Application of Southern California Gas Company (U 904 G) and San Diego Gas & Electric Company (U 902 M) for Authorization to Implement Revenue Requirement to Enable SAP Migration Program

Application No. 26-05-XXX
(Filed May 1, 2026)

APPLICATION OF SOUTHERN CALIFORNIA GAS COMPANY AND SAN DIEGO GAS & ELECTRIC COMPANY FOR AUTHORIZATION TO IMPLEMENT REVENUE REQUIREMENT TO ENABLE SAP MIGRATION PROGRAM

Pursuant to California Public Utilities Code sections 451, 454, 701, and 702 and Rules 2.1 and 3.2 of the California Public Utilities Commission’s (CPUC or Commission) Rules of Practice and Procedure (Rules), Southern California Gas Company (SoCalGas) and San Diego Gas & Electric Company (SDG&E; together, Joint Utilities) hereby submit this Application for Authorization to Implement Revenue Requirement to Enable SAP Migration Program (Application). The Application seeks to implement revenue requirements based on a combined forecasted cost of approximately \$348 million to avoid the potentially dire consequences of obsolescence of the Joint Utilities’ foundational enterprise platform and connected technologies, scheduled to occur as soon as the end of 2027, by migrating to supported systems (SAP Migration Program or Program). As described further herein, implementing the forecasted costs in rates as proposed amounts to peak-year illustrative rate impacts ranging from 0.2 – 0.8% for residential bills with average energy usage.

I. INTRODUCTION AND BUSINESS NEED

The Commission has long recognized that utilities must have a healthy back office to support the provision of the safe and reliable service the Public Utilities Code mandates as well

as the compliance and transparency the Commission demands.¹ Technological advances over recent decades have seen critical business functions shift increasingly from laborious manual processes to more automated functionality built on complex interrelated systems and processes. While computerization and digitalization have supported timeliness, increased efficiencies, and promoted cost-effectiveness, they have also increased reliance on enterprise resource planning platforms (ERPs or ERP platforms) and connected systems.

An ERP is a unified software system that connects a company's key functions into one platform so everyone works from the same information. An ERP standardizes, records, and controls an organization's business processes across departments and jurisdictions and serves as the system of record for operational and financial transactions. It allows different departments to share data and communicate seamlessly, rather than each team using separate, disconnected systems that might create confusion and duplicate work. The same way a personal smartphone integrates a person's calendar, email, contacts, and applications into one device, an ERP integrates a business's functions into one system. An analogy illustrates its critical function. An ERP platform and its connected systems are akin to a body's central nervous system for managing a company's core day-to-day business operations. Each business function—Accounting & Finance, Transmission Operations, Distribution, Storage Operations, Supply Chain, etc.—is like an organ and has a specialized function. Just as nerves instantly carry signals between the brain and organs, an ERP platform passes information quickly and accurately between departments. The nervous system ensures the heart rate, breathing, and movement stay coordinated. Similarly, an ERP promotes alignment of inventory, accounting, procurement, and forecasting, etc. If the nervous system does not receive any care and shuts down, the body can no longer operate. Likewise, without a functioning ERP, a company cannot effectively run its critical processes: billing ceases, supply chains are crippled, reporting breaks, and decision-making becomes blind.

¹ See, e.g., Pub. Util. Code § 451 (“Every public utility shall furnish and maintain such adequate, efficient, just, and reasonable service, instrumentalities, equipment, and facilities... as are necessary to promote the safety, health, comfort, and convenience of its patrons, employees, and the public.”).

Joint Utilities utilize a shared ERP.² Their current ERP was implemented nearly three decades ago, and Joint Utilities have augmented it with customizations over the years to meet evolving business needs in a cost-effective manner. The resulting platform is a highly complex and bespoke environment—an integrated ecosystem with significant interdependencies and customizations such that a change in one component can ripple across multiple functional areas. Currently, the Joint Utilities’ ERP spans 12 functional modules and over 400 unique business processes within financial accounting, reporting, and asset and materials management, among others. The system processes 57 million transactions per month, supports 11,000+ users, and incorporates 34,000+ custom objects and 400+ interfaces connecting to external systems. Given this scale, the ERP platform and its connected systems touch many aspects of Joint Utilities’ operations. Indeed, they are mission-critical during emergency conditions, when rapid action must occur alongside strict regulatory, financial, and reporting compliance. Workforce deployment, real-time financial visibility, emergency procurement and payments, asset and inventory tracking, supply chain continuity, and regulatory cost reporting all depend on ERP availability and data integrity. An unsupported ERP platform materially increases the risk of system failure, cybersecurity exposure, and transaction disruption, undermining effective emergency response.

