission (CPUC). The application is requesting a total increase of \$ 14.3 million in revenue to recover costs above the approved project estimate of \$ 20.2 million, to total \$34.7 million.

If the CPUC approves this request, SoCalGas will recover the recorded project developer costs in gas rates over a 1-year period beginning after approval of the application and SoCalGas's costs over the life of the facility. This will increase your monthly bill.

Why is SoCalGas requesting this rate increase?

The CPUC authorized the Dairy Biomethane Pilot program to implement six dairy biomethane pilot projects pursuant to Senate Bill (SB) 1383 to produce Renewable Natural Gas (RNG) and to demonstrate interconnection to the utilities' natural gas pipeline system. RNG is an important component of California's strategy to reduce greenhouse gas (GHG) emissions and achieve climate goals. These Dairy Biomethane Pilot projects support the development and integration of RNG into the state's energy system. The Dairy Biomethane Pilot projects include SoCalGas facility upgrades and pilot project developer costs.

For this application, facility and projects costs were expended by SoCalGas and Lakeside Pipeline LLC (pilot project developer). The project was completed and exceeded its initial forecasts of RNG production and carbon reductions. SoCalGas and Lakeside Pipeline LLC requests the CPUC approve the costs as reasonable and prudent to successfully demonstrate this Dairy Biomethane Pilot project consistent with the goals of SB 1383.

How could this affect my monthly gas rates?

If SoCalGas's request is approved by the CPUC, SoCalGas's rates for gas service will increase. The average residential gas monthly bill using 36 therms per month would increase, by approximately \$0.12 or 0.1% per month in 2026.

The table below does not necessarily reflect the changes that you may see on your bill. Changes in individual bills will also depend on how much electricity or gas each customer uses.

Summary of Illustrative Gas Class Average Rates

System Total	63.670	63.792	0.122	0.2%

How does the rest of this process work?

This application will be assigned to a CPUC Administrative Law Judge who will consider proposals and evidence presented during the formal hearing process. The Administrative Law Judge will issue a proposed decision that may adopt SoCalGas's application, modify it, or deny it. Any CPUC Commissioner may sponsor an alternate decision with a different outcome. The proposed decision, and any alternate decisions, will be discussed and voted upon by the CPUC Commissioners at a public CPUC Voting Meeting.

**NOTICE OF APPLICATION
SOUTHERN CALIFORNIA GAS COMPANY REQUEST TO
INCREASE RATES AND REVENUES FOR
LAKESIDE PIPELINE LLC'S DAIRY BIOMETHANE PILOT PROJECT
APPLICATION FILING 25-08-009**

Why am I receiving this notice?

On August 15, 2025, Southern California Gas Company (SoCalGas®) and Lakeside Pipeline LLC filed Application 25-04-009 for Lakeside Pipeline LLC's Senate Bill (SB) 1383 Dairy Biomethane Pilot Project Reasonableness Review with the California Public Utilities Commission (CPUC). The application is requesting a total increase of \$ 14.5 million in revenue to recover costs above the approved project estimate of \$ 20.2 million, to total \$34.7 million.

If the CPUC approves this request, SoCalGas will recover the recorded project developer costs in gas rates over a 1-year period beginning after approval of the application and SoCalGas's costs over the life of the facility. This will increase your monthly bill.

Why is SoCalGas requesting this rate increase?

The CPUC authorized the Dairy Biomethane Pilot program to implement six dairy biomethane pilot projects pursuant to Senate Bill (SB) 1383 to produce Renewable Natural Gas (RNG) and to demonstrate interconnection to the utilities' natural gas pipeline system. RNG is an important component of California's strategy to reduce greenhouse gas (GHG) emissions and achieve climate goals. These Dairy Biomethane Pilot projects support the development and integration of RNG into the state's energy system. The Dairy Biomethane Pilot projects include SoCalGas facility upgrades and pilot project developer costs.

For this application, facility and projects costs were expended by SoCalGas and Lakeside Pipeline LLC (pilot project developer). The project was completed and exceeded its initial forecasts of RNG production and carbon reductions. SoCalGas and Lakeside Pipeline LLC requests the CPUC approve the costs as reasonable and prudent to successfully demonstrate this Dairy Biomethane Pilot project consistent with the goals of SB 1383.

How could this affect my monthly gas rates?

If SoCalGas's request is approved by the CPUC, SoCalGas's rates for gas service will increase. The average residential gas monthly bill using 36 therms per month would increase by approximately \$0.12 or 0.1% per month in 2026.

