**NOTICE OF APPLICATION
SOUTHERN CALIFORNIA GAS REQUEST
TO CHANGE RATES FOR GAS TRANSPORTATION
(COST ALLOCATION PROCEEDING)
APPLICATION FILING A.25-09-014**

WHY AM I RECEIVING THIS NOTICE?

On September 30, 2025, Southern California Gas Company (SoCalGas®) filed its Cost Allocation Proceeding (CAP) Application (A.25-09-014) with the California Public Utilities Commission (CPUC) to revise its rates for natural gas transportation. If approved, the proposed changes in rates attributable to CAP proposals will begin on January 1, 2027, and conclude on December 31, 2029.

WHY IS SOCALGAS REQUESTING THIS RATE INCREASE?

The CAP is a proceeding in which SoCalGas updates how its costs of providing gas service are divided amongst its customer classes and determines the transportation rates it charges customers. The costs in this CAP include gas transmission, gas distribution, underground storage, and customer-related costs. While the division of costs is determined in the CAP, the dollar amounts of the costs are presented and determined in a separate CPUC proceeding. SoCalGas also forecasts how much gas its customers may use (i.e., demand) and the prices used to calculate various components of the rates. These forecasts have an impact on customers' rates.

HOW COULD THIS AFFECT MY MONTHLY GAS RATES?

SoCalGas's dollar amount of costs to be recovered in 2027 rates are not determined yet. If SoCalGas's rate request is approved by the CPUC, the average non-CARE residential monthly bill using 36 therms per month would ~~increase~~ by approximately \$5.48 or 6.8% per month in 2027, if we keep the dollar amount of costs in 2027 at the present 2025 level.

Currently, SoCalGas's non-CARE residential customer bill contains a \$5 per month fixed customer charge and gas usage cost based on gas usage rate and volume of gas used. In this CAP, SoCalGas is proposing

(Continued inside)

to keep the existing \$5 per month customer charge in 2027 but increase it to \$12 and \$20 respectively in 2028 and 2029. A lower fixed monthly charge will apply to CARE customers such that, after application of the 20% CARE discount, the effective fixed charge would be \$6 and \$10 respectively in 2028 and 2029. Increases in customer charges will be implemented together with lower gas usage rates in 2028 and 2029.

SOUTHERN CALIFORNIA GAS COMPANY Illustrative Change in Class Average Rate Due to Proposed CAP Effective January 1, 2027

Customer Class	Present Rates (¢/therm)	Proposed 2027 Rates (¢/therm)	¢/therm Change (¢/therm)	% Change
Residential (Core)*	150.4	167.8	17.4	11.5%
Commercial/Industrial (Core)*	98.7	109.8	11.2	11.3%
Commercial/Industrial-Distribution Level (Noncore)	28.4	25.8	-2.5	-9.0%
Electric Generation-Distribution Level Tier 1 (Noncore)**	45.0	41.9	-3.1	-6.8%
Electric Generation-Distribution Level Tier 2 (Noncore)**	33.6	34.6	1.1	3.2%
Transmission Level Service - EG****	25.2	29.0	3.8	14.9%
Backbone Transportation Service (¢/decatherm/day)****	78.8	63.8	-15.0	-19.0%
System Total	67.6	68.2	0.6	0.9%

* Core customers generally use smaller quantities of gas and the utility purchases their gas.

** Noncore customers are generally large gas users who purchase their own natural gas supplies for SoCalGas to transport.

*** Transmission Level Service is for noncore service on the Local Transmission System from the SoCal Citygate.

**** Backbone Transportation Service are rights that customers may purchase to transport gas over the backbone system to the SoCal Citygate. Core customers who purchase gas supplies from SoCalGas have this charge included in the gas commodity rate.

Note: For purposes of isolating rate and bill impacts presented to the impacts generated directly by the CAP proposals, present September 1, 2025 tariffed rates have been normalized.

HOW DOES THE REST OF THIS PROCESS WORK?