It is standard for software providers to deploy patches and updates to software to fix security vulnerabilities, correct errors and bugs, promote compatibility, maintain compliance, and optimize and enhance performance. The requests in this Application are precipitated by the decision of SAP SE (SAP)—one of the world’s largest enterprise software platform companies—to discontinue maintenance of certain longstanding applications at the end of 2027, i.e., ceasing customer patches and updates. Joint Utilities are joined by companies, including other investor-owned utilities, in California and beyond in grappling with maintaining their essential ERP functionality by migrating to supported systems. Joint Utilities first addressed this topic in their general rate case (A.22-05-015) where they contemplated taking advantage of the opportunity to

² Note that Sempra’s Shared Services Corporate Center (Corporate Center) also utilizes the ERP. As described in testimony, SoCalGas is the primary user of the ERP and thus maintains the shared asset on its books. Costs are allocated and billed by SoCalGas to SDG&E and Corporate Center based on the number of employees using the software. Costs allocated to Corporate Center are then reallocated to SoCalGas, SDG&E, and other Sempra affiliates as appropriate.

implement a transformation of their systems.^{3, 4} However, since that initial concept, Joint Utilities have resolved to deliberately prioritize customer affordability over an ideal, modern ERP system and, accordingly, have elected to scale back the vision for SAP, foregoing a transformation and instead narrowing activities (and costs) with a migration to supported systems and a discrete, limited strategic modernization to align Joint Utilities' cost tracking processes with current and evolving reporting requirements. The Joint Utilities' approach to the non-discretionary task of maintaining ERP functionality will appropriately minimize cyber, financial, reporting, and other compliance risks while creating a runway for appropriate future modernization and transformation.

Joint Utilities' approach to SAP Migration is guided by three principles: to build a foundation for future upgrades and modernization; to preserve what works; and to modernize only what is necessary. The GRC Decision⁵ authorized \$51.212 million in capital costs for Joint Utilities to commence the initial phase (i.e., Phase 1A) of SAP replacement by migrating from SAP ERP Central Component (ECC) to S/4HANA,⁶ establishing a secure, compliant core foundation. After evaluating multiple options, the Joint Utilities now propose to build on Phase 1A by conducting operating and maintenance (O&M) activities (i.e., Phase 1B⁷) associated with the core ERP platform migration and build on that in Phase 2 by migrating four ERP-connected systems and the Special Purpose Ledger (SPL) for Federal Energy Regulatory Commission (FERC) reporting that will also cease to be supported as of December 31, 2027, including data integration, governance and compliance tools, and analytics platforms that are critical for

³ In Decision (D.) 24-12-074, the Commission conveyed its support for Phase 1 of the Program and recognized "SAP's critical role in the utility's day-to-day operations." D.24-12-074 at 650. Accordingly, the Commission authorized \$51.212 million in capital costs for the activities sought in that proceeding.

⁴ Southern California Edison Company (SCE) filed A.25-03-009 on March 14, 2025 requesting approval to implement revenue requirements based on forecasted capital expenditures and O&M expenses totaling \$1,321 million for the implementation of its NextGen ERP Program to address the imminent obsolescence of its legacy ERP system, and to enable business transformation that would expand its operational capabilities across the company.

⁵ D.24-12-074 at 650, 655.

⁶ "S/4" indicates the fourth generation of SAP's business suite, and "HANA" refers to the name of the suite—High-Performance Analytic Appliance.

⁷ Costs for Phase 1B could not have been sought in the Joint Utilities' prior GRC. Phase 1B work has been necessitated by Joint Utilities' decision to pursue a migration rather than a transformation of their ERP and was not estimable for the prior GRC.

promoting reliability and regulatory compliance. Also as part of Phase 2, Joint Utilities will focus on strategic modernization of their cost capture model to align key financial and operational workflows with evolving regulatory and reporting standards. The majority of the work is focused on merely transferring systems that will become obsolete to systems that will continue to be supported; the modernization of the cost capture model is the only proposal that can be considered to be more than a mere migration. This thoughtful approach is informed by real business needs that support incurring costs only where they enhance efficiency, transparency, and value across the enterprise.

Given the current ERP will cease to be supported at the end of 2027, time is of the essence in advancing the SAP Migration. Phase 1B, described below, must be implemented concurrent with some of the Phase 1A activities authorized by the GRC Decision and are planned to be completed in May 2027. Accordingly, Joint Utilities intend to seek a memorandum account by motion to record associated costs, all O&M costs, while this Application is pending before the Commission. Once the Application is approved, Joint Utilities will commence Phase 2.

II. DESCRIPTION OF PROJECT ACTIVITIES

In executing the SAP Migration, Joint Utilities intend to prioritize tackling the most critical technical and business challenges first to minimize operational disruption, maintain compliance, and keep costs and resources focused on essential upgrades and process improvements. This phased approach is described below, as well as the governance and assurance framework that will oversee the program execution.

Phase 1, which focuses on migrating the core SAP ERP system from ECC to S/4HANA and a secure cloud environment, was partially authorized (i.e., the capital costs) in the GRC Decision, and those activities are underway, scheduled to be completed by May 2027. Costs of O&M activities for Phase 1 (identified as “Phase 1B” herein), which include data migration and organizational change management, have not yet been sought nor authorized for rate recovery. Given these activities must be undertaken promptly in order for SAP Migration to keep pace to occur prior to obsolescence of the legacy system, Joint Utilities intend to file a motion for a memorandum account to allow those activities to occur while the Commission considers this Application. The majority of Phase 1B O&M activities must be implemented prior to the go-live deployment of SAP S/4 in May 2027; accordingly, they must be commenced expeditiously.

They are currently forecasted to cost \$13.7 million. Phase 1B activities also include conducting a request for proposal (RFP) process in 2027 for Phase 2 activities so as to commence Phase 2 promptly after a final decision in this proceeding.⁸

S/4HANA does not operate in isolation—there are multiple connected ancillary systems. Phase 2 activities would extend the migration of the core system in Phase 1 to these essential ancillary systems, such as integration of middleware, governance and compliance tools, lifecycle management, analytics platforms, and targeted financial processes. The activities focus on (a) technical migration that is necessary to promote the stability and regulatory readiness of the enterprise financial technology environment following the initial S/4HANA deployment; and (b) business process integration to align critical financial and operational workflows with industry best practices and evolving regulatory standards. As noted above, Phase 2 consists of two stages: one to migrate the legacy connected systems and SPL to a current supported version, and one to implement a strategic modernization.

