Synergy Companies is a
SoCalGas authorized contractor responsible for
implementing this program through 12/31/2025.

The Mobile Home Fire Response Program is funded by California utility customers and administered by Southern California Gas Company (SoCalGas) under the auspices of the California Public Utilities Commission, through a contract awarded to Synergy Companies. Program funds, including any funds utilized for rebates or incentives, will be allocated on a first-come, first-served basis until such funds are no longer available. This program may be modified or terminated without prior notice. Customers who choose to participate in this program are not obligated to purchase any additional goods or services offered by Synergy Companies. The selection, purchase, and ownership of goods and/or services are the sole responsibility of customer. **SoCalGas makes no warranty, whether expressed or implied, including the warranty of merchantability or fitness for a particular purpose, of goods or services selected by customer. SoCalGas does not endorse, qualify, or guarantee the work of Synergy Companies or any other third party.** Eligibility requirements apply; see the program conditions for details.

You could receive no cost energy upgrades

Potential energy-efficient upgrades available at no cost:

Crossover replacement: Upgrade worn or leaky crossover ducts to improve airflow between HVAC system sections.

Duct test and seal: Identified duct leaks will be sealed to help improve airflow, comfort, and energy savings for your home.

High-efficiency furnace: Stay warm and save energy with a high-efficiency furnace that is designed to help lower heating costs and boost comfort.

Smart thermostats: Replace qualifying thermostats with a new smart thermostat that is designed to help lower your heating and energy consumption in your home.

Smart fan controller: Enhance comfort and help reduce cooling costs across your property with smart fan controllers that automatically optimize airflow.

Tankless water heater: Experience endless hot water and improved energy efficiency with a tankless water heater.

Water saving measures: Qualifying shower heads and faucet aerators are designed to help you save both water and natural gas.

How to Participate

The Mobile Home Fire Response Program helps you save energy and increase the comfort of your home.

Because you were affected by the January 2025 Southern California Wildfires, you may qualify for energy-efficient upgrades and services at no cost.

A Synergy Companies installer will schedule a visit, perform the installation, answer your questions, and review the completed work to ensure your satisfaction.

Additional programs may also be available to help you save energy, and our representative can provide more information.

Program Benefits

- Upgrade your older equipment at no cost to you.
- New equipment is designed to help improve energy efficiency which may help lower utility costs.
- Dedicated program specialist to help you every step of the way.