This application will be assigned to a CPUC Administrative Law Judge who will consider proposals and evidence presented during the formal hearing process. The Administrative Law Judge will issue a proposed decision that may adopt SoCalGas's application, modify it, or deny it. Any CPUC Commissioner may sponsor an alternate decision with a different outcome. The proposed decision, and any alternate decisions, will be discussed and voted upon by the CPUC Commissioners at a public CPUC Voting Meeting.

Notice Of Application San Diego Gas & Electric Company's Request To Change Rates For Gas Transportation (Cost Allocation Proceeding) Application Filing A.25-09-014

Why am I receiving this notice?

On September 30, 2025, San Diego Gas & Electric Company (SDG&E®) filed its Cost Allocation Proceeding (CAP) Application (A.25-09-014) with the California Public Utilities Commission (CPUC) to revise its rates for natural gas transportation. If approved, the proposed change in rates will begin on January 1, 2027, and conclude on December 31, 2029.

Why is SDG&E requesting this rate increase/decrease?

The CAP is a proceeding in which SDG&E updates how its costs of providing gas service are divided amongst its customer classes and determines the transportation rates it charges customers. The costs in this CAP include gas transmission, gas distribution, and customer-related costs. While the division of costs is determined in the CAP, the dollar amounts of the costs are presented and determined in a separate CPUC proceeding. SDG&E also forecasts how much gas its customers may use (i.e., demand) and the prices used to calculate various components of the rates. These forecasts have an impact on customers' rates.

How could this affect my monthly gas rates?

SDG&E's dollar amount of costs to be recovered in 2027 rates are not determined yet. If SDG&E's rate request is approved by the CPUC, the average non-CARE residential monthly bill using 24 therms per month would increase by approximately \$4.92 or 7.0% per month in 2027, if we keep the dollar amount of costs in 2027 at the present 2025 level.

**NOTICE OF APPLICATION
SOUTHERN CALIFORNIA GAS REQUEST
TO CHANGE RATES FOR GAS
TRANSPORTATION (COST ALLOCATION
PROCEEDING) APPLICATION FILING
A.25-09-014**

WHY AM I RECEIVING THIS NOTICE?

On September 30, 2025, Southern California Gas Company (SoCalGas®) filed its Cost Allocation Proceeding (CAP) Application (A.25-09-014) with the California Public Utilities Commission (CPUC) to revise its rates for natural gas transportation. If approved, the proposed changes in rates attributable to CAP proposals will begin on January 1, 2027, and conclude on December 31, 2029.

WHY IS SOCALGAS REQUESTING THIS RATE INCREASE/DECREASE?

The CAP is a proceeding in which SoCalGas updates how its costs of providing gas service are divided amongst its customer classes and determines the transportation rates it charges customers. The costs in this CAP include gas transmission, gas distribution, underground storage, and customer-related costs. While the division of costs is determined in the CAP, the dollar amounts of the costs are presented and determined in a separate CPUC proceeding. SoCalGas also forecasts how much gas its customers may use (i.e., demand) and the prices used to calculate various components of the rates. These forecasts have an impact on customers' rates.

HOW COULD THIS AFFECT MY MONTHLY GAS RATES?

SoCalGas's dollar amount of costs to be recovered in 2027 rates are not determined yet. If SoCalGas's rate request is approved by the CPUC, the average non-CARE residential monthly bill using 36 therms per month would increase by approximately \$5.48 or 6.8% per month in 2027, if we keep the dollar amount of costs in 2027 at the present 2025 level.

Currently, SoCalGas's non-CARE residential customer bill contains a \$5 per month fixed customer charge and gas usage cost based on gas usage rate and volume of gas used. In this CAP, SoCalGas is proposing to keep the existing \$5 per month customer charge in 2027 but increase it to \$12 and \$20 respectively in 2028 and 2029. A lower fixed monthly charge will apply to CARE customers such that, after application of the 20% CARE discount, the effective fixed charge would be \$6 and \$10 respectively in 2028 and 2029. Increases in customer charges will be implemented together with lower gas usage rates in 2028 and 2029.