As noted above, over the years, many business processes were customized to provide functionality. While these customizations were necessary and cost-effective at the time, today they hinder agility, increase maintenance complexity, and limit compatibility with modern technical platforms. Rather than keeping them, Joint Utilities propose taking advantage of a standardized feature for cost capture that SAP now offers as a replacement. In order to do so, Joint Utilities must adopt certain standardized SAP business processes, i.e., new workflows, controls, and compliance checks must be designed to align with the new platform and systems.

Phase 2 activities are expected to be completed in 2030 and are forecasted to cost \$334.4 million.

Program execution will be overseen by a program management office (PMO) in order to promote consistency, transparency, accountability, and alignment with established controls and review criteria to achieve business objectives cost effectively while mitigating and managing risk. The fully loaded costs of all program activities requested are forecasted to be \$348.1 million.

⁸ Note that no contracts will be executed for Phase 2 until there is a final decision in this proceeding.

Table A-1 – Fully Loaded and Escalated Costs of SAP Migration Program (In Millions)

	2026	2027	2028	2029	2030	Total
O&M	\$8.2	\$17.5	\$15.2	\$12.6	\$8.5	\$62.0
Capital	\$0.0	\$89.8	\$81.5	\$70.8	\$44.0	\$286.1
Total Fully Loaded & Escalated Costs	\$8.2	\$107.3	\$96.7	\$83.4	\$52.5	\$348.1

III. TIME IS OF THE ESSENCE

As alluded to earlier, time is of the essence to implement the SAP Migration Program. SAP will cease providing support for Joint Utilities’ legacy ERP and connected systems as of December 31, 2027. Accordingly, Joint Utilities are planning to deploy Phase 1 by May 2027, prudently leaving sufficient time to address any issues that may arise prior to cessation of support for the legacy system. Joint Utilities will commence Phase 2 activities, if authorized, as soon as they receive a decision authorizing the revenue requirement in this proceeding. Given that obsolescence begins at the start of 2028 and Phase 2 activities are expected to be completed in 2030, Joint Utilities will face increased risks until Phase 2 is completed, including the following:

Operational Continuity Risk: System stability is threatened by failure of the legacy system to function as designed, resulting in incompatibility risks (e.g., misaligned data models, interfaces, and control frameworks create integration failures and reconciliation issues); performance and stability risks (e.g., legacy platforms introduce bottlenecks, latency, and increased incident frequency when interacting with the modern S/4 core); and operational supportability risks (e.g., outdated components are harder to maintain, receive fewer patches, and prolong incident resolution, increasing the likelihood of service impacts).

Compliance Risk: Obsolete systems cannot reliably support evolving regulatory requirements. For Joint Utilities, this risks compliance with regulations imposed by the Commission, FERC, and Securities and Exchange Commission (SEC), including the Sarbanes-Oxley Act. Failure to maintain compliance could increase the costs of providing energy to consumers, including by limiting access to financing or increasing the cost of debt or requiring posting of additional collateral.

Cybersecurity Risk: Unsupported software increases vulnerability to security breaches, which heightens exposure to cyber-attacks, data loss, and operational disruption which could result in increased insurance and liability costs.

As a result of these risks, doing nothing is simply not an option, nor is delaying taking action. Migrating Joint Utilities' ERP environments promptly to modern architecture addresses and restores vendor supportability and promotes compliance while enhancing reporting capabilities. Utilizing new standardized features and capabilities made available through SAP's roadmap addresses business process obsolescence and achieves more efficient and scalable operations, as described in Chapter 2 testimony. Delaying migration amplifies risk, limits scalability, and significantly increases remediation complexity. Accordingly, time is of the essence to implement all SAP Migration Program activities.

IV. REGULATORY ACCOUNTING AND COST RECOVERY

Joint Utilities propose to establish the SAP Migration Balancing Account (SAPMBA) for each utility to record the authorized and actual revenue requirement.⁹ Each SAPMBA is proposed as a two-way balancing account, with costs incurred above the forecast subject to a reasonableness review in a standalone application, general rate case, or other appropriate proceeding, to promote fairness to both ratepayers and the utility: this mechanism allows the utility to be reimbursed for its actual costs for this non-discretionary program and ratepayers are not required to pay any more than those actual costs. If Joint Utilities spend less than the amount authorized by the Commission, ratepayers will be refunded an equal amount, with interest. If the costs of executing Phase 2 activities exceed the amount authorized, Joint Utilities would first have to establish the reasonableness of those costs consistent with the Commission's standards before recovering them from ratepayers.

Joint Utilities request the SAPMBA be authorized to be effective as of the date of filing this Application. Doing so saves ratepayers money and promotes fairness to the utility by allowing it to be compensated for necessary work. As noted above, Joint Utilities must conduct certain critical path work to deploy their new foundational ERP before SAP discontinues support for the current one, and that work must start before a decision can be issued in this proceeding.

⁹ For clarity, each utility seeks a SAPMBA to record their revenue requirements, as described in Chapter 3 testimony.

