

**Deliveries at Kettleman Station Interconnect to Morro Bay via SoCal Gas Line 44-306/7**

Line 44-306/7 purchased in May of 2021 resulting in the creation/addition of Kettleman Station Interconnect to the Master Exchange agreement.

The Master Exchange Agreement lists an additional tap with the name Kettleman Intertie. This tap is set to feed SCG lines 800 and 812 when pressure falls below 330 psig. While similarly named, this infrastructure is unrelated to the supply to Morro Bay.