*** Transmission Level Service is for noncore service on the Local Transmission System from the SoCal Citygate.

**** Backbone Transportation Service are rights that customers may purchase to transport gas over the backbone system to the SoCal Citygate. Core customers who purchase gas supplies from SoCalGas have this charge included in the gas commodity rate.

Note: For purposes of isolating rate and bill impacts presented to the impacts generated directly by the CAP proposals, present September 1, 2025 tariffed rates have been normalized.

HOW DOES THE REST OF THIS PROCESS WORK?

This application will be assigned to a CPUC Administrative Law Judge who will consider proposals and evidence presented during the formal hearing process. The Administrative Law Judge will issue a proposed decision that may adopt SoCalGas's application, modify it, or deny it. Any CPUC Commissioner may sponsor an alternate decision with a different outcome. The proposed decision, and any alternate decisions, will be discussed and voted upon by the CPUC Commissioners at a public CPUC Voting Meeting.

**NOTICE OF APPLICATION
SOUTHERN CALIFORNIA GAS REQUEST
TO CHANGE RATES FOR GAS
TRANSPORTATION (COST ALLOCATION
PROCEEDING) APPLICATION FILING
A.25-09-014**

WHY AM I RECEIVING THIS NOTICE?

On September 30, 2025, Southern California Gas Company (SoCalGas®) filed its Cost Allocation Proceeding (CAP) Application (A.25-09-014) with the California Public Utilities Commission (CPUC) to revise its rates for natural gas transportation. If approved, the proposed changes in rates attributable to CAP proposals will begin on January 1, 2027, and conclude on December 31, 2029.

WHY IS SOCALGAS REQUESTING THIS RATE INCREASE/DECREASE?

The CAP is a proceeding in which SoCalGas updates how its costs of providing gas service are divided amongst its customer classes and determines the transportation rates it charges customers. The costs in this CAP include gas transmission, gas distribution, underground storage, and customer-related costs. While the division of costs is determined in the CAP, the dollar amounts of the costs are presented and determined in a separate CPUC proceeding. SoCalGas also forecasts how much gas its customers may use (i.e., demand) and the prices used to calculate various components of the rates. These forecasts have an impact on customers' rates.

HOW COULD THIS AFFECT MY MONTHLY GAS RATES?

SoCalGas's dollar amount of costs to be recovered in 2027 rates are not determined yet. If SoCalGas's rate request is approved by the CPUC, the average non-CARE residential monthly bill using 36 therms per month would increase by approximately \$5.48 or 6.8% per month in 2027, if we keep the dollar amount of costs in 2027 at the present 2025 level.

Currently, SoCalGas's non-CARE residential customer bill contains a \$5 per month fixed customer charge and gas usage cost based on gas usage rate and volume of gas used. In this CAP, SoCalGas is proposing to keep the existing \$5 per month customer charge in 2027 but increase it to \$12 and \$20 respectively in 2028 and 2029. A lower fixed monthly charge will apply to CARE customers such that, after application of the 20% CARE discount, the effective fixed charge would be \$6 and \$10 respectively in 2028 and 2029. Increases in customer charges will be implemented together with

lower gas usage rates in 2028 and 2029.

* Core customers generally use smaller quantities of gas and the utility purchases their gas.

** Noncore customers are generally large gas users who purchase their own natural gas supplies for SoCalGas to transport.

*** Transmission Level Service is for noncore service on the Local Transmission System from the SoCal Citygate.

**** Backbone Transportation Service are rights that customers may purchase to transport gas over the backbone system to the SoCal Citygate. Core customers who purchase gas supplies from SoCalGas have this charge included in the gas commodity rate.

Note: For purposes of isolating rate and bill impacts presented to the impacts generated directly by the CAP proposals, present September 1, 2025 tariffed rates have been normalized.