That work cannot reasonably be delayed pending a final decision in this proceeding without risking increased costs as well as the risks identified above stemming from an unsupported ERP. Joint Utilities must also commence an RFP process in 2027 in order to commence Phase 2 activities promptly following a final decision in this proceeding. Accordingly, Joint Utilities will file a motion to establish a memorandum account to record those costs, which are part of the overall costs forecasted for the SAP Migration Program. Joint Utilities propose that the final decision in this proceeding order the balance recorded to each memorandum account be transferred to each SAPMBA, where the costs can be tracked against authorized costs for the Program.

Joint Utilities further request to implement a revenue requirement to recover forecasted costs as they are incurred rather than in a lump sum following a reasonableness review of incurred costs. Doing so smooths increases in rates over time and saves ratepayers an estimated \$17.7 million (\$10.9 million for SoCalGas ratepayers and \$6.8 million for SDG&E ratepayers) in accrued interest, as described in Chapter 3 testimony.¹⁰ Accordingly, in addition to Joint Utilities' narrowly scoped request, the affordability of this non-discretionary program is further promoted by authorizing a revenue requirement.

Implementing the forecasted costs in rates, allocated according to the standard equal percentage of authorized margin (EPAM) methodology, amounts to peak-year¹¹ illustrative rate impacts ranging from 0.2 – 0.8%: SoCalGas gas rates would increase approximately \$0.40 per month (an increase of approximately 0.6%) for a non-CARE¹² residential customer using an average 35 therms per month; SDG&E gas rates would increase approximately \$0.54 per month (an increase of approximately 0.8%) for a non-CARE residential customer using an average 24

¹⁰ In D.26-02-006, the Commission recently found that the opportunity to save ratepayers \$918,000 in accrued interest justified interim rate recovery pending a reasonableness review. The decision stated, among other things, that granting interim rate recovery pending a reasonableness review produces “direct interest savings for ratepayers, promote[s] intergenerational equity, and preserve[s] the financial integrity of SoCalGas which will indirectly benefit ratepayers.” *Id.* at 1-2, 17-18 (Finding of Fact (FOF) 3-5).

¹¹ As described in Chapter 3 testimony, the peak year for rate impacts is expected to be 2028, the first year the accumulated revenue requirement from 2026 on will be implemented in rates.

¹² California Alternative Rates for Energy (CARE) is a low-income assistance program that provides discounted utility rates to eligible residential customers of California's regulated electric and gas utilities.

therms per month; and SDG&E electric rates would increase approximately \$0.46 per month (an increase of approximately 0.2%) for a typical residential bundled customer using 400 kWh.

V. SUPPORTING TESTIMONY

This Application is supported by the following testimony.

Chapter 1: Sara P. Mijares presents policy testimony supporting this Application. In particular, she describes the options evaluated prior to settling on the proposal for the SAP Migration Program, the need for timely implementation, and how Joint Utilities have tailored their requests in this Application to prioritize affordability for ratepayers.

Chapter 2: Gabriel Chong and Dennis Enrique describe the scope of the SAP Migration Program and Joint Utilities' approach to implementation, including program governance and the key activities for each major release. The testimony also describes the forecasted direct capital expenditures and O&M expenses required to implement the activities, and benefits expected from the migration to supported systems.

Chapter 3: Rae Marie Yu, Maria Becerra, DJ Scott, Marjorie Schmidt-Pines, and Rachelle Baez provide testimony supporting the regulatory accounting, cost recovery, revenue requirement, and associated rate and bill impacts for the SAP Migration Program. Their testimony further describes Joint Utilities' proposal to establish the SAPMBA to track the revenue requirements until it is incorporated in a future Joint Utilities general rate case.

VI. STATUTORY AND PROCEDURAL REQUIREMENTS

A. Rule 2.1 (a) – (c)

In accordance with Rule 2.1(a) – (c) of the Commission's Rules of Practice and Procedure, SoCalGas and SDG&E provides the following information:

1. Rule 2.1 (a) – Legal Name

SOUTHERN CALIFORNIA GAS COMPANY is a public utility corporation organized and existing under the laws of the State of California. SoCalGas's principal place of business and mailing address is 555 West Fifth Street, Los Angeles, California 90013.

SAN DIEGO GAS & ELECTRIC COMPANY is a public utility corporation organized and existing under the laws of the State of California. SDG&E is engaged in the business of providing electric service in a portion of Orange County and electric and gas service in San

Diego County. SDG&E's principal place of business is: 8330 Century Park Court, San Diego, California 92123.

2. Rule 2.1 (b) – Correspondence

All correspondence and communications to SoCalGas and SDG&E regarding this Application should be addressed to:

Paul Deang
Regulatory Business Manager
SOUTHERN CALIFORNIA GAS COMPANY
SAN DIEGO GAS & ELECTRIC COMPANY
555 West 5th Street, Suite 1400
Los Angeles, CA 90013
Telephone: (213) 244-4375
Email: PDeang@socalgas.com

A copy should also be sent to:

Avisha Patel
Managing Attorney
SOUTHERN CALIFORNIA GAS COMPANY
SAN DIEGO GAS & ELECTRIC COMPANY
555 West 5th Street, Suite 1400
Los Angeles, CA 90013
Telephone: (213) 244-2954
Facsimile: (213) 629-9620
Email: APatel@socalgas.com

3. Rule 2.1 (c)

a) Proposed Category of Proceeding

SoCalGas and SDG&E propose that this proceeding be categorized as “ratesetting” within the meaning of Commission Rules 1.3(g) and 7.1(e)(2).