The table below does not necessarily reflect the changes that you may see on your bill. Changes in individual bills will also depend on how much electricity or gas each customer uses.

Summary of Illustrative Gas Class Average Rates

System Total	63.670	63.792	0.122	0.2%

How does the rest of this process work?

This application will be assigned to a CPUC Administrative Law Judge who will consider proposals and evidence presented during the formal hearing process. The Administrative Law Judge will issue a proposed decision that may adopt SoCalGas's application, modify it, or deny it. Any CPUC Commissioner may sponsor an alternate decision with a different outcome. The proposed decision, and any alternate decisions, will be discussed and voted upon by the CPUC Commissioners at a public CPUC Voting Meeting.

On August 15, 2025, Southern California Gas Company (SoCalGas®) and Lakeside Pipeline LLC filed Application 25-04-009 for Lakeside Pipeline LLC's Senate Bill (SB) 1383 Dairy Biomethane Pilot Project Reasonableness Review with the California Public Utilities Commission (CPUC). The application is requesting a total increase of \$ 14.5 million in revenue to recover costs above the approved project estimate of \$ 20.2 million, to total \$34.7 million.

If the CPUC approves this request, SoCalGas will recover the recorded project developer costs in gas rates over a 1-year period beginning after approval of the application and SoCalGas's costs over the life of the facility. This will increase your monthly bill.

Why is SoCalGas requesting this rate increase?

The CPUC authorized the Dairy Biomethane Pilot program to implement six dairy biomethane pilot projects pursuant to Senate Bill (SB) 1383 to produce Renewable Natural Gas (RNG) and to demonstrate interconnection to the utilities' natural gas pipeline system. RNG is an important component of California's strategy to reduce greenhouse gas (GHG) emissions and achieve climate goals. These Dairy Biomethane Pilot projects support the development and integration of RNG into the state's energy system. The Dairy Biomethane Pilot projects include SoCalGas facility upgrades and pilot project developer costs.

For this application, facility and projects costs were expended by SoCalGas and Lakeside Pipeline LLC (pilot project developer). The project was completed and exceeded its initial forecasts of RNG production and carbon reductions. SoCalGas and Lakeside Pipeline LLC requests the CPUC approve the costs as reasonable and prudent to successfully demonstrate this Dairy Biomethane Pilot project consistent with the goals of SB 1383.

How could this affect my monthly gas rates?

If SoCalGas's request is approved by the CPUC, SoCalGas's rates for gas service will increase. The average residential gas monthly bill using 36 therms per month would increase by approximately \$0.12 or 0.1% per month in 2026.

The table below does not necessarily reflect the changes that you may see on your bill. Changes in individual bills will also depend on how much electricity or gas each customer uses.

How does the rest of this process work?

This application will be assigned to a CPUC Administrative Law Judge who will consider proposals and evidence presented during the formal hearing process. The Administrative Law Judge will issue a proposed decision that may adopt SoCalGas's application, modify it, or deny it. Any CPUC Commissioner may sponsor an alternate decision with a different outcome. The proposed decision, and any alternate decisions, will be discussed and voted upon by the CPUC Commissioners at a public CPUC Voting Meeting.

DECLARATION

I, Jacinda Reyes, residing in Los Angeles County, California, and am over the age of 18. I am now, and referred to below, have been employed by Southern California Gas Company (SoCalGas) as an Advisor in Remittance Processing in Monterey Park, California.

With regards to SoCalGas Application No. A.25-08-009, before the California Public Utilities Commission, I was instructed to and coordinated the insertion and mailing of this Notice to all known customers of SoCalGas.

The insertion and mailing of the **NOTICE OF APPLICATION SOUTHERN CALIFORNIA GAS COMPANY REQUEST TO INCREASE RATES AND REVENUES FOR LAKESIDE PIPELINE LLC'S DAIRY BIOMETHANE PILOT PROJECT APPLICATION FILING 25-08-009** commenced on Wednesday, August 27, 2025 with mailing Cycle 18, and was completed on Thursday, September 25, 2025, with mailing Cycle 17.

A version of this notice was made available to Paperless Electronic Customers via the SoCalGas website socalgas.com/regulatory/bill-inserts.

I declare under penalty of perjury that the foregoing is true and correct.

A handwritten signature in black ink, appearing to read "Jacinda Reyes", with a large, stylized initial "J" and a long horizontal flourish extending to the right.