HOW DOES THE REST OF THIS PROCESS WORK?

This application will be assigned to a CPUC Administrative Law Judge who will consider proposals and evidence presented during the formal hearing process. The Administrative Law Judge will issue a proposed decision that may adopt SoCalGas's application, modify it, or deny it. Any CPUC Commissioner may sponsor an alternate decision with a different outcome. The proposed decision, and any alternate decisions, will be discussed and voted upon by the CPUC Commissioners at a public CPUC Voting Meeting.

SoCalGas also forecasts how much gas its customers may use (i.e., demand) and the prices used to calculate various components of the rates. These forecasts have an impact on customers' rates.

HOW COULD THIS AFFECT MY MONTHLY GAS RATES?
SoCalGas's dollar amount of costs to be recovered in 2027 rates are not determined yet. If SoCalGas's rate request is approved by the CPUC, the average non-CARE residential monthly bill using 36 therms per month would increase by approximately \$5.48 or 8.6% per month in 2027, if we keep the dollar amount of costs in 2027 at the present 2025 level. Currently, SoCalGas's non-CARE residential customer bill contains a \$5 per month fixed customer charge and gas usage cost based on gas usage rate and volume of gas used. In this CAP, SoCalGas is proposing to keep the existing \$5 per month customer charge in 2027 but increase it to \$12 and \$20 respectively in 2028 and 2029. A lower fixed monthly charge will apply to CARE customers such that, after application of the 20% CARE discount, the effective fixed charge would be \$6 and \$10 respectively in 2028 and 2029. Increases in customer charges will be implemented together with lower gas usage rates in 2028 and 2029.

**NOTICE OF APPLICATION
SOUTHERN CALIFORNIA GAS REQUEST
TO CHANGE RATES FOR GAS
TRANSPORTATION (COST ALLOCATION
PROCEEDING) APPLICATION FILING
A.25-09-014**

WHY AM I RECEIVING THIS NOTICE?

On September 30, 2025, Southern California Gas Company (SoCalGas®) filed its Cost Allocation Proceeding (CAP) Application (A.25-09-014) with the California Public Utilities Commission (CPUC) to revise its rates for natural gas transportation. If approved, the proposed changes in rates attributable to CAP proposals will begin on January 1, 2027, and conclude on December 31, 2029.

WHY IS SOCALGAS REQUESTING THIS RATE INCREASE/DECREASE?

The CAP is a proceeding in which SoCalGas updates how its costs of providing gas service are divided amongst its customer classes and determines the transportation rates it charges customers. The costs in this CAP include gas transmission, gas distribution, underground storage, and customer-related costs. While the division of costs is determined in the CAP, the dollar amounts of the costs are presented and determined in a separate CPUC proceeding. SoCalGas also forecasts how much gas its customers may use (i.e., demand) and the prices used to calculate various components of the rates. These forecasts have an impact on customers' rates.

HOW COULD THIS AFFECT MY MONTHLY GAS RATES?

SoCalGas's dollar amount of costs to be recovered in 2027 rates are not determined yet. If SoCalGas's rate request is approved by the CPUC, the average non-CARE residential monthly bill using 36 therms per month would increase by approximately \$5.48 or 6.8% per month in 2027, if we keep the dollar amount of costs in 2027 at the present 2025 level.

Currently, SoCalGas's non-CARE residential customer bill contains a \$5 per month fixed customer charge and gas usage cost based on gas usage rate and volume of gas used. In this CAP, SoCalGas is proposing to keep the existing \$5 per month customer charge in 2027 but increase it to \$12 and \$20 respectively in 2028 and 2029. A lower fixed monthly charge will apply to CARE customers such that, after application of the 20% CARE discount, the effective fixed charge would be \$6 and \$10 respectively in 2028 and 2029. Increases in customer charges will be implemented together with lower gas usage rates in 2028 and 2029.