b) Need for Hearings

SoCalGas and SDG&E do not believe that evidentiary hearings should be required.

c) Issue to be Considered

The issue to be considered in this proceeding is whether the Commission should approve SoCalGas and SDG&E's forecasted costs as reasonable and authorize them to be implemented in rates in order to enable SAP Migration Program activities.

d) Proposed Schedule

SoCalGas and SDG&E propose the following schedule for this application:

EVENT	DATE
Application filing date	May 1, 2026
Responses/Protests Due	Within 30 days of Daily Calendar notice
Replies to responses/protests	Within 10 days (see Rule 2.6)
Prehearing conference	July 2, 2026
Opening intervenor testimony	September 25, 2026
Concurrent rebuttal testimony	October 26, 2026
Evidentiary hearings (if needed)	November 2026
Opening briefs	December 2026
Reply briefs	January 2027
CPUC issues Proposed Decision	April 2027
CPUC issues Final Decision	May 2027

B. Rule 2.2 – Articles of Incorporation

A copy of SoCalGas’s Restated Articles of Incorporation as last amended, presently in effect, and certified by the California Secretary of State, was filed with the Commission on October 1, 1998, in connection with SoCalGas’s Application No. 98-10-012, and is incorporated herein by reference.

A copy of SDG&E’s Restated Articles of Incorporation as last amended, presently in effect and certified by the California Secretary of State, was previously filed with the Commission on September 10, 2014 in connection with SDG&E Application No. 14-09-008, and is incorporated herein by reference.

C. Rule 3.2 – Authority to Increase Rates

In accordance with Rule 3.2 (a) - (d) of the Commission’s Rules of Practice and Procedure, SoCalGas and SDG&E provide the following information:

1. Rule 3.2 (a)(1) – Balance Sheet and Income Statement

The most recent updated Balance Sheet and Income Statements for SoCalGas as of December 31, 2025 and SDG&E as of September 30, 2025 are attached to this Application as Attachment A and Attachment B, respectively.

2. Rule 3.2(a)(2) and (3) – Statement of Present and Proposed Rates

A statement of all of SoCalGas’s presently effective rates can be viewed electronically on SoCalGas’s website (<https://tariffsprd.socalgas.com/scg/tariffs>). Attachment C to this Application provides the table of contents from SoCalGas’s tariffs on file with the Commission.

A statement of all of SDG&E’s presently effective rates can be viewed electronically on SDG&E’s website (<https://www.sdge.com/rates-and-regulations/current-and-effective-tariffs>). Attachment D to this Application provides the table of contents from SDG&E’s electric tariffs on file with the Commission. Attachment E to this Application provides the table of contents from SDG&E’s gas tariffs on file with the Commission.

The illustrative rate changes that will result from this Application are described in Attachment F and Attachment G for SoCalGas and SDG&E, respectively.

3. Rule 3.2(a)(4) – Description of Applicant’s Property and Equipment

General descriptions of SoCalGas’s property and equipment was previously filed with the Commission on May 3, 2004 in connection with A.04-05-008, and is incorporated herein by reference. General descriptions of SDG&E’s property and equipment was previously filed with the Commission on May 16, 2022 in connection with A.22-05-016, and is incorporated herein by reference.

Statements of Original Cost and Depreciation Reserve for SoCalGas as of December 31, 2025 is attached as Attachment H and for SDG&E as of September 30, 2025 is attached as Attachment I.

4. Rules 3.2(a)(5) and (6) – Summary of Earnings

The summary of earnings for SoCalGas as of December 31, 2025 and SDG&E as of September 30, 2025 are included herein as Attachment J and Attachment K, respectively.

5. Rule 3.2(a)(7) – Depreciation

For financial statement purposes, SoCalGas and SDG&E have computed depreciation of utility plants on a straight-line remaining life basis at rates based on the estimated useful lives of plant properties. For federal income tax accrual purposes, SoCalGas and SDG&E generally compute depreciation using the straight-line method for tax property additions prior to 1954, and liberalized depreciation, which includes Class Life and Asset Depreciation Range Systems, on property additions after 1954 and prior to 1981. For financial reporting and rate purposes, “flow

through accounting” has been adopted for such properties. For property additions in years 1981 through 1986, SoCalGas and SDG&E have computed its tax depreciation using the Accelerated Cost Recovery System. For years after 1986, SoCalGas and SDG&E have computed its tax depreciation using the Modified Accelerated Cost Recovery Systems, and, since 1982, have normalized the effects of the depreciation differences in accordance with the Economic Recovery Tax Act of 1981, the Tax Reform Act of 1986, the Tax Cuts and Jobs Act of 2017, the Inflation Reduction Act of 2022, and the One Big Beautiful Bill Act of 2025.

6. Rule 3.2(a)(8) – Proxy Statement

A copy of SoCalGas’s most recent proxy statement, dated April 14, 2026, was mailed to the Commission on April 27, 2026, and is incorporated herein by reference.

A copy of SDG&E’s most recent proxy statement, dated March 27, 2026, was mailed to the Commission on April 1, 2025, and is incorporated herein by reference.

7. Rule 3.2(a)(10) – Statement Pass Through to Customers

Any rate increase resulting from approval of this Application will not solely reflect pass through to customers of increased costs to SoCalGas and SDG&E for the services or commodities furnished by them.

