**NOTICE OF APPLICATION  
SOUTHERN CALIFORNIA GAS COMPANY'S  
REQUEST TO RECOVER COSTS RECORDED IN THE DISTRIBUTION INTEGRITY  
MANAGEMENT PROGRAM BALANCING ACCOUNT  
A.25-08-008**

**Why am I receiving this notice?**

On August 15, 2025, Southern California Gas Company (SoCalGas®) filed an application (A.25-08-008) with the California Public Utilities Commission (CPUC) to recover costs recorded in the Distribution Integrity Management Program Balancing Account (Application). The Application seeks to recover a total revenue under-collection of \$59.1 million.

**Why is SoCalGas requesting this rate increase?**

This Application encompasses the implementation of the Distribution Integrity Management Program (DIMP), and recovery of related costs recorded in the DIMP Balancing Account (DIMPBA) from 2019-2023. The DIMP is a federally-mandated comprehensive program focused on the identification and reduction of distribution pipeline integrity risks to enhance pipeline and public safety. The DIMP implements targeted activities, programs, or projects that provide additional monitoring, assessment, and proactive remediation of distribution pipeline systems.

The CPUC approved the DIMP with approximately \$683 million of authorized expenditures for the years 2019-2023. SoCalGas is requesting recovery of \$59.1 million in under-collected revenue, for additional expenditures totaling \$207 million that were incurred above authorized levels for the period of February 1, 2023, through December 31, 2023.

**How could this affect my monthly gas bill?**

If SoCalGas's rate request is approved by the CPUC, the average residential monthly bill using 36 therms per month would increase by approximately \$0.72 or 1% per month over a 12-month period, or until the costs are recovered. The proposed average transportation rates shown below are for 2026.

**How does the rest of this process work?**

This Application will be assigned to a CPUC Administrative Law Judge who will consider proposals and evidence presented during the formal hearing process. The Administrative Law Judge will issue a proposed decision that may adopt SoCalGas's application, modify it, or deny it. Any CPUC Commissioner may sponsor an alternate decision with a different outcome. The proposed decision, and any alternate decisions, will be discussed and voted upon by the CPUC Commissioners at a public CPUC Voting Meeting.

Parties to the proceeding may review SoCalGas's application, including the Public Advocates Office. The Public Advocates Office is an independent consumer advocate within the CPUC that represents customers to obtain the lowest possible rate for service consistent with reliable and safe service levels. **NOTICE OF APPLICATION  
SOUTHERN CALIFORNIA GAS COMPANY'S  
REQUEST TO RECOVER COSTS RECORDED IN THE DISTRIBUTION INTEGRITY  
MANAGEMENT PROGRAM BALANCING ACCOUNT  
A.25-08-008**

**Why am I receiving this notice?**

On August 15, 2025, Southern California Gas Company (SoCalGas®) filed an application (A.25-08-008) with the California Public Utilities Commission (CPUC) to recover costs recorded in the Distribution Integrity Management Program Balancing Account (Application). The Application seeks to recover a total revenue under-collection of \$59.1 million.

**Why is SoCalGas requesting this rate increase?**

This Application encompasses the implementation of the Distribution Integrity Management Program (DIMP), and recovery of related costs recorded in the DIMP Balancing Account (DIMPBA) from 2019-2023. The DIMP is a federally-mandated comprehensive program focused on the identification and reduction of distribution pipeline integrity risks to enhance pipeline and public safety. The DIMP implements targeted activities, programs, or projects that provide additional monitoring, assessment, and proactive remediation of distribution pipeline systems.

The CPUC approved the DIMP with approximately \$683 million of authorized expenditures for the years 2019-2023. SoCalGas is requesting recovery of \$59.1 million in under-collected revenue, for additional expenditures totaling \$207 million that were incurred above authorized levels for the period of February 1, 2023, through December 31, 2023.

**How could this affect my monthly gas bill?**

If SoCalGas's rate request is approved by the CPUC, the average residential monthly bill using 36 therms per month would increase by approximately \$0.72 or 1% per month over a 12-month period, or until the costs are recovered. The proposed average transportation rates shown below are for 2026.

**NOTICE OF APPLICATION  
SOUTHERN CALIFORNIA GAS COMPANY'S  
REQUEST TO RECOVER COSTS RECORDED IN THE DISTRIBUTION INTEGRITY  
MANAGEMENT PROGRAM BALANCING ACCOUNT  
A.25-08-008**

**Why am I receiving this notice?**

On August 15, 2025, Southern California Gas Company (SoCalGas®) filed an application (A.25-08-008) with the California Public Utilities Commission (CPUC) to recover costs recorded in the Distribution Integrity Management Program Balancing Account (Application). The Application seeks to recover a total revenue under-collection of \$59.1 million.