**NOTICE OF APPLICATION
SOUTHERN CALIFORNIA GAS REQUEST
TO CHANGE RATES FOR GAS
TRANSPORTATION (COST ALLOCATION
PROCEEDING) APPLICATION FILING
A.25-09-014**

WHY AM I RECEIVING THIS NOTICE?

On September 30, 2025, Southern California Gas Company (SoCalGas®) filed its Cost Allocation Proceeding (CAP) Application (A.25-09-014) with the California Public Utilities Commission (CPUC) to revise its rates for natural gas transportation. If approved, the proposed changes in rates attributable to CAP proposals will begin on January 1, 2027, and conclude on December 31, 2029.

WHY IS SOCALGAS REQUESTING THIS RATE INCREASE/DECREASE?

The CAP is a proceeding in which SoCalGas updates how its costs of providing gas service are divided amongst its customer classes and determines the transportation rates it charges customers. The costs in this CAP include gas transmission, gas distribution, underground storage, and customer-related costs. While the division of costs is determined in the CAP, the dollar amounts of the costs are presented and determined in a separate CPUC proceeding. SoCalGas also forecasts how much gas its customers may use (i.e., demand) and the prices used to calculate various components of the rates. These forecasts have an impact on customers' rates.

HOW COULD THIS AFFECT MY MONTHLY GAS RATES?

SoCalGas's dollar amount of costs to be recovered in 2027 rates are not determined yet. If SoCalGas's rate request is approved by the CPUC, the average non-CARE residential monthly bill using 36 therms per month would increase by approximately \$5.48 or 6.8% per month in 2027, if we keep the dollar amount of costs in 2027 at the present 2025 level.

Currently, SoCalGas's non-CARE residential customer bill contains a \$5 per month fixed customer charge and gas usage cost based on gas usage rate and volume of gas used. In this CAP, SoCalGas is proposing to keep the existing \$5 per month customer charge in 2027 but increase it to \$12 and \$20 respectively in 2028 and 2029. A lower fixed monthly charge will apply to CARE customers such that, after application of the 20% CARE discount, the effective fixed charge would be \$6 and \$10 respectively in 2028 and 2029. Increases in customer charges will be implemented together with

lower gas usage rates in 2028 and 2029.

* Core customers generally use smaller quantities of gas and the utility purchases their gas.

** Noncore customers are generally large gas users who purchase their own natural gas supplies for SoCalGas to transport.

*** Transmission Level Service is for noncore service on the Local Transmission System from the SoCal Citygate.

**** Backbone Transportation Service are rights that customers may purchase to transport gas over the backbone system to the SoCal Citygate. Core customers who purchase gas supplies from SoCalGas have this charge included in the gas commodity rate.

Note: For purposes of isolating rate and bill impacts presented to the impacts generated directly by the CAP proposals, present September 1, 2025 tariffed rates have been normalized.

HOW DOES THE REST OF THIS PROCESS WORK?

This application will be assigned to a CPUC Administrative Law Judge who will consider proposals and evidence presented during the formal hearing process. The Administrative Law Judge will issue a proposed decision that may adopt SoCalGas's application, modify it, or deny it. Any CPUC Commissioner may sponsor an alternate decision with a different outcome. The proposed decision, and any alternate decisions, will be discussed and voted upon by the CPUC Commissioners at a public CPUC Voting Meeting.

NOTICE OF APPLICATION
SAN DIEGO GAS & ELECTRIC COMPANY'S
REQUEST TO CHANGE RATES FOR GAS TRANSPORTATION

(COST ALLOCATION PROCEEDING)

APPLICATION FILING A.25-09-014

Why am I receiving this notice?

On September 30, 2025, San Diego Gas & Electric Company (SDG&E®) filed its Cost Allocation Proceeding (CAP) Application (A.25-09-014) with the California Public Utilities Commission (CPUC) to revise its rates for natural gas transportation. If approved, the proposed change in rates will begin on January 1, 2027, and conclude on December 31, 2029.