8. Rule 3.2 (b) – Notice to State, Cities and Counties

SoCalGas and SDG&E will, within twenty days after the filing this Application, mail a notice to the State of California and to the cities and counties in their service territories.

9. Rule 3.2 (c) – Newspaper Publication

SoCalGas and SDG&E will, within twenty days after the filing of this Application, publish in newspapers of general circulation in each county in their service territory notice of this Application.

10. Rule 3.2 (d) – Bill Insert Notice

SoCalGas and SDG&E will, within 45 days after the filing of this Application, provide notice of this Application to their customers along with the regular bills sent to those customers that will generally describe the proposed rate changes addressed in this Application.

D. Service and Notice – Rule 1.9

SoCalGas and SDG&E are serving this Application on all parties to the A.22-05-015/A.22-05-016 service list.

VII. RELIEF REQUESTED

Joint Utilities respectfully request that the Commission approve this Application in all respects including:

1. Authorizing Joint Utilities to establish the SAP Migration Balancing Account, an interest-bearing two-way balancing account to record the authorized funding approved in this proceeding and the actual O&M and capital costs incurred for authorized activities, effective as of the date of this Application;
2. Authorizing Joint Utilities to implement a revenue requirement based on their forecasted cost estimates provided herein;
3. Authorizing Joint Utilities, if the revenue requirement results in an overcollection, to refund the difference to customers in rates; and if the revenue requirement results in an undercollection, to request a reasonableness review of costs exceeding the authorized forecast in a standalone application, their next general rate case, or other appropriate forum;
4. Authorizing program costs incurred during this proceeding, and recorded to a regulatory account, to be transferred to the SAP Migration Balancing Account; and
5. Granting any other relief as necessary and proper.

VIII. CONCLUSION

WHEREFORE, SoCalGas and SDG&E respectfully request that the Commission approve this Application in its entirety.

Respectfully submitted,

SOUTHERN CALIFORNIA GAS COMPANY
SAN DIEGO GAS & ELECTRIC COMPANY

ATTESTATION

1. I am the Chief Accounting Officer and Controller of Southern California Gas Company (SoCalGas). I am providing this attestation based upon the requirements of Ordering Paragraph 5 of California Public Utilities Commission (CPUC or Commission) Decision (D.) 23-09-002.

2. On December 23, 2015, the CPUC's Executive Director issued a letter to SoCalGas directing SoCalGas to provide information to the CPUC concerning costs associated with the uncontrolled release of natural gas from Well SS-25 at the Aliso Canyon Storage Facility from October 23, 2015, through February 11, 2016 (the Incident).

3. Beginning in December 2015, SoCalGas has reported to the Commission the costs associated with the Incident in the monthly Incident-related cost report submitted pursuant to the Executive Director's December 23, 2015, directive (Directive Report).

4. On October 28, 2022, SoCalGas, the CPUC's Safety and Enforcement Division (SED) and the Public Advocates Office at the CPUC (Cal Advocates) filed a Joint Motion for Adoption of Settlement Agreement in Investigation (I.)19-06-016 seeking the approval of the Settlement Agreement entered by SoCalGas, SED, and Cal Advocates (Settlement Agreement).

5. On September 12, 2023, the Commission issued D.23-09-002 which approved the Settlement Agreement between SoCalGas, SED, and Cal Advocates resolving I.19-06-016.

6. Ordering Paragraph 5 of D.23-09-002 states that SoCalGas shall submit an attestation by a Vice President or higher company executive with every application requesting rate recovery attesting that it has not included any expenses or costs identified in the Settlement Agreement. This attestation requirement shall apply for five years from the date of the final issuance of this decision.

7. I have reviewed the testimony supporting this application (including costs requested) used to support SoCalGas's proposal and I have reviewed the most recent Directive Report. Based on my review of these documents and other diligence, I am informed and believe, and upon such information and belief, certify that SoCalGas has

not included any expenses or costs identified in the Settlement Agreement adopted in D.23-09-002 in the enclosed Application being filed on May 1, 2026.

Executed on May 1, 2026, at Los Angeles, California.

Sheet 1

The following sheets contain all the effective rates and rules affecting rates, service and information relating thereto, in effect on the date indicated herein.