**Why is SoCalGas requesting this rate increase?**

This Application encompasses the implementation of the Distribution Integrity Management Program (DIMP), and recovery of related costs recorded in the DIMP Balancing Account (DIMPBA) from 2019-2023. The DIMP is a federally-mandated comprehensive program focused on the identification and reduction of distribution pipeline integrity risks to enhance pipeline and public safety. The DIMP implements targeted activities, programs, or projects that provide additional monitoring, assessment, and proactive remediation of distribution pipeline systems.

The CPUC approved the DIMP with approximately \$683 million of authorized expenditures for the years 2019-2023. SoCalGas is requesting recovery of \$59.1 million in under-collected revenue, for additional expenditures totaling \$207 million that were incurred above authorized levels for the period of February 1, 2023, through December 31, 2023.

**How could this affect my monthly gas bill?**

If SoCalGas's rate request is approved by the CPUC, the average residential monthly bill using 36 therms per month would increase by approximately \$0.72 or 1% per month over a 12-month period, or until the costs are recovered. The proposed average transportation rates shown below are for 2026.

| <b>Customer Classification</b>                     | <b>Current Average Rates</b> | <b>Proposed Average Rates</b> | <b>% Increase</b> | <b>Rate Change</b> |

**How does the rest of this process work?**

This Application will be assigned to a CPUC Administrative Law Judge who will consider proposals and evidence presented during the formal hearing process. The Administrative Law Judge will issue a proposed decision that may adopt SoCalGas's application, modify it, or deny it. Any CPUC Commissioner may sponsor an alternate decision with a different outcome. The proposed decision, and any alternate decisions, will be discussed and voted upon by the CPUC Commissioners at a public CPUC Voting Meeting.

Parties to the proceeding may review SoCalGas's application, including the Public Advocates Office. The Public Advocates Office is an independent consumer advocate within the CPUC that represents customers to obtain the lowest possible rate for service consistent with reliable and safe service levels. **NOTICE OF APPLICATION**  
**SOUTHERN CALIFORNIA GAS COMPANY'S**  
**REQUEST TO RECOVER COSTS RECORDED IN THE DISTRIBUTION INTEGRITY**  
**MANAGEMENT PROGRAM BALANCING ACCOUNT**  
**A.25-08-008**

**Why am I receiving this notice?**

On August 15, 2025, Southern California Gas Company (SoCalGas®) filed an application (A.25-08-008) with the California Public Utilities Commission (CPUC) to recover costs recorded in the Distribution Integrity Management Program Balancing Account (Application). The Application seeks to recover a total revenue under-collection of \$59.1 million.

**Why is SoCalGas requesting this rate increase?**

This Application encompasses the implementation of the Distribution Integrity Management Program (DIMP), and recovery of related costs recorded in the DIMP Balancing Account (DIMPBA) from 2019-2023. The DIMP is a federally-mandated comprehensive program focused on the identification and reduction of distribution pipeline integrity risks to enhance pipeline and public safety. The DIMP implements targeted activities, programs, or projects that provide additional monitoring, assessment, and proactive remediation of distribution pipeline systems.

The CPUC approved the DIMP with approximately \$683 million of authorized expenditures for the years 2019-2023. SoCalGas is requesting recovery of \$59.1 million in under-collected revenue, for additional expenditures totaling \$207 million that were incurred above authorized levels for the period of February 1, 2023, through December 31, 2023.

**How could this affect my monthly gas bill?**

If SoCalGas's rate request is approved by the CPUC, the average residential monthly bill using 36 therms per month would increase by approximately \$0.72 or 1% per month over a 12-month period, or until the costs are recovered. The proposed average transportation rates shown below are for 2026.

| Customer Classification                            | Current Average Rates | Proposed Average Rates | % Increase | Rate Change |

**How does the rest of this process work?**

This Application will be assigned to a CPUC Administrative Law Judge who will consider proposals and evidence presented during the formal hearing process. The Administrative Law Judge will issue a proposed decision that may adopt SoCalGas's application, modify it, or deny it. Any CPUC Commissioner may sponsor an alternate decision with a different outcome. The proposed decision, and any alternate decisions, will be discussed and voted upon by the CPUC Commissioners at a public CPUC Voting Meeting.

Parties to the proceeding may review SoCalGas's application, including the Public Advocates Office. **NOTICE OF APPLICATION  
SOUTHERN CALIFORNIA GAS COMPANY'S  
REQUEST TO RECOVER COSTS RECORDED IN THE DISTRIBUTION INTEGRITY  
MANAGEMENT PROGRAM BALANCING ACCOUNT  
A.25-08-008**

**Why am I receiving this notice?**

On August 15, 2025, Southern California Gas Company (SoCalGas®) filed an application (A.25-08-008) with the California Public Utilities Commission (CPUC) to recover costs recorded in the Distribution Integrity Management Program Balancing Account (Application). The Application seeks to recover a total revenue under-collection of \$59.1 million.