Why is SDG&E requesting this rate increase/decrease?

The CAP is a proceeding in which SDG&E updates how its costs of providing gas service are divided amongst its customer classes and determines the transportation rates it charges customers. The costs in this CAP include gas transmission, gas distribution, and customer-related costs. While the division of costs is determined in the CAP, the dollar amounts of the costs are presented and determined in a separate CPUC proceeding. How could this affect my monthly gas rates?

SDG&E's dollar amount of costs to be recovered in 2027 rates are not determined yet. If SDG&E's rate request is approved by the CPUC, the average non-CARE residential monthly bill using 24 therms per month would increase by approximately \$4.92 or 7.0% per month in 2027, if we keep the dollar amount of costs in 2027 at the present 2025 level.

**NOTICE OF APPLICATION
SAN DIEGO GAS & ELECTRIC COMPANY'S
REQUEST TO CHANGE RATES FOR GAS TRANSPORTATION
(COST ALLOCATION PROCEEDING)
APPLICATION FILING A.25-09-014**

Why am I receiving this notice?

On September 30, 2025, San Diego Gas & Electric Company (SDG&E) filed its Cost Allocation Proceeding (CAP) Application (A.25-09-014) with the California Public Utilities Commission (CPUC) to revise its rates for natural gas transportation. If approved, the proposed change in rates will begin on January 1, 2027, and conclude on December 31, 2029.

Why is SDG&E requesting this rate increase/decrease?

The CAP is a proceeding in which SDG&E updates how its costs of providing gas service are divided amongst its customer classes and determines the transportation rates it charges customers. The costs in this CAP include gas transmission, gas distribution, and customer-related costs. (SOUTHERN CALIFORNIA GAS COMPANY)

Glad to be of service.®

DECLARATION

I, Jacinda Reyes, residing in Los Angeles County, California, and am over the age of 18. I am now, and referred to below, have been employed by Southern California Gas Company (SoCalGas) as an Advisor in Remittance Processing in Monterey Park, California.

With regards to **SoCalGas Application No. A.25-09-014**, before the California Public Utilities Commission, I was instructed to and coordinated the insertion and mailing of this Notice to all known customers of SoCalGas.

The insertion and mailing of the **NOTICE OF APPLICATION SOUTHERN CALIFORNIA GAS REQUEST TO CHANGE RATES FOR GAS TRANSPORTATION (COST ALLOCATION PROCEEDING) APPLICATION FILING A.25-09-014** commenced on Wednesday, October 15, 2025 with mailing Cycle 9, and was completed on Thursday, November 13, 2025, with mailing Cycle 8.

A version of this notice was made available to Paperless Electronic Customers via the SoCalGas website **socalgas.com/regulatory/bill-inserts**.

I declare under penalty of perjury that the foregoing is true and correct.

**NOTICE OF APPLICATION
SOUTHERN CALIFORNIA GAS REQUEST
TO CHANGE RATES FOR GAS TRANSPORTATION
(COST ALLOCATION PROCEEDING)
APPLICATION FILING A.25-09-014**

WHY AM I RECEIVING THIS NOTICE?

On September 30, 2025, Southern California Gas Company (SoCalGas®) filed its Cost Allocation Proceeding (CAP) Application (A.25-09-014) with the California Public Utilities Commission (CPUC) to revise its rates for natural gas transportation. If approved, the proposed changes in rates attributable to CAP proposals will begin on January 1, 2027, and conclude on December 31, 2029.

WHY IS SOCALGAS REQUESTING THIS RATE INCREASE?

The CAP is a proceeding in which SoCalGas updates how its costs of providing gas service are divided amongst its customer classes and determines the transportation rates it charges customers. The costs in this CAP include gas transmission, gas distribution, underground storage, and customer-related costs. While the division of costs is determined in the CAP, the dollar amounts of the costs are presented and determined in a separate CPUC proceeding. SoCalGas also forecasts how much gas its customers may use (i.e., demand) and the prices used to calculate various components of the rates. These forecasts have an impact on customers' rates.

