Subject: RE: ASRAC Nomination

Hi Dave,

I was glad we were able to clear up any concerns from recent activities and it was great to talk with you as well.

My only glitch is that we are not solely nominating Michelle, it is part of our "Statewide" team with the exception of PG&E so our letter of nomination will have three logos on it. I'm confident that the other two would likely not sign on as they are supporting Michelle because they know her and know she will shift the focus of the committee. How many positions are vacant? Is it only one? The information from DOE did not indicate the number of available seats. I am going to reach out to Emily Marchetti and find out tomorrow. Can we touch base again in the morning? Can you also send me your candidates resume?

Subject: [EXTERNAL] ASRAC Nomination

Sue, it was good to talk with you late yesterday in regard to SoCal's plans to nominate Michelle to serve on ASRAC. As you are probably are aware, APGA had nominated a candidate from the public gas system community last year and were looking to do so again but we were having trouble finding a volunteer. This morning one of our members did communicate his willingness to be nominated to serve on ASRAC and we will be submitting the nomination tomorrow. We are running the internal traps on whether APGA will also be able to support Michelle's nomination and I'll get back to you as soon as I can. Given the importance of having someone from the natural gas community on ASRAC, I wanted to see if there was any chance of SoCal also supporting our nominee if we are able to support Michelle's nomination. Dave