**Why is SoCalGas requesting this rate increase?**

This Application encompasses the implementation of the Distribution Integrity Management Program (DIMP), and recovery of related costs recorded in the DIMP Balancing Account (DIMPBA) from 2019-2023. The DIMP is a federally-mandated comprehensive program focused on the identification and reduction of distribution pipeline integrity risks to enhance pipeline and public safety. The DIMP implements targeted activities, programs, or projects that provide additional monitoring, assessment, and proactive remediation of distribution pipeline systems.

The CPUC approved the DIMP with approximately \$683 million of authorized expenditures for the years 2019-2023. SoCalGas is requesting recovery of \$59.1 million in under-collected revenue, for additional expenditures totaling \$207 million that were incurred above authorized levels for the period of February 1, 2023, through December 31, 2023.

**How could this affect my monthly gas bill?**

If SoCalGas's rate request is approved by the CPUC, the average residential monthly bill using 36 therms per month would increase by approximately \$0.72 or 1% per month over a 12-month period, or until the costs are recovered. The proposed average transportation rates shown below are for 2026.

| Customer Classification                            | Current Average Rates | Proposed Average Rates | % Increase | Rate Change |

## NOTICE OF APPLICATION SOUTHERN CALIFORNIA GAS COMPANY'S REQUEST TO RECOVER COSTS RECORDED IN THE DISTRIBUTION INTEGRITY MANAGEMENT PROGRAM BALANCING ACCOUNT A.25-08-008

### Why am I receiving this notice?

On August 15, 2025, Southern California Gas Company (SoCalGas®) filed an application (A.25-08-008) with the California Public Utilities Commission (CPUC) to recover costs recorded in the Distribution Integrity Management Program Balancing Account (Application). The Application seeks to recover a total revenue under-collection of \$59.1 million.

### Why is SoCalGas requesting this rate increase?

This Application encompasses the implementation of the Distribution Integrity Management Program (DIMP), and recovery of related costs recorded in the DIMP Balancing Account (DIMPBA) from 2019-2023. The DIMP is a federally-mandated comprehensive program focused on the identification and reduction of distribution pipeline integrity risks to enhance pipeline and public safety. The DIMP implements targeted activities, programs, or projects that provide additional monitoring, assessment, and proactive remediation of distribution pipeline systems.

The CPUC approved the DIMP with approximately \$683 million of authorized expenditures for the years 2019-2023. SoCalGas is requesting recovery of \$59.1 million in under-collected revenue, for additional expenditures totaling \$207 million that were incurred above authorized levels for the period of February 1, 2023, through December 31, 2023.

### How could this affect my monthly gas bill?

If SoCalGas's rate request is approved by the CPUC, the average residential monthly bill using 36 therms per month would increase by approximately \$0.72 or 1% per month over a 12-month period, or until the costs are recovered. The proposed average transportation rates shown below are for 2026.

### NOTICE OF APPLICATION SOUTHERN CALIFORNIA GAS COMPANY'S REQUEST TO RECOVER COSTS RECORDED IN THE DISTRIBUTION INTEGRITY MANAGEMENT PROGRAM BALANCING ACCOUNT A.25-08-008

**Why am I receiving this notice?**  
On August 13, 2023, Southern California Gas Company (SoCalGas®) filed an application (A.25-08-008) with the California Public Utilities Commission (CPUC) to recover costs recorded in the Distribution Integrity Management Program Balancing Account (Application). The Application seeks to recover a total revenue under-collection of \$59.1 million.

**Why is SoCalGas requesting this rate increase?**  
This Application encompasses the implementation of the Distribution Integrity Management Program (DIMP), and recovery of related costs recorded in the DIMP Balancing Account (DIMPRA) from 2019-2023. The DIMP is a federally-mandated comprehensive program focused on the identification and reduction of distribution pipeline integrity risks to enhance pipeline and public safety. The DIMP implements targeted activities, programs, or projects that provide additional monitoring, assessment, and proactive remediation of distribution pipeline systems.

The CPUC approved the DIMP with approximately \$683 million of authorized expenditures for the years 2019-2023. SoCalGas is requesting recovery of \$59.1 million in under-collected revenue, for additional expenditures totaling \$207 million that were incurred above authorized levels for the period of February 1, 2023, through December 31, 2023.

**How could this affect my monthly gas bill?**  
If SoCalGas's rate request is approved by the CPUC, the average residential monthly bill using 36 therms per month would increase by approximately \$0.72 or 1% per month over a 12-month period, or until the costs are recovered. The proposed average transportation rates shown below are for 2026.