	<u>Cal. P.U.C. Sheet No.</u>
TITLE PAGE.....	12805-G
TABLE OF CONTENTS.....	63506, 63450, 63498, 63507, 63370-G 63465, 63180, 27809, 26883, 26884-G
PRELIMINARY STATEMENT	
I. General Information.....	7270, 19259-G
II. Statement of Rates.....	11981, 63488, 63504, 63312, 63313, 16688-G
III. Cost Allocation and Revenue Requirement.....	20597, 23749, 24446, 24447, 14249, 7281-G
IV. <u>Balancing Accounts</u>	7489, 14250, 14251, 14252, 7493, 7494-G
Description/Listing of Accounts.....	15671, 25935-G
Curtailment Penalty Funds Account (CPFA).....	20599-G
California Alternate Rates for Energy (CARE)	
Balancing Account.....	15681, 15682-G
Gas Energy Efficiency Balancing Account (GEEBA)	19260, 19261-G
Rewards & Penalties Balancing Account (RPBA)....	19262, 19510-G
Pension Balancing Account (PBA).....	22923, 17754-G
Post-Retirement Benefits Other Than Pensions	
Balancing Account (PBOPBA).....	22924, 17755-G
Core Fixed Cost Account (CFCA).....	27632, 27633, 24449, 24615, 24616-G
Noncore Fixed Cost Account (NFCA).....	27634, 20603, 19269-G
Post-2005 Gas Energy Efficiency Balancing	
Account (PGEEBA).....	18442, 18443-G
Post-2005 Gas Low Income Energy Efficiency	
Balancing Account (PGLIEEBA).....	15710, 15711-G
Integrated Transmission Balancing Account (ITBA)	27635, 24618-G
Advanced Metering Infrastructure Account (AMIBA)	16271, 17757, 16273-G
Hazardous Substance Cleanup Cost Acct (HSCCA)...	15741, 15742, 17651, 15744, 15745, 15746-G 15747, 19270, 15749, 15750, 15751-G
Distribution Integrity Management Program	
Balancing Account (DIPMBA).....	17172-G
On-Bill Financing Balancing Account (OBFBA).....	18444-G
Post-2011 Distribution Integrity Management Program	
Balancing Account (P-11 DIMPBA).....	19974-G
Transmission Integrity Management Program	
Balancing Account (TIMPBA).....	19975-G
New Environmental Regulatory Balancing Account	
(NERBA).....	21026, 21027-G
Master Meter Balancing Account (MMBA).....	63171, 63172-G
Safety Enhancement Capital Cost Balancing Account	
(SECCBA).....	22098-G
Safety Enhancement Expense Balancing Account	
(SEEBA).....	22099-G
Greenhouse Gas Balancing Account (GHGBA).....	25835, 25974, 25975, 25976-G
Smart Meter Opt-Out Balancing Account (SMOBA)....	21113, 21114-G
Low Carbon Fuel Standard Balancing Account (LCFSBA)	21124-G
Biomethane Cost Incentive Program Balancing Account	
(BCIPBA).....	22429-G

(Continued)

TABLE OF CONTENTS

Sheet 2

Natural Gas Leak Abatement Program Balancing Account (NGLAPBA)	22691-G
Statewide Energy Efficiency Gas Balancing Account (SWEEGA)	26859, 26860-G
Liability Insurance Premium Balancing Account (LIPBA)	27716-8-G
Port Energy Management Plan Balancing Account (PEMPBA)	24354, 24355-G
School Energy Efficiency Stimulus Program Balancing Account (SEESPBA).....	25322,25209-G
Concurrent Application System Balancing Account (CASBA)	26551, 26552-G
Gas Line Extension Balancing Account (GLEBA)	27720-2
V. Memorandum Accounts	
Description/Listing of Accounts.....	22100,63175-G
Catastrophic Event Memorandum Account (CEMA)	15716, 27462, 15718-G
Core Reclassification Shortfall Memorandum Account (CRSMA).....	15719-G
Liquefied Natural Gas Service Tracking Account (LNGSTA).....	15723, 15724-G
Self-Generation Program Memo Acct (SGPMA)	24419, 24420-G
FERC Settlements Proceeds Memorandum Account (FSPMA).....	25977-G, 25978-G
Gain/Loss On Sale Memo Acct (GLOSMA).....	16402-G
Energy Efficiency 2009-2011 Memo Acct (EEMA)	17287-G
Wildfire Expense Memorandum Account (WEMA)...	18350-G
California Solar Initiative Thermal Program Memorandum Account (CSITPMA).....	22101-G
2012-2014 Energy Savings Assistance Programs Memorandum Account (ESAPMA).....	23795-G
Residential Disconnect Protections Memo Account (RDPMA)....	22347-G
Greenhouse Gas Administrative Costs Memorandum Account (GHGACMA).....	63116-G
Deductible Tax Repairs Benefits Memorandum Account (DTRBMA).....	21520-G
Tax Memorandum Account (TMA).....	21937-G
General Rate Case Memorandum Account 2016 (GRCMA2016).....	24196-G
Assembly Bill 802 Memorandum Account (AB802MA)..	21938-G
Pipeline Safety Enhancement Plan – Phase 2 Memorandum Account (PSEP-P2MA).....	21728-G
Avoided Cost Calculator Update Memorandum Account (ACCUMA).....	22102-G
Customer Information System Memorandum Account (CISMA).....	27183, 26989-G
Emergency Customer Protections Memorandum Account (ECPMA).....	22997-G
General Rate Case Memorandum Account 2024 (GRCMA2024)	23411-G
COVID-19 Protections Memorandum Account (CPPMA)	24040-G
Cost of Capital Memorandum Account (CCMA)	27636-G
New Environmental Regulation Memorandum Account (NERMA)	27578, 27579-G
Transmission Integrity Management Program Memo Acct. (TIMPMA)	25704-G
Distribution Integrity Management Program Memo Acct. (DIMPMA)	27722,29,30-G
Gas Safety Enhancement Plan Memo, Acct. (GSEPMA)	27723-4-G
Neighborhood Decarbonization Pilot Program Memorandum Account (NDPPMA).....	27725-6-G
	27734-G
	63176-77-G

(Continued)

TABLE OF CONTENTS

Sheet 3

V. Memorandum Account (continued)
 Climate Adaptation Vulnerability Assessment Memorandum Account (CAVAMA) 26555-G
 Percentage of Income Payment Plan Memorandum Account (PIPPMA) 25786, 25787-G
 Tariff On-Bill Memorandum Account (TOBMA) 26762-G
 Hydrogen Compendium Report Memo Acct. (HCRMA) 27463,27464-G