HOW COULD THIS AFFECT MY MONTHLY GAS RATES?

SoCalGas's dollar amount of costs to be recovered in 2027 rates are not determined yet. If SoCalGas's rate request is approved by the CPUC, the average non-CARE residential monthly bill using 36 therms per month would ~~increase~~ by approximately \$5.48 or 6.8% per month in 2027, if we keep the dollar amount of costs in 2027 at the present 2025 level.

Currently, SoCalGas's non-CARE residential customer bill contains a \$5 per month fixed customer charge and gas usage cost based on gas usage rate and volume of gas used. In this CAP, SoCalGas is proposing

(Continued inside)

to keep the existing \$5 per month customer charge in 2027 but increase it to \$12 and \$20 respectively in 2028 and 2029. A lower fixed monthly charge will apply to CARE customers such that, after application of the 20% CARE discount, the effective fixed charge would be \$6 and \$10 respectively in 2028 and 2029. Increases in customer charges will be implemented together with lower gas usage rates in 2028 and 2029.

SOUTHERN CALIFORNIA GAS COMPANY Illustrative Change in Class Average Rate Due to Proposed CAP Effective January 1, 2027

Customer Class	Present Rates (¢/therm)	Proposed 2027 Rates (¢/therm)	¢/therm Change (¢/therm)	% Change
Residential (Core)*	150.4	167.8	17.4	11.5%
Commercial/Industrial (Core)*	98.7	109.8	11.2	11.3%
Commercial/Industrial-Distribution Level (Noncore)	28.4	25.8	-2.5	-9.0%
Electric Generation-Distribution Level Tier 1 (Noncore)**	45.0	41.9	-3.1	-6.8%
Electric Generation-Distribution Level Tier 2 (Noncore)**	33.6	34.6	1.1	3.2%
Transmission Level Service - EG****	25.2	29.0	3.8	14.9%
Backbone Transportation Service (¢/decatherm/day)****	78.8	63.8	-15.0	-19.0%
System Total	67.6	68.2	0.6	0.9%

* Core customers generally use smaller quantities of gas and the utility purchases their gas.

** Noncore customers are generally large gas users who purchase their own natural gas supplies for SoCalGas to transport.

*** Transmission Level Service is for noncore service on the Local Transmission System from the SoCal Citygate.

**** Backbone Transportation Service are rights that customers may purchase to transport gas over the backbone system to the SoCal Citygate. Core customers who purchase gas supplies from SoCalGas have this charge included in the gas commodity rate.

Note: For purposes of isolating rate and bill impacts presented to the impacts generated directly by the CAP proposals, present September 1, 2025 tariffed rates have been normalized.

HOW DOES THE REST OF THIS PROCESS WORK?

This application will be assigned to a CPUC Administrative Law Judge who will consider proposals and evidence presented during the formal hearing process. The Administrative Law Judge will issue a proposed decision that may adopt SoCalGas's application, modify it, or deny it. Any CPUC Commissioner may sponsor an alternate decision with a different outcome. The proposed decision, and any alternate decisions, will be discussed and voted upon by the CPUC Commissioners at a public CPUC Voting Meeting.

NOTICE OF APPLICATION
SAN DIEGO GAS & ELECTRIC COMPANY'S
REQUEST TO CHANGE RATES FOR GAS TRANSPORTATION
(COST ALLOCATION PROCEEDING)
APPLICATION FILING A.25-09-014

Why am I receiving this notice?

On September 30, 2025, San Diego Gas & Electric Company (SDG&E®) filed its Cost Allocation Proceeding (CAP) Application (A.25-09-014) with the California Public Utilities Commission (CPUC) to revise its rates for natural gas transportation. If approved, the proposed change in rates will begin on January 1, 2027, and conclude on December 31, 2029.

Why is SDG&E requesting this rate increase/decrease?

The CAP is a proceeding in which SDG&E updates how its costs of providing gas service are divided amongst its customer classes and determines the transportation rates it charges customers. The costs in this CAP include gas transmission, gas distribution, and customer-related costs. While the division of costs is determined in the CAP, the dollar amounts of the costs are presented and determined in a separate CPUC proceeding. SDG&E also forecasts how much gas its customers may use (i.e., demand) and the prices used to calculate various components of the rates. These forecasts have an impact on customers' rates.

How could this affect my monthly gas rates?

SDG&E's dollar amount of costs to be recovered in 2027 rates are not determined yet. If SDG&E's rate request is approved by the CPUC, the average non-CARE residential monthly bill using 24 therms per month would increase by approximately \$4.92 or 7.0% per month in 2027, if we keep the dollar amount of costs in 2027 at the present 2025 level.

Electric Generation-Distribution Level Tier 2 (Noncore)**	33.3	33.1	-0.2	-0.7

Transmission Level Service - EG****	24.9	27.4	2.5	9.9%
System Total	98.4	98.4	0.0	0.0%

*Core customers generally use smaller quantities of gas and the utility purchases their gas.

** Noncore customers are generally large gas users who purchase their own natural gas supplies for SDG&E to transport.

*** Transmission Level Service is for noncore service on the Local Transmission System from the SoCal Citygate.

Note: For purposes of isolating rate and bill impacts presented to the impacts generated directly by the CAP proposals, present September 1, 2025 tariffed rates have been normalized.

How does the rest of this process work?

This application will be assigned to a CPUC Administrative Law Judge who will consider proposals and evidence presented during the formal hearing process. The Administrative Law Judge will issue a proposed decision that may adopt SDG&E's application, modify it, or deny it. Any CPUC Commissioner may sponsor an alternate decision with a different outcome. The proposed decision, and any alternate decisions, will be discussed and voted upon by the CPUC Commissioners at a public CPUC Voting Meeting.

**NOTICE OF APPLICATION
SOUTHERN CALIFORNIA GAS REQUEST
TO CHANGE RATES FOR GAS TRANSPORTATION
(COST ALLOCATION PROCEEDING)
APPLICATION FILING A.25-09-014**

WHY AM I RECEIVING THIS NOTICE?

On September 30, 2025, Southern California Gas Company (SoCalGas®) filed its Cost Allocation Proceeding (CAP) Application (A.25-09-014) with the California Public Utilities Commission (CPUC) to revise its rates for natural gas transportation. If approved, the proposed changes in rates attributable to CAP proposals will begin on January 1, 2027, and conclude on December 31, 2029.

**WHY IS SOCALGAS REQUESTING THIS RATE
INCREASE/DECREASE?**

The CAP is a proceeding in which SoCalGas updates how its costs of providing gas service are divided amongst its customer classes and determines the transportation rates it charges customers. The costs in this CAP include gas transmission, gas distribution, underground storage, and customer-related costs. While the division of costs is determined in the CAP, the dollar amounts of the costs are presented and determined in a separate CPUC proceeding. SoCalGas also forecasts how much gas its customers may use (i.e., demand) and the prices used to calculate various components of the rates. These forecasts have an impact on customers' rates.

HOW COULD THIS AFFECT MY MONTHLY GAS RATES?

SoCalGas's dollar amount of costs to be recovered in 2027 rates are not determined yet. If SoCalGas's rate request is approved by the CPUC, the average non-CARE residential monthly bill using 36 therms per month would decrease by approximately \$5.48 or 6.8% per month in 2027, if we keep the dollar amount of costs in 2027 at the present 2025 level.

Currently, SoCalGas's non-CARE residential customer bill contains a \$5 per month fixed customer charge and gas usage cost based on gas usage rate and volume of gas used. In this CAP, SoCalGas is proposing