VI. Electric Distribution and Gas Performance Based Ratemaking (PBR) Mechanism..... 23295,17776-77, 17178, 22839, 23296-G
 22841G

VII. Gas Procurement Performance-Based Ratemaking Mechanism Procedure..... 20206, 15056, 15057, 13262, 13263, 13264G

VII. Miscellaneous
 Listing of Accounts..... 22754-G
 California Public Utilities Commission Mobilehome Park Gas Safety Inspection and Enforcement
 Program Surcharge (PUCMPGS)..... 16680-G
 Income Tax Component of Contributions and Advances Provisions..... 23549, 15739, 15740-G
 Gain/Loss on Sale Mechanism (GLOSM)..... 16404, 16405, 16406, 16407, 16408-G
 Consolidated Gas Portfolio..... 16681-G

IX. Cost of Capital Mechanism (CCM)..... 27459-G
 Safety Culture Assessment Memorandum Account (SCAMA) 63448-G

SCHEDULE OF RATES

<u>Schedule Number</u>	<u>Core Services</u>	<u>Cal. P.U.C. Sheet No.</u>	
GR	Domestic Natural Gas Service.....	63489, 26187, 17885-G	
G-CARE	California Alternate Rates for Energy (CARE) Program.....	15429, 24520, 24521, 14756, 15119-G	T
GM	Multi-Family Natural Gas Service.....	15897, 63490, 26189-G	T
GS/GT	Submetered Multi-Family Natural Gas Service.....	63491, 26740, 26191, 16873, 16874-G	T
G-NGVR	Natural Gas Service for Home refueling of Motor Vehicles	63495, 16668, 16878-G	T
GN-3	Natural Gas Service for Core Commercial Customers.....	18496, 63492, 63318, 21524, 21525-G 21526-G	T
G-NGV	Sale of Natural Gas for Motor-Vehicle Fuel.....	63493, 63494, 21779, 21529, 21530-G	T
GPC	Gas Procurement for Core Customers.....	63496, 19545, 17893-G	T
G-SMOP	Gas Smart Meter Opt Out Program	21116, 21117-G	
Noncore Services			
GTNC	Natural Gas Transmission Service for Noncore Customers..	63322, 63323, 18453, 18454, 18455-G	
EG	Natural Gas Interstate Transportation Service for Electric Generation Customers.....	63324, 63325, 21534, 21535, 21536-G	
TLS	Intrastate Transportation Service for Transmission Level Customers.....	17903, 63326, 63327, 63228, 63329-G 17908-15-G

Advice Ltr. No. 3264-G

Decision No. _____

Issued by
Dan Skopec
Senior Vice President
Regulatory Affairs

Submitted Dec 15, 2023

Effective _____

Resolution No. _____

ATTACHMENT F

The table shown below illustrates the changes in rates that would result from CPUC approval of this application, compared to current rate levels.

The typical residential gas customer using 35 therms per month would see a monthly bill increase of approximately \$0.40. This increase will be phased in beginning as early as 2028 through 2035.¹ The actual impact will vary based on usage, baseline territory and other factors.

Proposed Gas Rate Increase by Customer Class

Customer Class	Proposed Rate Increase (¢/th)	Percentage Rate Increase (%)
Residential	1.133 ¢	0.8%
Commercial	0.665 ¢	0.7%
Natural Gas Vehicles	0.223 ¢	0.6%
Large Industrial (distribution level service)	0.142 ¢	0.5%
Large Industrial (transmission level service)	0.042 ¢	0.5%
System Average Rate	0.414 ¢	0.6%

¹ Revenue requirements after 2035 may be included in a future SoCalGas General Rate Case Application. Increase calculated comparing 2028, which is the peak year bill impact, to current effective rates as of March 2025.

ATTACHMENT G

The tables shown below illustrate the changes in rates that would result from CPUC approval of this application, compared to current rate levels.

The typical residential electric customer using 400 kWh per month would see a monthly bill increase of approximately \$0.46.

Proposed Electric Rate Increase by Customer Class

Customer Class	Proposed Rate Increase (¢/kWh)	Percentage Rate Increase (%)
Residential	0.117 ¢	0.3%
Small Commercial	0.101 ¢	0.3%
Medium Commercial	0.058 ¢	0.2%
Large Commercial & Industrial	0.055 ¢	0.1%
Agricultural	0.053 ¢	0.2%
Lighting	0.046 ¢	0.2%
System Total	0.079 ¢	0.2%

The typical residential gas customer using 24 therms per month would see a monthly bill increase of approximately \$0.54.

Proposed Gas Rate Increase by Customer Class

Customer Class	Proposed Rate Increase (¢/th)	Percentage Rate Increase (%)
Residential	2.314 ¢	1.1%
Commercial	0.674 ¢	0.8%
Natural Gas Vehicles	0.225 ¢	0.7%
Large Industrial (distribution level service)	0.246 ¢	0.6%
Large Industrial (transmission level service)	0.042 ¢	0.5%
System Average Rate	0.954 ¢	1.0%

These increases will be phased in beginning as early as 2028 through 2035.¹ The actual impact will vary based on usage, baseline territory, and other factors.

¹ Revenue requirements after 2035 may be included in a future SDG&E General Rate Case Application. SDG&E will seek recovery of FERC-jurisdictional costs and benefits and associated revenue requirements from the FERC. Both electric and gas bill and rate increases calculated comparing 2028, which is the peak year bill impact, to current effective rates (4/1/2026 for electric and 3/1/2026 for gas).
